LINDSAY, FRIDAY, FEB. 5, 1896. LOCAL MATTERS.

LINDSAY TOWN COUNCIL.

HOUSES-TENDERS FOR PLANK.

The town council met at the council chamber on Monday night with Mayor Beacon in the chair, and Reeve Walters, Dep.-reeve Bryans, and Councillors Walters, Mills, Keith, Mallon, Sinclair, Connolly and Crandell seated at the round table. It seemed as if word had been passed around that important business would be taken up for there was a full attendance of ratepayers to hear, and note the proceedings. Half-an-hour before the council got to work the street and bridge committee met in the police-court-room and settled the question of tenders for the supply of a quantity of cedar peeded for general purposes. When the council had seated themselves the cierk, Mr. J.B. Knowlson, read the minutes of the last meeting which were confirmed.

From Mr. Geo. Matthews, for the Baptist church congregation, offering to sell to the council for use of the town the clock now in the tower of the Baptist church, for \$175, the clock to remain where it is or to be removed at the pleasure of the council. A suggestion made by Mr. Matthews is that is event of the council purchasing the clock it should be put in the charge of some practical man to run and regulate for the benefit of the town.—Referred to the tewn property committee. From James Pethick, asking rebate on

taxes on account of loss by fire nearly one year ago. —Referred to the finance commit-

From Mr. E. A. Peck, Peterboro, secretary of a committee appointed at that town to take steps to press on the Dominion government the advisability of pushing on the construction of the Trent Valley canal and to call together representative men from the various municipalities along the route of the canal to consider which section should be placed under construction mext. Wednesday, Feb. 10th, was suggested as a suitable date and Peterboro as the point where the meeting should be held.—Carried. PAYING THE FIRE BRIGADE.

From Messrs. J. Comstock, Peter Sennett and A. Delury, committee of the Lindsay fire brigade, as follows: "That for several years past the greater number of the brigade, at much pecuniary loss to themselves, have cheerfully given their services to the town and have received for services to the town and have received for such services only nominal remuneration. That the members were induced to con-tinue their services from year to year not because of the compensation received but from a sense of duty towards their fellow-citizens, and that they would for the same reason still continue to do so without fur-ther resummention were it not that the ther remuneration were it not that the sacrifice is more than ought reasonably to be expected from them. Your petitioners refore with a view to the efficiency of a fire brigade hereby respectfully submit \$50 per year be granted to the captain and engineer and \$30 per year to each member of the brigade.—Referred to the; fire and TOWN PROPERTY.

Dep.-reeve BRYANS, chairman of the tewn property committee, made a verbal report on matters coming under the direction of the committee, and stated that Mr. G. W. Smith had effered to buy a small cottage standing on municipal property (Queen's square reserve) for \$400, or offered to lease the ground for a term of twenty years.—Report received.

Reave WALTERS read a report from the street and bridge committee, who had examined tenders for the supply of cedar, and recommended that the quantity needed be divided up and taken from several who had sent in tenders at a reasonable figure.

FINANCE REPORT. Reeve WALTERS, in the absence of Dep.-seeve Bascon, read the report of the finance committee recommending the payment of the following accounts:

FOR CHARITABLE PURPOSES Coun. Connorm moved, seconded by Coun. H. Waiters, that a grant of \$125 be made to the central charity committee, to be disposed of under the direction of the committee for charitable purposes.—The secolution was after some discussion pass-

Coun. Cornoc.Ly gave notice of a motion hat the town property committee should ave prepared a pian and astimate for building a suitable vault for the safe keeping of unicipal papers and books.—They reselved.

of taxes; to appoint an auditor; and to amend a by-law now in force. The council went into committee and the by-laws were again read and put through the usual routine. Under the by-law appointing municipal officers, Mr. J. B. Knowlson was appointed town clerk and treasurer; Mr. Thos. Bell, chief constable, salary \$650; P. Clunan, assistant constable, \$475; Mesers. W. Duffus and B. F. Jewett, assessors, at \$100 each for services; Mesers. J. J. Wheeler and C. Neads, auditors, at \$20 each. F. Brady was appointed caretaker of the fire hall, at \$65. Peter Fobert, caretaker of pump-house, at \$330. The time for collection of taxes was further extended until February 22nd. Mesers. Wm. Duffus and R. Cahill were appointed on the local board of health in place of Dr. Poole and Mr. of health in place of Dr. Poole and Mr. Thos. Stewart, who had requested to be

A by-law was also introduced having in effect the object of doing away with the office of town physician. Coun. Connolly spoke to the resolution and said he had been advised by local medical men that the office of town physician should be abolished, medical men representing that they ed, medical men representing that they did as much work for which they never expected to get any remuneration as was done by the town physician and paid for out of the public funds.

