A London cable says: Some of the political proposals advanced in Michael Davitt's book, "Lectures to a Solitary Audience," are causing bitter discussion. The book itself, which is nominally claimed to be a memoir of Davitt's recent gaol life, has turned on; to be a great literary success, and its matter is already extensively quoted and commented upon. The politics of the work, however, bid fair to set the radical and moderate factions of the home fule party by the care. The most important chapter in the book is that in which the author endeavours to find a final solution of the Irlah question. This, he contends, lies in the constitution This, ac contends, lies in the constitution of an arrive hattonal assembly to sit in public and to have control of all legislation relating to Irish domestic affairs. In the idea for which Mr. Davit contends, that this national assembly shall have aureune legislative power, so far as Irish notion no greater than supposed. Several local needs by themselves are concerned, by going no further he goes little beyond the views entertained by the extreme English radicals. -Another mysterious crime, attributed to ribilists, has just been discovered at Moscow. The police had their attention attracted to the cellar of an old unoccupied building by a terrible smell which proceeded from the place. They found in the cellar the decaying corpse of a young man whose identity had been effectually destroyed by the use of vitriol. The fluid had been liberally dested over the victim. and his head, neck, chest, and arms were burned. In addition to this his head had en emashed, and two large stones, with which this had evidently been done, were found covered with blood and tufts of hair lying near the body. The police believe that the victim was some young student who had joined the nihilists and had betraved some of their secrets. Their theory is that he was decoved into the cellar by the conspirators, and after being disfigur

Business.—Business of late is becoming brisker. Mr. J. J. Hannah is doing a large business in the boot and shoe trade. His increasing frade has caused him to enlarge his premises and he is going into manufacturing and will employ a number of workmen. Mesers. Walker & Campbell, merchant tailors, have been doing a very successful business here since they started as they keep the most fashionable stock of tweeds and give the most stylish cut ... Mr. C. H. Nix, the leading harness maker, is booming business and his show room is worth inspecting.

NEW CHURCH.—The new Presbyterian church has nearly reached completion and is a most elegant structure. It will be opened about the first of January. The main building is 40x76 feet. Mr. William Walker, the contractor, may justly feel

Walker, the contractor, may justly feel proud of his success in the erection of one of the most complete and best finished churches north of Toronto. The brick work and plastering was done by Mr. Stopp. The church is heated by two furnaces, one fed by wood and the other by coal and is lighted by gasoline. It is esti-

mated to cost \$10,000.

Good Hotel. The Plank house, under the management of Mr. Sharp, is becoming every day more popular. He is placing in his office a very nobby register got up at the office of The Lindsay Post.

ONTARIO COUNTY. Accident.-In Port Perry on the after. noon of the 10th inst., Mr. Peter Anderson fell from a hay loft and striking upon a box broke several of his ribs. It will necessitate his remaining quiet for some time.-Standard.

PARALYTIC STROKE.—A sad misfortune befel our town bill poster, Mr. F. A. Patte, on Wednesday week. While posting bills

he was seized with a paralytic stroke, which paralyzed one side of his body. He was conveyed to his home where medical aid was procured, but for some time he was speechless. But after awhile he could talk with one side of his mouth, and he is now improving as well as could be expected inder the circumstances. - Oshawa Vindi-A YOUNG HERO. - We chronicled briefly

last week the drowning of two boys at Oshaws while skating on Cedardale pond. Further particulars of this sad accident shew a heroism on the part of one of the drowned lads which deserved a better fate. The boys were playing shinny on the pond when the "puck" was knocked to the chan nel over deep water, and upon which the ice had only been formed the night before. the Riord in brothers, without thinking rushed after it, and broke through. Their comrade, Zera Fletcher, aged 14, immediately ran to their rescue, and plunged tnto the opening where the boys were struggling, and, no doubt, had not the cold water benumbed him, he would have suc seeded in landing both on strong ice. The momen he entered the water he seized Johnny Riordan and placed him on the edge of the ice, and then proceeded to mentire the younger boy, but meantime the ice gave way under Johnny, and he was once more in the water. But the Riordan boys seized and hung to him with a death!v grip, and finally young Fleicher and Eu gene Riordan sank to the bottom. Johnny Riordan floated for a few seconds under the surface, and was taken out in an uncoarcious state by Mr. George Anderson, who, at considerable risk to his own life, did what he could to afford them help.

