LINDSAY, FRIDAY, MAY 29, 1885. LOCAL NEWS-LETTERS

SOUTH OPS. [Correspondence of The Post.]

volume of water passing through the out-lets it was difficult to take accurate observations, but they thought some obstructions were put in. Mesers. Cockburn and Gould were at once communicated with, and forthwith, Mr. Walters, the superintendent of the Ontario public work department, came up to make an examination. About a dozen of our leading men went to Washago with Mr. Walters and accompanied him while making a rough examination of the outlets. Mr. Walters was of the impression that no stones had been put in, but was somewhat surprised at the height of the waters. It was accertained by him that the lakes were [9], inches higher than when he commenced to remove the obstrucwhen he commenced to remove the obstructions last October. Every person present saw clearly that it was simply impossible to prevent the periodical rise of the lakes without adopting the regulation scheme that myself and others, notably Mr. A. P. Cockburn, M.P., always advocated. If the outlets are widened and deepened and proper stop-log dams inserted we know from practical experience that the waters can be controlled. Now, as to the cost. Mr. A. G. Cavana, P.L.S., who made a thorough examination of the lakes and outlets for the Ontario government, informed me on the 22nd inst. that the regulation schemeso as to keep the waters at their average height, which would be at about 15 inches lower than at present, would cost about height, which would be at about 15 inches lower than at present, would cost about £12,00. This includes much work further down the river so as to relieve the mill owners of Washago of back water—a thing which must be done to prevent those men from sustaining damages. Mr. Jac. Quinn, reeve of Orillia, thinks it can be done for less; while Supt. Walters thinks it will cost about \$15,000 to make a first-class job of it. That it would not cost more than \$15,000 appears to be a certainty, and when one takes into consideration the immense benefits that would follow the adoption of the regulation scheme one cannot hesitate to say that it ought to be speedily done. When at Washago we interviewed Mr. Marshall, the principal property holder there. Mr. Marshall said that he would offer no objections to the regulations of the lakes provided he was assured that the lakes provided he was assured that the lakes would not be kept too low. I believe Mr. Thomas Robinson said the same thing. All the mills were running at Washago last October when Mr. Walters went to remove the obstructions and then the waters were 19½ inches lower than they were on Monday, the 17th inst. It will thus be seen that if the lakes were kept at 15 inches lower than on the 17th inst., the people of Washago would suffer no lose; but on the contrary a gain for the scheme advocated would enable them to run their mills right up to the close of navigation, or in other words until the freet stopped them. Under the example that as the lakes get too low some falls. To sum up if the regulation scheme was adopted;—(1.) Some 20,000 acres of valuable land would be reclaimed. (2.) The mill owners of Washago would be enabled to run their mills the entire season any and every year. (3.) Revigation would be bemefitted by preventing the waters from getting too low any year. (4.) Every farmer around the lakes would know accurately how acc lower than at present, would cost about #12,0:0. This includes much work further

FENELON FALLS.

FENELON FALLS.

[Correspondence of The Post.]

Salvation Army Picnic.—As was annousced the salvation semy held their first plenic at Rosedale on Monday, May 25th. About 300 people assembled at the wharf here to be conveyed to the picnic grounds on Mr. McArthur's boat, "The Swan," with scow attached. All passed off quistly until the boat was returning in the evening with the picnic party. The boat was about entering the locks at Rosedale when by some mismasagement she struck and broke one of the boom timbers attached to the piers to prevent logs, etc., passing over the dam a few hundred yards below. A strong wind was blowing at the time and the current being swift, the boat and scow with their load of human freight drifted rapidly towards the dam and a moment later all would be over. Everyone on board became panic-stricken, including the salvation soldiers. Several ladies fainted, children screamed, some clinging to their parents, while a number of men and boys jumped into the river and managed to reach the shore. The scow reached the edge of the dam, one end went partly over. Those on board crowded to the opposite end shouting for help, and owing to the weight being all on one end the seow stuck on a rock in the dam, preventing all on board heing thrown over, where it would have been impossible to save half of those on board. Planks were laid from the boat to the seow when all were safely landed. The salvation army immediately held a prayer meeting on the shore which was a most enthusiastic one. Mr. McArthur is severely censured for allowing his boat to be run by parties having to certificates as engineers or captains. It was owing to bad management that the beat was allowed to drift down to the dam, and it will be some time before those who were on board will risk their lives again.

