

Dundas & Flavelle Bros.

MILLINERY AND HAT PREPARATIONS.

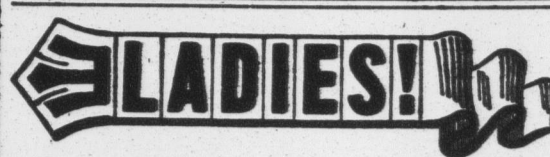

We are now making specially active efforts in our Millinery and Mantle department for the approaching season. MISS AIRD, who is in charge of this department, has been in the city for some time, and for another week or ten days remains with the view of obtaining every information relative to the season's production.

popular colors. They are particularly adapted to display the Fancy Feathers, Wings, Aigretts and Tufts, that will be used in the brightest colors and most unique shapes. A disposition is also shown to use fancy gilt cord to finish the edges of hats. Ribbons, many of which are very handsome, also show the tinsel effects. Velvets and Plushes will retain a large share of the rich trimmings, and these are somewhat varied by the introduction of a bold stripe plush, showing in rich bright colors.

MANTLES will be very popular in the long run—Newmarket Coat, with a strong leaning at colored goods. Short jackets of a jaunty cut in jersey cloth, and other new materials will be very popular for young ladies. In heavy goods the Scalette and Astrachan will still be much used. These suggestions we drop, as they may be interesting.

DUNDAS & FLAVELLE BROS.

Millinery.

JUST ARRIVED.—A fresh supply of BOATING HATS and SHAWLS, very pretty and new in design.

Beautiful WHITE UNDERWEAR of every description for ladies and children. Lace and Muslin Collars, Linen Collars and Cuffs and Fancy Handkerchiefs in great variety. Panniers and Hoops, Corsets, etc. of the latest styles.

There still remains a few Summer Hats, Ladies' and Children's parasols, to be sold at a very low price.

A splendid JOB LOT OF PLUMES. Come and see them.

GRACE LEE. A FEW DOORS EAST OF BENSON HOUSE.

W. A. Goodwin.

The Canadian Post.

LINDSAY, FRIDAY, AUGUST 29, 1885. COMMERCIAL NEWS.

There is nothing doing in the local market and no change of any consequence to note in prices. The English and American wheat markets have a declining tendency. The fall wheat crop in this district is a very large and fine yield, and of superior quality. Though spring wheat is badly rusted and many fields entirely destroyed the crop is not a complete failure.

The estimate for the wheat crop in France is one million bushels in excess of an ordinary year, and leaving nothing for export. France will require to import fifteen million bushels. Advice from Italy estimate the wheat crop at only 50 per cent. of the average year.

The regular fortnightly cheese market was held Thursday afternoon in the council chamber, Mr. J. M. Drummond presiding, and the secretary, Mr. Warren Taylor, conducting the transactions. The attendance was not large, the following being the buyers present: Messrs. W. Clouston, W. H. Wright and D. Brown, Peterboro; J. D. Flavelle, Lindsay; J. H. Coke, Bellefleur. The following are the factors recorded and the quantities offered by them:

There has been made at 13c. to 14c. at the factory and the market is unusually firmer. The Gazette says fresh cable orders have been received since Saturday and on creamery at least matters are looking satisfactory. Private letters from Liverpool report that finest creamery will be wanted at about 100s., but hint that no higher prices may be looked for just yet. There has been some enquiry for finest dairy, foreclosures of which will be sold. Following are quotations:— Creamery... 19 to 20. Milk... 13 to 14. Butter... 12 to 13. Eggs... 10 to 11. The Gazette reports no change in the Montreal cheese market, but notes a sentiment in some quarters favorable to an advance. At Morrisburg last week the bids were 8c. to 7c., but no sales were made at these prices; salesmen preferred to hold, as weather was in their favor. Cable news day stood at 8c. 6d. Sales at Little Falls and Utica, N. Y., state from 6c. to 7c., average 6c. From a recent meeting of the New York City produce exchange we learn Canada cheese leads them in the Liverpool markets and is sought after and preferred at an advanced price to American and they are devising ways to improve their system of marketing. As a proof we notice at an auction sale of some 13,000 boxes, 1,322 Thistle brand sold from 41c. at 40c. Allan Grove, the McPherson combination, Lancaster 42 at 38c. 6d., 77 at 35c.; 300 at 41c.; 105 at 38c. and 13 at 47c. Thistle being the highest average for such a large quantity. The only reason we can assign is that D. G. McFadden spares no expense, having a V-merry, a chopper, on the road all the time from factory to factory testing the milk to see there is no skimming or watering. He has only discovered a few of these things this season. The Gazette quotes the Morrisburg Courier, from which we quote, to be true and honest to your own interests. Send your milk to the factory as you can get the best price. The Gazette quotes the Morrisburg Courier, from which we quote, to be true and honest to your own interests. Send your milk to the factory as you can get the best price. The Gazette quotes the Morrisburg Courier, from which we quote, to be true and honest to your own interests. Send your milk to the factory as you can get the best price.
