STALIZED AIR

W.H. GROSS, DENTIST, LINGSAY. Mearly 25 Year's Experience.

Mr. Gress is the only dentist in the county who is using the popular, prempt, safe and reliable anæsthetic. VITALIZED AIR, for extracting teeth without pain.

WITALIZELL AIR is a combination of laughing as with the fluid anæsthetics, producing upen the patient; in this combined form, the exhilirating effects of gas with the prolonged effect of the fluids, making it the most desirable agent yet discovered for extracting teeth, and is pleasant and easy to recover from. Mr. Gross will give VITALIZED AIL free to persons who intend getting new teeth in place of those extracted. He inserts artificial teeth on the reliable English Black Rubber, also on Gold, Silver, Platina or any other plate desired. Mr. Gross will make an upper or under set of teeth, and guarantee the material of the plate to be the same as that advertised as gold alloy, for \$8. A large stock of ARTIFICIAL TEETH, all shapes, shades and sizes, to select from. The natural teeth permanently filled and saved, irregular teeth straightened, and all work pertaining to dentistry properly done. Persons at a distance will please continue to notify by postal card or otherwise a few days before coming. Rooms over Kennedy's store, Kent-st., Lindsay, Jan. 13, 1885.

L. D. S. Over 29 Years' Experience. The most suc-

cessful Dentist in this part of Canada.

The Gold Alloy used by Mr. Neelands for artificial teeth is a grand success notwithstanding the false statements made about it by a Lindsay dentist, jealous of Mr. Neeland's enterprise in buying the patent right. This individual exhibits to his patrons a piece of gross metal resembling soft sawder or lead, and tells them that it is a poisen and the same as Neeland's Gold Alloy, which is a falsehood, as the Gold Alloy which is a falsehood, as the Gold Alloy which is a falsehood, as the Gold Alloy used by him contains both gold and silver and no poison. Mr. Neelands inserts numbers of perfect fitting sets of teeth for people in Lindsay, Ops, Mariposa, as well as in Manvers and other places, after this dentist had tried and entirely failed to give satisfaction. Black Rubber has been used by Mr. Neelands for the last 17 years. The "Only Genuine English Black Rubber" kept constantly on hand. Teeth inserted on any plate desired. In extracting teeth with gas it is a common thing for Mr. Neelands to extract from 10 to 15 teeth with one dose of gas and the person leaving quite well and strong. Mr. Neelands made a special study of this gas under Dr. Colton of New York, the inventor, who writes to Mr. Neelands that he has given the gas to 136,713 persons without an accident. Teeth filled to last a life-time. The Gold Alloy used by Mr. Neelands for artithe inventor, who writes to Mr. Neelands that he has given the gas to 136,713 persons without an accident. Teeth filled to last a life-time. One lady says she had her teeth filled with gold by Mr. Neelands over 15 years ago, and her teeth are all good yet.
