The Kirk.—The Kirk congregation of Eldon have moved their minister and his family into a most excellent and commodious manse, which was recently built at a cost of over \$3,000. The manse is beautifully situated in a grove a little to the east of the church, where it is well sheltered from the cold winds of winter. The plan speaks for itself and speaks well of the architect, Mr. Wm. Duffus of Lindsay. The prosecution of the plan and the most excellent workmanship speak in the very highest terms of the confractor, Mr. Thos. Treleaven of Beaverton. Mr. Treleaven is a man of principle who will not slight his work, but uses his utmost efforts to give satisfaction to all parties concerned. The building is an ornament to the neighborhood and a great credit to the congregation. On Friday last, the 8th inst., the minister and his wife in possession of a full house, a full barn, a full basket, a full purse and with hearts full of gratitate for the unbounded kindness of the Eldon congregation. We wish them success in Yankee land.

SMALL POX.—The number of cases of small-pox at Pontypool so far is ten. Of these one case proved fatal on Tuesday morning, being that of Wm. Douglas, a young man of about 23 years of age. Dr. Geo. Brereton, the medical health officer, reports the other patients doing as well as could be expected. The small-pox scare is much greater outside the township than in the vicinity of the disease. With such strict quarantine regulations as are enforced by the local board of health we see no cause for needless alarm.

SHINGLE MILL.—Mr. Issiah Fair has been rushing business in the shingle mill during the last few months. He has the large stock of bolts which he purchased last winter about all cut. He has now on hand a large quantity of cedar shingles of all grades. Shingles have been very dull in the market during this season. Has the bottom fell out of the N.P. or what has happened?

A Good Hit.—Mr. John Hart went back to the Parry Sound district a few weeks ago to enjoy himself in that new, wooded country and take some recreation after a summer of hard toil. It seems he enjoyed himself beyond a doubt in the sceneries of the north. He succeeded in capturing Miss Georgina Copeland, third daughter of Mr. George Copeland, for his partner through life, much to the surprise of his neighbors out here, who had little idea of his intentions until he came home with his loving and happy bride. May the young couple have a long, prosperous and happy reign together is our sincere wish. It appears that dear are very plentiful in Parry Sound this season. Who will be the next lucky "feller?"

Great Improvements for 1886.

The aim of "GRIP" is to set forth, in an impartial and independent manner, the passing events of Canadian political and social life. Its Cartoons speak more definitely and more pleasingly than whole columns of editorial. In this pungent, easily appreciable and artistic style of presenting a subject, the whole situation is revealed at a glance. The success of Grip shows how well this fact is appreciated—its Cartoons on the passing political events of the country being even more eagerly sought after than the chaste and humorous letter-press of the paper,—though the latter is equal to that of any similar publication on the continent.

The publishers of Grip are making extensive of any similar publication on the continent.

The publishers of *Grip* are making extensive improvements for 1886. The old cover is to be discarded, and the journal will hereafter comprise 12 pages, and be printed on heavy toned and calendered paper,—every number being so artistically executed as to compare favorably with the best papers of the kind on the continent. The advis. will be compressed and more systematically arranged; while similar improvements will be made as to the letter-press. A new and handsome design will adorn the title-page; while the Cartoons will certainly not suffer from extensive improvements in the artistic department.

The price of *Grip* will hereafter be \$3 a year which is lower than that of any paper of its kind in America,—most of them selling for \$5, Single numbers of *Grip* will be 10 cents. Twice a year, at Midsummer and Christmas, a beautiful special number will be issued, the number of pages being increased, and pleasing features introduced,—particulars of which will be given in preceding issues. These numbers will be presented to subscribers without extra