Coun. CRANDELL spoke in favor of retain ing the services of the town physician both on the score of economy and a boon to the poor, and after discussing the matter for some time it was decided to hold the question over until the meeting of the council to be held during April next. The committee rose and reported and the by-laws were passed and signed.

THOSE RAILWAY WAREHOUSES. Coun. CONNOLLY asked if Mayor Deacon had any information to give the council re-garding the grain warehouses to be built by the Grand Trunk Railway Co. at Lind-

Mayor DEACON replied that he had writ-ten for information and if he did get a satis-factory answer he would proceed to have the decree against the railway enforced. Reeve WALTERS said that the county council had resolved to preas immediate action on the railway company and would insist on having the requirements of the bond carried out at once.

> TRENT VALLEY CANAL. Coun CRANDELL referred to the meeting called to urge construction of the Trent Valley canal and moved that Mayor Deacon, Reeve Walters, Dep-Reeve Bryans and Coun. Crandell should be a deputation

more permanent.

to represent the town of Lindsay at the meeting to be held at Peterboro on Feb'y the 10th. The resolution was carried after dding the name of Coun. Connolly to the CONFIRMING THE COMMITTEES.

On the supposition that the committees as first appointed were too large, Coun. Connolly brought forward a resolution that —before finally confirming the appointments—the matter should be recensidered. The council went to work to readjust the committees, but found it a difficult task. The interests of the different wards to representation on the committees was strongly urged, and after discussing matters for half an hour no progress was made. The council then adjourned until the 15th inst.

LINDSAY BOARD OF EDUCA-TION. The Annual Meeting for 1886.

THE CHAIRMAN'S ADDRESS - VARIOUS

first meeting for the current year at the council chamber on Wednesday night. The first Tuesday in each month has been for the year past the date on which the board held its meeting, but it is provided that the annual meeting shall be held on the first Wednesday in February. There were present: Messrs. Walters, Hudspeth, Dobson, Pilkie, Corneil, Taylor, Wray, Bradburn. DeGrassi and Col. Deacon. Mr. Hugh O'Leary took his seat as representative of the separate school board. The absentees were: Mesers. Barron and McNeillie. The

Mr. Dosson moved, seconded by Dr. Dz-GRASSI, that Col. Deacon be elected chairman of the board.

Col. DEACON, after acknowledging the compliment, said that other duties of municipal character prevented his accept ance. He declined, and moved, seconded by Mr. Pilkie, that Mr. A. Hudspeth be lution was carried unanimously.

Mr. HUDSPETH on taking the chair brief. ly thanked the board for the honor done im. He bespoke the co-operation and asdistance of the board in earrying out business to come before it. He had visited in company with Mr. Pilkie all the achoole and found asversi of them in bad state, the north ward school especially. The resum were cold and cheering and the jupils and tackers were expecting would have to be done to render the schools fit for the second-detion. Semething would have to be done to render the schools fit for the second-detion of the pupils. It was assumed that of the pupils. It was assumed that of the pupils. It was a said and the pupils of the schools fit to send the pupils.

become ill. He censured the caretaker of the north ward school especially for negligence in not attending to some particulars about the premises which he specified. At the north ward school some repairs should be made at once and better provision made for heating the building. At the union school things were in a state the reverse of good. The west rooms were the best, but were poorly adapted for teaching. Several classes had to be dismissed on account of the extreme cold in the rooms. The building was dark, dingy and ill-ventilated. In the south ward school things were somewhat better, and complaints were not so frequent. Mr. Hudspeth mentioned some changes that might be made about the building with a view of giving more accommodation. At the small school near the market—although crowded—the pupils were more comfortable than at any of the ether schools. He hoped that the board would be able to devise some scheme looking towards the improvement of the present school buildings and possibly to the erection of new ones.

THE APPOINTMENT OF SECRETARY.

THE APPOINTMENT OF SECRETARY. On motion of Mr. WRAY, seconded by Mr. PILKIE, Mr. Robt. Spier was appointed secretary of the board at the same salary as

SOME IMPROVEMENTS SUGGESTED.