Their cries for help are said to have been heart-rending. [R former.

PROLIFIC YIELD.—Mr. Arthur Ridley has been favored by Providence this year with one of the largest crops of corn we have had brought to our notice. After carefully computing the yield on five acres he states it will average between 60 and 70 bushels of shelled corn to the acre. Some of the samples left at this office certainly give evidence of a prolific yield, the size of the ears being about on a par with those of the jackass which runs a certain Whith paper. The kernels on one cob were counted to satisfy curiosity, and they numbered no less than 778. -[Pickering News. RELIEF TO THE NEEDY.—The secret socie-

Mr. Gross has recently introduced the latest and most perfect system of vulcanizing, whereby any variety of Rubber can be hardened witheat a risk of impairing its strength or injuring its texture. This new process was invented more particularly for the working of BLACK RUBBER, which, being perfectly pure, to secure the best results, requires a more uniform and higher degree of heat than is abtainable by use of the ordinary vulcanizing machine. The inventors ye that with Ash & Son's GENUINE ENGLISH BLACK RUBBER, hardened by the new vulcanizing process, he can produce one of the best, if not the very best, dental plates in the world. Mr. Gross, with this improvement is enabled to make his Black Rubber Plates, heretofore good, still better than ever. All wearers of Black Rubber plates are delighted with them. Artificial teeth inserted on any kind of plate desired, including red rubber, and what is called gold alloy. A set of teeth on the latter material for \$8. A stock of about 10.000 ARTIFICIAL TEETH of all shapes, shades and sizes to select from. An uppaper or under set of teeth from \$8. to \$8. A stock of about 10.000 ARTIFICIAL TEETH of all shapes, shades and sizes to select from. An upper or under set of teeth from \$8 to \$85. No charge for extracting teeth when new ones are to be made. VITALIZED AIR administered and ELECTRICITY still used with success. The natural teeth preserved by filling with gold and other good materials. Mr. Gross having superior facilities for securing valuable improvements as soon as they are invented, always avails himself of this advantage, thus keeping in advance of all competitors. Rocms over Kennedy's store, Kentst., Lindsay.

OFFICE-In Brandon's Block, Can

Over 24 Year's Experience.

Nitrous Oxide Gas used.-70-ly.

Over 26 Years' Experience. The most suc cessful Dentist in this part of Canada.

The Gold Alloy used by Mr. Neelands for artificial teeth is a grand success not with standing the false statements made about it by a Lindsay dentist, jealous of Mr. Neeland's enterprise in buying the patent right. This individual exhibits to his patrons a piece of gross metal resembling soft sawder or lead, and tells them that it is a poison and the same as Neeland's Gold Alloy, which is a falsehood, as the Gold Alloy used by him contains both gold and silver and no poison. Mr. Neelands inserts numbers of perfect-fitting sets of teeth for people in Lindsay, Ops. Mariposa, as well as in danvers and other places, after this dentist had tried and entirely failed to give satisfaction. Black Rubber has been used by Mr. Neelands for the last 17 years. The "Only Genuine English Black Rubber hept constantly on hand. Teeth inserted on any plate desired. In extracting teeth with gas it is a common thing for Mr. Neelands to extract from 10 to 15 teeth with one dose of gas and the person leaving quite well and strong Mr. Neelands made a special study of this gas under Dr. Coiton of New York, the inventor, who writes to Mr. Neelands that he has given the gas to 136,713 persons without an accident. Teeth filled to last a life time. One lady says she had her teeth filled with gold by Mr. Neelands over 15 years ago, and her teeth are all good yet. "The People's Dental Instructor," a book worth its weight in gold. Call and get a copy free. Office next door to R. Smyth's Store. May be found after hours at private residence, Mili-st., near Kent.
