France is in a queer predicament, the result of the logical outcome of protectionist principles. Her workingmen and their families are starving for lack of bread, and her farmers are clamoring for the liverity to raise the price of grain. Between the two the government scarcety knows what to do, but inclines to help the farmers at the expense of the mechanics. Regarding this, however, a London cablegrammass: The French middlesses at Vienna, Home and Constantings send warnings to the home government that the contemplated increase of duty on grain and flour will expose France to represent in other countries. -A cable despatch from Parisi says it may be raiser as a settled fact that the government, it it is not forced to resign through a second adverse vote on the senate bill, will introduce a measure to increase the duty on corn. This is due to the agricultural population as an equivalent to the protection afforded to the manufacturing industries. M. Meline, minister of agriculture, favors an increase on corn to 2.601. per centuer. This sum is to be regarded as the maximum rate only, susceptible of reduction or abolition as occasion may permit. The committee of the chamber of deputies, to whom the whole question of protestion was referred, has decided to propose to the chamber an increase in duty upon foreign corn to 2f. 40c. per centner; on flour, to 7f. per batrel; on oats, to if 60c. per centner; and barley to 2f. per centner. -A scene of singular and somewhat ex-traordinary excitement attended the adjournment of the imperial parliament on Saturday. The motion to adjourn was made by Lord Grosvenor. Thomas Power O'Connor objected. He stated as his reason that there were sixty important questions before the house, and no adjournment could be decently taken until some of these questions were answered. journment could be decently taken until some of these questions were answered. In his objection Mr. O'Connor had the support of nearly all the Irish members and of many liberale and radicals. A bitter discussion followed, led by Mr. Callan. The result of the Irish opposition to the adjournment was two "count outs," ordered by the speaker, and it was by his resort to the cloture that Mr. Peet secured the declaration of adjournment. The Parnellites are greatly incensed over the speaker's conduct, and have already organized a strong movement for a vote of censure against him, to be pushed to a vote early next session.

OFFICE—In Brandon's Block, Cam Nitrous Oxide Gas used.—70-17.

W.H. GROSS Over 24 Year's Experience.

Mr. Gross has recently introduced the latest and most perfect system of vulcanizing, whereby any variety of kubber can be hardened without a risk of impairing its strength or injuring its texture. This new process was invented more particularly for the working of BLACK RUBBER, which, being perfectly pure to secure the best results requires a more pure, to secure the best results, requires a more uniform and higher degree of heat than is attaina le by use of the ordinary vulcanizing machine. The inventors ys that with Ash & Son's GENUINE ENGLISH BLACK RUB-BER, hardened by the new vulcanizing process, he can produce one of the best, if not the very best, dental plates in the world. Mr. Gross, with this improvement is enabled to make his Black Rubber Plates, beretofore good, still better than ever. All wearers of Black Rubber plates are delighted with them. Artificial teeth inserted on any kind of plate desired, includ-ing red rubber, and what is called gold alloy. A set of teeth on the latter material for \$8. A stock of about 10.000 ANTIFICIAL TEETH of all shapes, shades and sizes to select from. An upper or under set of teeth from \$8 to \$65. No charge for extracting teeth when new ones are to be made. VITALIZED AIR administered and ELECTRICITY still used with success. The natural teeth preserved by filling with gold and other good materials. Mr Gross having superior facilities for securing valuable improvements as soon as they are invented, always avails himself of this advantage, thus keeping in advance of all competitors. Rocms over Kennedy's store, Kent-st., Lindsay.

J. NEELANDS.

L. D. S. Over 20 Years' Experience. The most successful Dentist in this part of Canada.

The Gold Alloy used by Mr. Neelands for arti-The Gold Alloy used by Mr. Neelands for artificial teeth is a grand success not withstanding the false statements made about it by a Lindsay dentist, jealous of Mr. Neeland's enterprise in buying the patent right. This individual exhibits to his patrons a piece of gross metal resembling soft sawder or lead, and tells them that it is a poison and the same as Neeland's Gold Alloy, which is a falsehood, as the Gold Alloy used by him contains both gold and silver and no poison. Mr. Neelands inserts numbers of perfect fitting sets of teeth for people in Lindsay. One Marinosa as well as in anyers and of perfect-fitting sets of teeth for people in Lindsay, Ops, Mariposa, as well as in vanvers and other places, after this dentist had trued and entirely failed to give satisfaction. Black Rubber has been used by Mr. Neelands for the last 17 years. The "Only Genuine English Black Rubber" kept constantly on hand. Teeth inserted on any plate desired. In extracting teeth with gas it is a common thing for Mr. Neelands to extract from 19 to 15 teeth with one. Neelands to extract from 10 to 15 teeth with one dose of gas and the person leaving quite well and strong Mr. Neelands made a special study of this gas under Dr. Colton of New York, the inventor, who writes to Mr. Neelands that the inventor, who writes to Mr. Neciands that he has given the gas to 136,713 persons without an accident. Teeth filled to last a life-time. One lady says she had her teeth filled with gold by Mr. Neciands over 15 years ago, and her teeth are all good yet.
