PARLOR SOCIAL. -- One of the most en-joyable events of the season was a parlor social held in the hall adjoining the Mc-Arthur flouse, on Wednesday evening 6th mat. The committee used every effort to procure the very best available talent, and we are sure that all who attend will agree in saying that they were highly successful. By unanimous consent the duties of the chair were assigned to Mr. John Joshua Butler, of Barrie fame. The pro-gramme was interspersed with vocal and gramme was interapersed with vocal and instrumental music, readings, recitations, &c. The chairman before introducing the different performers, made a few preliminary remarks on the chief topics of the day, which are en. rossing the public minds, viz., the license act before the privy council, small pox, vaccination, price of grain, etc. First on the program was Mr. W. B. Dack of Toronto. His first song was entitled "Alone in the Forest," and was rendered in a good style, fully sustaining his reputation as a singer of rare cultivation. Mr. Wills of Napanee was next on the program and gave the well-known piece, "The Gottage in the Lane," with much feeling. Next was a duett by the Austin Bros. entitled "Tim Finnegan and his Flue." The Omemee Herald's worthy editor, John A. Calder, next delighted the audience with a comic reading taken from a new work en. OBITUARY.—Referring to the sudden death of the late Miss Inger A. Dillman, whose demise was noticed in a short item from here last week, it may be added the unfortunate young lady spent last year with an unmarried brother in Manitobs, near Brandon, coming home in the summer; afterwards paying a short visit to her brother in Michigan, and was home for only a short time before going to visit her brother in Wilberforce. The Rev. Mr. Carpenter, who was on this circuit last year and is now on the mission, was with her in her last hours. She gave bright evidence of the happy change awaiting her. The funeral took place on thankagiving day at the cemetery here, the Rev. Messrs. Wilson, Carpenter and McMullen taking part in the service. Mr. Carpenter and his brother had accompanied the remains here. A large concourse of friends testified their sympathy with the afflicted family. Mr. Wm. [Correspondence of The Post.] THANKSGIVIG DAY .- The citizens of Beaverton are an extremely grateful people, therefore thanksgiving day received every attention in this quarter. The weather being magnificent for sportsmen, numerous hunting parties were formed, and from Sunday morn to dewy eve the crack of the shot gun was heard in all directions. Large bags of game were taken, at least we are so informed, but doubtless there are a few ducks and partridges left from the slaughter. from the slaughter.

MECHANICS' INSTITUTE. - We notice with pleasure the movement being made to establish a mechanics' institute here. Now that the long winter evenings are with us, the library will be much felt. It appears that Mr. Patterson, while driving with his wife, left her alone in the carriage while he went into the post office. He had acarcely gone when a heavy waggon, passing close to Mrs. Patterson, startled her horse, a very spirited animal, and before the frightened lady could save herself the excited beast had dashed up Simcoe-st., in the direction of the bank, and when opposite McRae's harness shop one of the wheels came in contact with a large stone. Mrs. Patterson was thrown violently from wheels came in contact with a large stone. Mrs. Patterson was thrown violently from the carriage and dashed to the ground. Willing hands quickly assisted the injured lady into the harness ahop, where Dr. Spooner was immediately in attendance. Fortunately the injuries were found not to be so serious as was at first feared, but a severe cut on the head required several stitches, after which Mrs. Patterson was able to be taken home, where it is feared she will be kept an invalid for some time. RIEL'S DEATH.—The announcement of the hanging of the rebel leader has caused much excitement in the village, and the justness and otherwise of the sentence is learnedly debated at the street corners and bars. Several wrathy individuals refuse to believe that the druad sentence has really been carried out, but we beg to assure them that there is not the least doubt about it.

COMMERCIAL NEWS.

OFFICE OF THE CANADIAN POST, LINDSAY, November 19, 1885.

Business and Produce.

Wet weather and constant bad roads have interfered with the marketing of grain. Very little has been received, and prices have not altered from quotations given last week. Mentreal Live Stock Market, The close of navigation is finding the

export cattle trade an unprefitable one to carry on, which is in strong contrast with the bright promise with which it opened. Prices in the British markets have undergone severe depreciation, and here they are much lower. The total exports of cattle this season to date were 60,767 head—an increase of 4,510 head over 1884. Cattle freights were quoted at 40s and 50s. The rate from Boston was 20s. The market for export cattle was quiet, with light offerings, which were not of desirable quality. Buyers held off, as the last steamers will not load for a day or two. Prices for the cattle offered were quoted at 3½c and 4½c per lb live weight. Butchare' cattle were in good demand at 3c and 4½ per lb live weight. Suchare' cattle were in good demand at 3c and 4g as to quality. Sheep were in light sup. Ty, with a few sales at 3c. Live hogs were fill—at and a shade higher at 4½c per lb. the bright promise with which it opened.

British Live Stock Trade.

Cables concerning the British cattle markets indicate a more satisfactory state of affairs, and the advance at Liverpool now amounts to 2c per lb, from the extremely low point touched three weeks ago. The principal cause for the improvement has been the decreasing volume of supplies. During the past week the receipts from Canada and the United States have been light, while the supplies from other quarters also have shown a notable falling off. There has been a fair demand from buyers, which has given the situation a more satisfactory tone. At Liverpool Monday, says the Montreal Gazette, there was a fair enquiry at the higher range quoted, and a steady business was done, which produced as good a clearance of the offerings as could be expected. Prime Canadian steers Monday were at 12c, Fair to choice grades were quoted at 11lc, poor to medium at 10lc, and inferior and bulls 8c to 9lc. These quotations are calculated at \$4.80 in the £. Dressed beef in Liverpool is cabled higher at 4ld. Another Liverpool cable quotes refrigerated beef at 5ld for hindquarters and 34ld for forequarters. A London cable quotes refrigerated beef at 5ld for hindquarters and 2s for forequarters per 8 lbs by the carcase, ago. The principal cause for the improve-

"The Radiant Home,"

WITH DUPLEX GRATE

Is the best Coal Stove made in every respect, for appearance, for economy of fuel and heating capacity, stability of construction, elegance of finish and ease of management. I can offer no better evidence of the popularity and high commendation accorded "THE RADIANT HOME" than to say that it is endorsed by the following gentlemen (all of whom have bought and are using the Radiant Home) to be the best stove yet produced. I will be much surprised to find that one of these gentlemen is dissatisfied.
