MATTERS AT OTTAWA

Public attention is so deeply engrosse is the North-western and Afghan questions that the regular parliamentary procoedings at Ottawa attract comparatively

Sir John Macdonald has to the suspense and mortification of many of his supporters completely backed down on his license set. He suddenly agreed to accept the measure of Mr. Cameron of Huron, of course thereby abandoned his own pet scheme, which has occasioned so much trouble, expense and annoyance. Score one more for Mr. Mowat.

The notorious franchise bill has been sesin introduced, and is this time to become law. It is intended to be a far more effective weapon against reformers than was the gerrymander. Its chief object is to put the preparation of voters' lists in the hands of tory revising barrieters, who will endeavor to "fix" them in the interests of the tory candidates. Renewed vigilsuce on the part of the reformers will be secessary to defeat these tactics.

The financial eltuation is going from bad to worse, Sir Leonard Tilley has very heavy liabilities maturing shortly; his "floating debt" is bothering him a great deal: and another big haul will have to be provided for the C. P. R. and for the bieus as well. The latter insist upon the goverument purchasing the North Shore line for the C. P. R., although the C. P. R. do not went it and have repeatedly declined

WEY DEWDREY IS NOT BOUNCED.

There is an universal demand for the dismissal of Gov. Dewdney, who is considered one of the principal authors of the North-west troubles. The feeling against Dewiney is as strong among conservative as reformers. The evidence against him is

so strong that it cannot be galaxayed. In order to give our readers an idea of the feeling and impressions which rightly or wrongly prevail in the North-west we he following extencts from a letter ived from a quationna living at Fort Qu'Appelle and who is theroughly inform-ed as to what is going on in the imme

The Globe puts Sir John Macdonald in a favorable and finttering light before the people. In one of those engravings or war pictures for which the leading Toronto daily has won imperiable renewn, Sir John is represented as a hundrouse man of about twenty-five. The picture will gratify "Old To-morrow," and make up for a great many Globe editorials.

The Prince of Wales has been "slumming" in Dublin, doing Killarney, attending the races at Punchestown, holding time generally in Ireland. The smisble princess makes houts of friends. There has been some demonstrations on the part of the nationalists; but the visit has been a

The "Ouimet rebellion" has formed a singular and exciting phase of the North-west troubles. Col. Onimet, of the 65th batt., sles au M.P., left his regiment at Calgary, and proceeded to Ottawa and Montreal. At various stages eastward he mysteriously breathed "fire and slaughter," not against the rebels but against the gov ernment on account of the incomplete equipment of his battalion and general mismanagement in the North-west. He intimated that when he reached his place in parliament he would a tale unfold that would howrify the country. But when the gallant colonel reached Ottawa his mission, after an interview with Mr. Caron, dwindled down to "ingent private business;" and we are told he is to go back to his regiment in the North-west. CENTEMARIANN—A. UNIQUE COUPLE.—
It seldom if ever falls to the lot of a minister to bury within a few months of each other accupie whose married life was over seventy-four years and who were each over one hundred years old when they died. Such has been my experience in the last six months. Mr. and Mrs. Hugh McDonald lived for many of the last years of their long life on the 10th line of Mariposa, near Brock. Last fall the aged wife died and last week the husband went to his "long home." Their grandsons acted as pall-bearers. Mr. McDonald and his wife were among the first settlers in this neighborsmoug the first settlers in this neighborhood. Long before there were any churches in this locality Mr. McDonald opened his house for the preaching of the gospel. His humble log house was the "meeting-place" for many years. He was a member of the church for over sixty years. Only a few years ago he could "put up" his cord and a half of wood per day. His sight, hearing and activity was warnershall. and activity were remarkable till within a short time of his death. He was a brother of the late "Squire" McDonald of Manilla. Both of these departed centenarians enjoyed the respect of this whole community.

Perfection Milk Can.

(Patented August 2nd, 1884.) GEO. STUBGEON, Kincardia Patentee and Manufactures

This can is acknowledged by practical butter makers to be the best in the market.

Over 300 were sold last season, and the patent was issued at above late date. Inviting the attention of the farming community to the merits of the Perfection Can, the patentee does so backed up by the evidence of all who have used it throughout the townships surrounding the town of Kincardine, and particularly among the patrons of the Armow Creamery.

Among many points of acknowledged superiority, is the concave buttom, so that in drawing off the milk the sediment settled at the bottom comes first and the can left perfectly clean; the rapidity with which cream is raised; the peculiar shape of the cover, being conical, causes the steam and animal oder, which condenses on the inside of the cover to drip outside into the water, thus leaving the cream perfectly pure. Any practical research will as cover to the c leaving the cream perfectly pure. Any practical person will at once admit this to be an advantage over all flat top came. It will be seen that the patentee is justified in claiming that this can is superior to all others for furnishing pure, sweet eream.

TESTIMONIAES. Among the many testimonials the following is

ARMOW CREAMERY, Kincardine Township, Jan. 1, 1885. Kincardine Township, Jan. I, 1885.

To Mr. Gro. Sturgeon.—Dear Sir.—The undersigned officers and patrons of the above creamery, having used and thoroughly tested your Persection Cream Can, have no hesitation is saying that it is in every way satisfactory, and in many respects superior to most of the cans now in the market. We have tested other cans along with Sturgeon's Perfection, and unhasitatingly say that we prefer the Perfection Can. Signed by W. Renker. President, John Perseck.

HONEY FOR SALE.

S. CORNELL.

\$500 CHALLENGE.

I have placed \$500.00 in the Bank of Montreal here, and challenge any agent in the county of Victoria to cover it with an equal amount, and prove, in fair competition, that the Bell, or any other organ made in Canada, can beat the DOMINION, made in Bowmanville, Ont. In reply to an article in the Warder, nominally written by W. Bell & Co., I beg to say that I do not represent myself as agent for the sale of their organs. I am agent for organs superior both in tone, finish and durability. True, I keep their organs on hand to meet the wants of parties who wish to get a cheap instrument. I pay cash for all my goods, and ask no favors from any manufacturer, much less from their agents, notwithstanding anything said to the comitant. Any statement I have made I am prepared to maintain either in their presence or in the presence of any agent of theirs in the country of Victoria. Description Organs and Plance LEAD THE WORLD, and this accounts for the squealing of agents who cannot
