LINDSAY, FRIDAY, OCT. 23, 1885. COMMERCIAL NEWS.

OFFICE OF THE CANADIAN POST,)
LINDBAY, October 22, 1886. Business and Produce.

There has been no material change in the state of the local market since last week. The delivery of bariey continues, a good deal coming in and brinking on an average 68c. per bushel. Very good samples are what is not offered freely, the outside price paid being 8cc.

British Live Stock Trade. Special cables to the Montreal Gazette Monday, while still depressed and unsatisfactory, and failing to show any improvement, are no worse, which after the continuous decline chronicied for several weeks may be hailed with some degree of hope that the bottom has been souched and that the markets are preparing for and that the markets are preparing for an upward spring. The meat market con-tinues depressed and some quotations are lower, but although receipts of cattle from all quarters have continued to reach large volume values are no lower, even if the demand has not improved. At all the markets there have been plentiful receipts from Ireland and the continent, while the offerings of Canadians have been heavy. At Liverpool alonday the offerings were large and the demand slow, with buyers indifferent. Prime Canadian steers were at itc, while in London a shade more was made. In Liverpool fair to choice grades were at 10kc, poor to medium at 9kc, and inferior and bulls at 7c and 8kc. The sheep trade has remained unchanged. B at sheep at Liverpool Monday were at 13c, secondary qualities at 11c and 12c, merinces at 10 c and 11c, and inferior and rams at 8c and 93c. All the foregoing quotations are calculated at 180 in the £. Dress. ed beef in Liverpool is cabled 47d. Another Liverpool cable quotes refrigerated beef at 57d for hindquarters, and 34d for forequarters. A London cable quotes refrigerated beef at 3s 4d for hindquarters,

Montreal Live Stock Market. Since last report the trade in export cattle has been slow and the market quiet. The offerings Monday were light and the quality averaged poor, hence lower prices ruled and sales were made at 31c and 41c per lb. live weight, but really prime cattle could command more. Last year at this date good to choice shipping cattle were st 41c and 5c. Sheep were dull and lower with sales at 21c per lb. live weight, against 4c at this date last year. Butchers' cattle with sales at 2½c per lb. live weight, against to at this date last year. Butchers' cattle were depressed and lower, with a slow demand. Holders were offering cattle weighing 1,050 and 1,100 lbs. each at very low prices without effecting sales and there seemed to be a glut of stock for sale. Transactions were made at 2½c and 3c per lb. live weight for good cattle. Live hogs were in good demand and firm at 4½c and 5c per lb. Mr. A. S. Masterman secured 238 hogs at these prices, Calves ranged from \$1 to \$20 each as to quality.

CARRIAGE AND WAGGON WORKS CAMBRIDGE-ST., LINDSAY.

FIRST PRIZE AT LINDSAY CENTRAL FAIR.

The work put on exhibition by me was not got up especially for that purpose, but was taken from the Show-room, and the class of work kept on hand at all times, and the fact of it taking first prize away from work got up at great expense for exhibition purposes shows undoubtedly the superiority of my work over all other manufacturers. Out of six vehicles shown at the Exhibition I have sold four and received orders for five more, to be built on the same principle. I am determined to keep my reputation up, and with this end in view I am using the best material that money can buy. The timber in my varnished work was admired by all who visited the Exhibition. I use the Standard A Wheel, accord growth Hickory Gear; and for my improvement of the age. I am making a specialty of the McLaughlin Gears. There is no made some improvements at my suggestion, all parties wanting a buggy finished on this beautiful gear can get one from me finished to parfection. I am using McLaughlin's Rubbers making a perfectly moneless Buggy.

I have now in course of construction a variety of the most heaviful and assuring the least noise.

I have now in course of construction a variety of the most beautiful and serviceable CUTTREES and SLEIGHE ever built in this country. All parties in need of one should call and
examine the timber I am using. The best is the cheapest. Give me a call before you purchase