Mr. CORNEIL read a resolution which he proposed submitting to the board for their approval, and which was, for the purpose of bringing it before the board for discussion, seconded by Mr. TAYLOR, "That Mesers. McNeillie, Taylor, O'Leary, Hudspeth and the mover be a standing committee with power to take such steps as they may deem necessary to secure punctuality on the part of the teachers, to see that the registers, record books and papers belonging to the school are kept properly written up and preserved; to adopt the south ward school if they should deem such a step advisable, and to recommend from time to time such other changes and matters as may seem to them necessary to secure the highest state of efficiency in both the high and public schools." Mr. Corneil said that such a committee as outlined in the resolution was urgently needed. There was a great lack of punctuality in attendance on the part of the teachers and this should be stopped. He had gone to the schools at times and found that such was the case, though to some teachers these remarks did not apply. The teachers who were delinquents in this respect had broken their contracts and were not entitled to the usual three months' notice if they should be dismissed. He hoped the board would would pass the resolution, and then SOME IMPROVEMENTS SUGGESTED. should be dismissed. He hoped the board would would pass the resolution, and then have back-bone enough to see it carried out. With regard to the registers kept in out. With regard to the registers kept in the schools, many of them were in a very shabby state and not kept properly. Many particulars were not filled out as required, and by this omission it was difficult to get proper records when required. For instance, columns showing those pupils who passed and the number of marks obtained, and a list of pupils who wrote at the examinations had been suffered to fall into disuse. With regard to the south ward school, it was overcrawded and it might be advisable to adopt the half-day system to relieve the pressure on the rooms. This plan had been adopted in Galt and it had been successful. It was too much to expect any teacher to prepare 90 pupils instead of about 50, as should be the case.

Mr. Taylor said he was surprised that the irregularities reported existed and very probably such matters would come under the direction of such a committee as proposed by the resolution. He would be glad to see a committee appointed if such a committee were necessary.

mittee were necessary.

Col. DEACON said that if the several standing committees did their duty there would be no occasion for any committee with extra judicial powers.

Mr. PILKIE spoke against the resolution and refused to vote for it.

Mr. WALTERS took the same view. Col. DEACON moved in amend "That the chairmen of the several standing committees form a special committee for purpose of advising with the chairman as to the best means of promoting the efficiency of our schools, revising applications, and recommending the appointment of teachers and such other matters as may be considered expedient, and reporting for the consideration and approval of the beard."

Mr. Corwell said that it was notorious that several of the committees were negligent in attending to their duties. He thought the board were taking an extreme view of the resolution when they refused to support it on the ground that it virtually assumed control of the board.

Mr. Durson said that to carry out the

Mr. Dosson said that to carry out the spirit of Mr. Corneil's motion would require a detective at each school on duty each day.

Mr. O'LEARY said that the chairman's remarks on the state of the north ward school showed that some committee had

been negligent.

Mr. CORNEIL said he would be willing—
if the board deemed his resolution too
sweeping—to strike out the clause relating to the adoption of the half-day system,
and again eaid that there was a great deal

were: Mesers. Barron and McNeillie. The board sat down to business at eight o'clock. The new members are: Mesers. Taylor, Dobson and O'Leary, who made the usual declaration.

The secretary, Mr. R. Spier, referred to the rules of order and said that the first business in hand was the election of chairman for the year.

Mr. Dobson moved, seconded by Dr. De.

and again said that there was a great deal of irregularity on the part of the teachers, and it must be stopped.

The resolution, as altered, was read by the chairman, and the amendment was also read again.

The secretary here took advantage of a The secretary here took advantage of a luil in the proceedings to read the minutes of the last meeting, which were approved.

A RESOLUTION OF CONDOLENCE. Col. DEACON, after acknowledging the compliment, said that other duties of a municipal character prevented his acceptance. He declined, and moved, seconded by Mr. Pilkie, that Mr. A. Hudspeth be elected chairman of the board. The resolution was carried unanimously.

THE CHAIRMAN'S ADDRESS.

Col. DEACON took occasion to move a resolution of condolence with Mr. J. A. mittee on appointments, a part of the board organization for the past two years. COERCING THE BOYS.

MR. THOS. FRE addressed the beard with reference to the case of a son of his attending the high school. He laid before the board a letter from Principal Hallett, stating that the boy had refused to submit to punishment, for a fault which he admits committing, and that the boy would be suspended. Mr. Fee said that the caraker of the school, Mr. Mosgrove, had been in the habit of coercing the boys into carrying up wood, and on Fee refusing to carry up wood, had preferred a charge against the boy, whom it was proposed to punish, for making a noise in the school room.

taken. The resolution was seconde Mr. PILKIE and carried.

SEPARATING THE SCHOOL BOARDS. Col. DEACON gave notice of motion that at the next meeting of the board he would introduce a resolution that the union board of high and public schools in Lindsay be abolished, and that separate boards be instituted to carry on the work of each school. If necessary a special meeting could be called to discuss the resolution when it pupils, besides the quantity of space being much below the required quantity.

The question of enlarging the east ward school so as to provide four rooms instead of two is werthy of serious consideration. One of the greatest advantages would be a great saving of distance to the pupils, enabling many of them to attend a greater number of days in the year, allowing them to assist their parents to a greater extent out of school hours, an advantage to both pupils and parents. One of the disadvantages would be the dividing up and creating new classes, requiring two teachers to do in different parts of the town what is done in one place now. was presented.

HIGH SCHOOL REPORT. From Head-master O'CONNOR a brief re-port stating that the total attendance at the high school was 135, with an average ttendance of 120 pupils.