[Correspondence of The Pest.]
OBSTUARY.—Little did we think last week that we should so soon again be called upon to record the death of another of our highly respected citizens. A little over a week ago Mr. Black was attacked with inflammation of the lungs, but not until it had run its course a few days were there serious symptoms presented and from this time till his death not much hope of his recovery was entertained. On Sunday DREDGING.—There is some talk of dredging out part of Stoney creek this summer. This would be a great improvement to some farms, as they are quite low in parts of this locality.

\*\*RIRKFIELD.\*\*

[Correspondence of The Post.]

CHANGED HANDS.—Mr. T. H. Thompson of Goodwood has leased that well-known hotel, the "Campbell House," from Mr. Hector Campbell. Mr. Thompson was a former resident of this place and is a highly popular man for the business.

[Correspondence of The Post.]

REGULATING THE LAKES.—As the waters of the lakes have been very high this spring Messrs. Thompson, Mulvihili and Healy determined to go, and if possible, examine the outlets at Weshago in order to acceptable in the outlets. Owing to the great volume of water passing through the outlets it was difficult to take accurate observations but that thought and healy one of water passing through the outlets it was difficult to take accurate observations but that thought and passing the outlets it was difficult to take accurate observations but that thought again bears of its birth but is somewhat improved.

NEW SIDEWALK.—The atdewalk on the sunday in the source of its birth but is somewhat improved.

very ill since the time of its birth but is somewhat improved.

New Stdewalk.—The sidewalk on the north side of King-et. is completed and makes a very great improvement. We believe the council have decided to put a new one on the south side this year also, although at first it was thought it would be too much expense to build so much at once but a petition having been largely signed by the villagers showing it was their wish to have it done right away was presented to the council, which was so largely signed they had no difficulty arriving at the conclusion that it was the wish of the rate-payers to have the new side-walk.

Oddfellows attended the funeral of Bro. Brandon of Cannington on Saturday last.

of Bro. Brandon of Cannington on Saturday last.

THE "24TH."—The 24th May having been celebrated at Cannington a number of our citizens went there to witness the sports.

CAMERON'S RANCHE IN CARDEN.—The Mesers. Cameron have now 200 head of cattle on their ranche. The grass is unusually good for the time of year. They will also put a large number of horses on shortly. The greater number of the cattle were purchased by Mr. Desnis Scully of Emily.

CANNINGTON.

King was placed on the roil as tenant of 50, King st.; and Richard Kinney as tenant of 5 and 9, Laidlaw-st., instead of J. H. Walker... The council then resumed their ordinary business. On motion of Dr. Gillespie, seconded by Mr. Sinclair, the following accounts were paid: J. B. Woon, lumber, 920.39; L. McHain, night watchman, \$1.50. The reeve expressed his intention of issuing his warrant to hold an election for councillor to fill the vacancy caused by the cillor to fill the vacancy caused by the death of the late Wesley Brandon. On notion the council then adjourned to meet

PORT HOPE.

[Correspondence of The Post.]

A NEARLY FATAL ACCIDENT. — About [Correspondence of The Pust.]

A NEARLY FATAL ACCIDENT.—About
7.30 o'clock on Thursday morning Mrs. Jos.
Wood and her little daughter were crossing
on the railway bridge at Resmish's mill,
when the child stumbled. The mother in
trying to keep the child from falling into
the water, missed her footing and fell in
herself and went out of sight. The child
screamed forassistance, when the men from
Mr. Craig's tannery and Carron, the miller,
rushed to the rescue. Mrs. Wood had sunk
the second time when Mr. Carron who with
forethought had brought a pike-pele from
the mill, to which the drowning woman
clutched with the energy of death and was
drawn out of the water. She is not much
the worse for her involuntary bath.

