HALL'S TELLES Hair Renewer.

Seldom dees a popular remedy win such a strong hold upon the public confidence as has HALL'S HAIR RENEWER. The cases in which it has accomplished a complete restoration of color to the hair, and vigorous health to the scalp, are innumerable.

Old people like it for its wonderful power to restore to their whitening locks their original color and beauty. Middle-aged people like it because it prevents them from getting baid, keeps dandruif away, and makes the hair grow thick and strong. Young ladies like is as a dressing because it gives the bair a beautiful glossy lustre, and enables them to dress it in whatever form they wish. Thus it is the favorite of all, and it has become so simply because it disappoints no one.

BUCKINGHAM'S DYE FOR THE WHISEERS

TEMPERANCE LECTURE. An interesting and instructive lecture was delivered in the Presbyterian church on the evening of the 13th inst. by Mr. Donald Cameron of lacknow, but formerly of this village, as it were, defiance, and trusting in th The church was crowded to its utracet ca pacity. Mr. Cameron left his native village when a mere lad to seek his fortune, and we are happy to state that his career in life so far has been prosperous in every respect. He has been a firm supporter of the temperance cause from his boyhood. By his eloquence and enthusiasm during a lecture of two and one-half hours he secured the attention of the entire audience, who were delighted with the ability displayed by an old schoolboy of Kirkfield and the son of their old neighbor, Mr. E. Cameron. He urged in impressive langunge upon every elector present who has the prosperity of the country at heart to the prosperity of the country at heart to mark their ballot when the proper time arrives in favor of the Scott act. He quoted the opinions of several of the most eminent physicians, clergymen and judges of the civilized world, showing the innumerable evils caused by the excessive use of strong drink. The meeting was attended by the two hotelkeepers of this village. One thing characteristic about Mr. Cameron is that he flercely assails the traffic in on is that he flercely assails the traffic in strong drink and not the hotelkeepers, as is customary with some speakers on this

MILLBROOK. Accidents. - Master Charlie Richardson, son of Mr. James Richardson, constable, met with a severe accident one day last week. SUMMER SIGNS.—We are not altogether without signs of summer. Since the weather has got a little warmer tramps are on their rounds. They generally go by twos, and all complain of hard times. Tramps appear to be as plentiful as they were before the national policy came in force.

New Liquor Stork.—Mr. Moore of Orillia, has erected a new building which is to be used as a liquor store. Mr. Moore has been keeping a hotel in Orillia; but as the Scott act came in force there Maylet, he was obliged to give up his business there, but resolved not to abandon it entirely. REAL RETATE CHANGES.—Mr. Robins from Beaverton has bought Dr. Woode's house and lot.... Mr. John Shields has bought two lots from John R. Graham. Mr. Shields has the most of the lumber on the ground to erect a private dwelling house, which owing to the location will command a fine view of the village and surrounding scenery.....Mr. Boden has added another fine lot to his other two lets making now a valuable village property.

Mr. Laugley purchased the lot formerly owned by Mr. Thompson and intended

ly owned by Mr. Thompson and intends to build at an early date.....A. C. Graham has bought the house and lot in which the postoffice was formerly held and is having it repaired. This is quite a boom in real estate and there is simple room for further purchases and good bargains, too. There is foom here for a tailor shop, a drug store and an excellent opening for a harness maker. A woollen factory would get plenty to do here as there is none any nearer than Lindsay or Cannington and Norland. With a small capital a person who understood the business could buy land, a splendid site, very cheap, and do a fine business. Why the G.T.R. don't keep an agent here is a mystery. It is the objective point for a great deal of shipping, including much of the stuff used by the Longford Lumbering Co. Our creek has overflowed to the dimensions of a pond, giving the young people delightful evenings boating and in-ducing wild ducks to sport themselves jauntily under the noors of several members of the sporting fraternity, quacking as it were, denance, and trusting in the close season fortifications. Plowing began last week, the frogs are out; at Uphill it is said the snakes are out as well. Wiggins predicts a cold and wet summer. THE VICTORIA ROAD, From here to Glenarm the Victoria road is in a very bad state. A little over twenty years ago this road was constructed as a colonization road. At that time very few settlers lived along the survey and those who were already settled near to it either had very little clearing or agricultural facilities. After the clearing or agricultural facilities. After the lumbering boom was over the people turned to their farms and now many are comparatively comfortable and contribute their due quota to the revenue of the county. Undoubtedly not a few were induced to settle in proximity to the Victoria road as it was a county road. Those who were managing our affairs in those days were well worthy of the trust and had anyward. well worthy of the trust and had apparently good conceptions of what the future was likely to develope. It may be safely laid down that no road in Victoria county has tended more to the settlement of the back townships and to the development of the resources of those townships and to make what at that time might be called back townships front ones than the Victoria-road. That the present kind and obliging thrown out. Fortunately none were hurt seriously.

