L. D. S. Over 26 Years' Experience. The most suc-

cessful Dentist in this part of Canada.

The Gold Alloy used by Mr. Neelands for artificial teeth is a grand success not with standing the false statements made about it by a Lindsay dentist, jealous of Mr. Neeland's enterprise in buying the patent right. This individual exhibits to his patrons a piece of gross metal resembling soft sawder or lead, and tells them that it is a poison and the same as Neeland's Gold Alloy, which is a falsehood, as the Gold Alloy used by him contains both gold and silver and no poison. Mr. Neelands inserts numbers of perfect-fitting sets of teeth for people in Lindsay, Ops, Mariposa, as well as in Manvers and other places, after this deutist had tried and entirely failed to give satisfaction. Black Rubber has been used by Mr. Neelands for the last 17 years. The "Only Genuine English Black Rubber" kept constantly on hand. Teeth inserted on any plate desired. In extracting teeth with gas it is a common thing for Mr Neelands to extract from 10 to 15 teeth with one dose of gas and the person leaving quite well and strong Mr. Neelands made a special Neelands to extract from 10 to 15 teeth with one dose of gas and the person leaving quite well and strong Mr. Neelands made a special study of this gas under Dr. Colton of New York, the inventor, who writes to Mr. Neelands that he has given the gas to 135.713 persons without an accident. Teeth filled to last a life-time. One lady says she had her teeth filled with gold by Mr. Neelands over 15 years ago, and her teeth are all good yet. "The People's Dental Instructor," a book worth its weight in gold. Call and get a copy free. Office next door to R. Smyth's Store. May be found after hours at private residence, Mill-st., near Kent.