A Eng Firm.—On Friday morning the fire
bells were rung when it was found that the
large brick flour mill of Mr. H. Barrett was
on fire. The firemen were promptly on
hand and two hose attached to the hydrant
at the corner of South and Cavan streets.
Tons of water were thrown into the burning building. The fire was confined to the
mill. The storehouse adjoining was uninjured. Mr. Barrett's lose will amount to
between \$12,000 and \$15,000; covered by
\$3.000 on the building, \$3.000 on machines.

jused. Mr. Barrett's loss will amount to between \$12,000 and \$15,000; covered by \$3,000 on the building, \$3,000 on machinery and \$3,000 on stock. We did not learn the name of the company in which the insurance is affected, but Mr. Thos. Long is the agent. We are pleased to learn that Mr. Barrett will rebuild. The origin of the fire is a mystery, but it is supposed to have taken either from a heated journal or spontaneous combustion.—[Guide.

COMMERCIAL NEWS.

OFFICE OF THE CANADIAN POST, LINDRAY, May 28th, 1885. | Business and Produce.

There has been a fairly busy week at the local market, considerable grain coming in. Prices are steady and likely to remain so. Prices are steady and likely to remain so.

Produce is in demand, eggs being freely bought at from 10c, to 11c, per dozen. Potatoes for seeding and use are offered in quantities and bring from 15c, to 20c, per bushel. The wool season is just opening up and the prospects are that a large amount will be brought to market. On Wednesday a small quantity was bought at 15c, per 1b, and the outlook in regard to wool points to 16c, as being about the figure which wool will bring.

Mentreal Live Stock Market. At Viger market the receipts were 250 head. There was a good demand with prices firm. Good to choice steers sold at 41c to 5c. per lb, live weight, and common 4½c to 5c. per 10, live weight, and common to fair at 3½c. to 4c. There was a fair supply of calves and prices easier, with receipts of 200 head, and sold firm at \$2.50 to \$6. Spring lambs were in active demand, there being 30 head offered, which sold at \$3.50 to \$4.50 according to quality.

The Montreal Horse Market. There has been a moderate demand for borses, but the supply is not large. Sales reported at the horse exchange were:-One pair horses at \$350; one pair at \$370; and one pony at \$100. At the exchange the offerings include eleven fine carriage horses valued at \$400 to \$700 per pair.

British Live Stock Trade.

There has been no change of an impor-tant character in the British cattle markets since the date of our last cable advices says the Montreal Gazette of Tuesday. The Whitsuntide holdidays have not improved the trade, in which a generally dull feeling has prevailed. The tendency has been toward weakness, although not to a quotable extent, the demand having dragged along slowly at the late decline. Our special cables to-day report trade dull and the demand very weak owing to the holdidays, but make no change in values. Prime Canadian steers at Liverpool to-day were at 14c. Fair to choice grades were quoted at 13c.; poor to medium at 12c., and inferior and bulls at 9c. to 11c. These quotations are calculated at 430 in the £. Dressed beef in Liverpool is cabled higher at 5cd, against 5d a week ago. A London cable quotes refrigerator beef at 4s 3d for hind-quotes refrigerator. since the date of our last cable advices

Toronto Live Stock Mariet. [Corrected weekly.] 

Robbin's circus exhibited here last Tuesday and drew a very large crowd to town. The circus was a very good one, and the management transacted their business here in a very courteous and satisfactory manner. The street parade in the morning was attractive, and ranks well with displays of this kind. The afternoon performance was in every respect of a first class character. The acrobatic feats, the tumbling, the gymnastic and other performances have never been excelled. The feats of the juggler were marvellous. The bicycle performance, with acrobatic attachments, was one of the features of the day. The clowns were far better than the average. The trick ponies and equine displays were excellent. The bareback riding of Mr. Chas. Fish and the muscular display of the giant were warmly applauded. Frequently three performances were in progress at once in the three rings—rather too much of a good thing. The audience were fully satisfied with the exhibition, and fully disproved the attack on it of a Toronto newspaper, because "it left more money at the Globe." cus was a very good one, and the management