NARROW ESCAPE FROM DROWNING.—
The following item from Souris, Man., is contributed to the Port Hope Guide: While Mr. Foster, reeve of Whitewater, W. Winslow and J. Butler were crossing the river here in a small boat, and when about half way over Foster dropped his umbrella and in leaning over the side to recover it upset the boat. Messrs, Winslow and Butler swam to shore, but Foster not being able to swim clung to the bottom of the boat. After being in this position some twenty minutes it was evident to all he was giving out and would soon have found a watery grave but for the timely appearance of Mr. Fred. Sowden, who unhesitatingly planting the form of the county council and that few of them travel over it that they have so long neglected to give it the due attention it so justly deserves. My intention is to remind the reeves in the townships adjacent and in the rear that it is high time they earnestly urged a grant the next June session on this road—not a grant of a hundred or two hundred dollars, but something tangible, with due precautions against the irregularities of that of three or four years ago. The county is indebted more perhaps ago. The county is indebted more perhap to this road than to any road in it. It has aided the increase of resources from which to-day we would not be reaping any tax revenue. Then grant at least a small perrevenue. Then grant at least a small percentage as recomment of past profits and those permanently to follow. When the road was constructed timber was plenuiful, and as I have already stated very little was cleared on either side. The plan of those days was to put a cordurory bridge in all existing hollows. Perhaps some of your readers will be somewhat surprised to learn that the logs in many cases which were thrown into the road when first constructed are still either partially sound or rotten in the bed them laid. On those stretches much money has already been

rotten in the bed then laid. On those stretches much money has already been spent patching and covering. In the course of time as the land has been cleared less water lies on in the summer and now so dry is the location of pieces of this crossway seems to be that a casual observer need not hesitate to see with amazement "Why in the worlddid they put a crossway there!" To put more earth on those logs would in many rods be only casting money away. The short and the long of it is that the logs in many places are rotten and beginning to break through and need to be taken up. To save money away with them. Let the stuff now remaining on them drop in the course, make a tumplike with a cost of gravel and a permanent road which in the long run will be true consony. Many latter shakes every late. DESCRIPTION AND PEDIGREE.—Scottish Champion, (Registered No. 791); weight 1,030 lbs., was imported by John and F. Scott, bred by M. G. Ferguson, Petifichie, Moneymuck, Scotland. He is a beautiful dapple brown horse, stands 16 hands 2 inches high, with fine symmetry, short, honey legs, sound feet; of remarkably good temper and action, which cannot be surpassed; is a sure foal getter. He combines the rarest finish throughout every part of his form, especially is the head and neck of the most exquisite formation. As a perfect type of the Clydesdale race he probably has no superior. He combines to the highest degree of perfection the most valuable qualities of his kind; with the weight of a heavy draught horse, he unites the spirit and courage of a thoroughbred, and is said by competent judges to be the best clydesdale horse in Canada, and one of the best horse that ever crossed the ocean. Scottish Champion has been very successful in the show ring. The day before leaving Scotland he showed in Moneymuck against 38 and carried off first prize, After 15 days' voyage he showed in Newcastle, Ont., and carried off first prize at the Central Exhibition in 1878, the first prize at the West Northmuseriand Agricultural Seciety's Show. Cobours, 1878, and the first prize at Port Hope and took the first prize at the Central Exhibition in 1878, the first prize at the West Northmuseriand Agricultural Seciety's Show