Principal Hallet passed in the public school report for January, showing on the roll 357 boys, and 306 girls; a total of 663 pupils. The average attendance during the month has been 297 boys, and 225 girls, a total average attendance of 522 pupils. ELECTING TRUSTEES BY B ALLOT

parts of the town what is done in one place now.

But the advantage of having one class under one teacher, as in graded schools, is very much over-estimated. The teacher who has but one class gives lessons of from thirty to forty-five minutes each. The teacher who has several classes gives lessons of from five to fifteen minutes, and consequently never goes on when the pupils would like him to stop. The teacher with one class keeps the attention of the pupils at an equal tension the whole time. The teacher with several classes gives the pupils a constant alternation of vigorous exercise of mind and quiet study at the seats. Where the teacher has only one class most of the work is generally done at the seats, the pupils merely rising to read or answer questions, and in consequence they sit too much. Where the teacher has several classes the pupils are taught standing on

of motion to give members some time to think it over. This suggestion was con-creed in.

THE NORTH WARD SCHOOL. CORNEIL said that there was about

MR. CORNEIL said that there was about \$4000 of the town's money in the north ward school, and that Jack Frost was playing havec with the foundation. The cellar was open and the whole thing defective. The doors were twisted on account of the foundation settling.

MR. PILKIE endorsed what Mr. Corneil had said and urged that steps should be taken to have some repairs made.

The CHAIRMAN said that the board might have some convertent man inspect the

have some competent man inspect the building and to report to the board what could be done to repair the building. INSPECTOR KNIGHT'S REPORT.

INSPECTOR KNIGHT read to the board his annual report as below:—

To the Board of Education for the Town of Lindsay:
GENTLEMEN,—I beg to submit herewith my report of the public schools for the past half-year the names of pupils examined, with the number of marks obtained, having already appeared in the local papers.

The number of pupils examined was 496, of whom 356 were promoted to higher classes. The number of papers examined, including copybooks, but exclusive of the entrance examination, was nearly 1,300, all of which were returned marked to the pupils.

The improvement in composition has been very satisfactory, most of the pupils being able to express their thoughts on paper in an intelligent manner, and the reading of the papers is much less laborious than formerly.

During the past year the new series of reading books has been introduced, the first and second parts of the first reader in the first half year and the remaining books in the last half. The desire has been, as far as practicable, to require a new book to be purchased only when a pupil was promoted to a higher class, and thus save unnecessary sutlay on the part of parents. In some cases this has required extra labour on the part of the teachers, as an additional class has sometimes been needed, one class being in the old book and the other in the new.

The new readers seem to give general satisfaction to the teachers, and are considered bet-

The new readers seem to give general satisfaction to the teachers, and are considered better adapted for our schools than the old books or the Royal or the Canadian series, which were for a short time authorized for use in our

MR. PILKIE moved, seconded by Mr. WALTERS, that the election of public school trustees be hereafter held on the same day and in the same manner as for council-

On motion of Col. DEACON the managing committee were instructed to lay before the board at its next regular meeting the names of such persons as they might recom mend as caretakers of the different schools and the rate of remuneration to be paid.

The CHAIRMAN said that it was hardly possible for the board to deal with the case with the evidence from one side only before the board,

Mr. O'LEARY moved that the matter of Geo. Fee be referred to the advisory committee to be investigated forthwith, with power to decide as to what action should be taken. The resolution was accorded

day and in the same manner as for councillors and that notice of the motion be at once given to the clerk of the municipality.

MR. WALTERS willingly gave his reasons for seconding the resolution. It would give the people more interest in these elections and bring out popular opinion.

MR. CORNELL endorsed what Mr. Walters

western paper in favor of the plan suggest ed by Mr. Pilkie. It was suggested that as the matter a new one the resolution should stand over until the March meeting as a notice

they sit too much. Where the teacher has several classes the pupils are taught standing on the floor, they frequently change places, and the exercise is conducive to increased vigor both of body and mind.

If two additional recoms were provided at the east ward school all the pupils in the ward could be accommodated, and there would probably be sufficient work for four teachers. The head teacher would have two divisions of the feurth reader, including entrance work. The second teacher would have the third class, the third teacher the second class, and the fourth teacher parts one and two of the first reader.

As considerable difficulty and sometimes unnecessary expense are often caused by pupils and parents purchasing wrong text-books, owing to the endlese variety of editions, I beg to recommend that the teachers be supplied with printed forms similar to bank cheques, in which the teacher would be required to write the name of the pupil and the text-book required, indicating the particular edition whenever there was possibility of mistake. The form recommended will be found in appendix B to this report. A slight change would make the same form adapted to the use of the high school, where I think it would be equally useful.

All of which is respectfully submitted.

J. H. KNIGHT, P. S. Inspector.
