

Tapestry, Brussels and Velvet.

These goods excel not only in quality but in richness of color and newness of design. To buy the best Tapestry it is necessary to pay from 75c to \$1.00 per yard, and it is only the direc timporter who can sell Crossley's Goods even at these prices. Lower grades of Tapestry from 35c per yard upward, of which we have a large variety. These goods are well adapted for bedroom use and other ordinary wear.

OFFICE OF THE CANADIAN POST, ) Business and Produce.

InnDsay, August 13, 1385. ) The state of the local market does not call for any special remarks. Very little wheat is coming in and the delivery of barley has almost estopped. There is a good deriand for local produce of all kinds at fair prices ..... The state of the crops throughout the county has for the last few days been a source of anxiety and has been the subject of much discussion. While it is not probable that the auticipation. held three weeks ago of a heavy crop of all kinds of grain will be realized, it is satisfring to find that fall wheat will return a very heavy grop in advance, it is thought, of over and extraordinarily good in places. cause. the better qualities were fairly well taken. the better qualities were fairly well taken. The supplies from other sources have been fair. At Liverpool to-day there were liberal offerings, but as demand ruled steady, with more disposition to buy, a more satisfactory trade was done. Values show a gain of half a cent as compared with a week ago, and the market closed steady. Prime Canadian steers were at 13½c. Fair to choice grades were at 13c; poor to medium at 12c; and inferior and bulls at 9c and 10½c. A fair trade has been done in sheen. ium at 12c; and inferior and bulls at 9c and 10 \( \)c. A fair trade has been done in sheep, the supplies of which, although not so excessive as a week ago, are ample. At Liverpool to-day values were quoted unchanged. Best sheep at 13c; secondary qualities at 11c and 12c; merinoes at 10 \( \)c and 11 \( \)c; and inferior and rams at 8c and 10 \( \)c. All the foregoing quotations are calculated at 4.80 in the 2. Dressed beef in Liverpool is still very low at 1 \( \)d. Liverpool is still very low at 41d.

Montreal Live Stock Market. The total exports of cattle to date were 36,546 head, an increase of 7,850 head compared with 1884. The total exports of sheep to date were 25,778 head, an increase of 1,267 compared with 1884. The market for cattle freights has continued in a demoralized condition. Contracts bave been made down to 35s, while in Boston the rate has declined to 20s. Export cattle have been in more active request and steady. At Point St. Charles Monday morning there was a good supply offered, for which there was a better demand, exporters buying more freely. Sales were made at from 41c to 51c per lb. live weight. Last year at this date export cattle were at 5 c and 6c, and in 1883 at 6c and 6 c. Sheep for export were in fair demand at 31c and 4c. Butchers' cattle were firm with a light supply at 4c and 44c per lb. Live hogs were steady at 54c and 54c per lb. Calves sold at \$4 and \$6 each.

Creamery ..... and flat. On Saturday, reports the Gazette.

There was some buying in the country at To and Tie, these figures having been paid in Brockville and Belleville, but business was far from general. On every hand the main features of the situation are discouraging. Liverpool advices are tame, and there is a very large quantity of cheese in the country, for which the demand is insignificant. From present indications, the shipments this week will be small, but there is cheese enough to beat last year's record, were it allowed to come for-ward. There are some orders on the marfree-damage from this ket which admit of 7 c being paid, but pool was cabled at SOs. Last year at this date cheese was at 10 c and 10 c, with the cable at 52s, and in 1883 at 9c and 9 c, with the cable at 50r.
