ADAM DORAN. Glorious victory! The grits of Ochawa beat the tories last week by 20 to 19.

Two risks of the Lindsay Juniors played at Peterboro on Wednesday two rinks of that club. The Lindsay boys were defeated by 10 shots. The second draw in the competition for the "club" medal is in progress at the rink. At the finish of the first draw one half of the club were retired, the survivors being drawn against each other for the second competition. Following is the result of the draw:—

would be got together to hear the celebrated Burdette.

Not only has the snewplew kept the side walks clean of snow during the winter and made walking easier, but so little snow is left to melt off that the boards will be clean and dry many days earlier in the spring than heretofore. The thaw this week showed this to be the case. Dry walking in wet and sinehy spring time will be a boon to the hundreds of school children who are out every day.

With the mercury at 30° below zero the Orillia Packet with its usual thoughtful enterprise last week published an item from the Lancet to the effect "that berefoot children are free from danger of catching cold from damp feet and are healthier and happier than those who have their extremities duly swathed and cased." No doubt the Orillia children have been going barefooted ever since.

—Mr. J.W. Finney of Lindsay has the general agency of "The Histery of Christianity," a handsome volume of over five hundred pages, written by J. S. C. Abbott, the well-known anthor. The subject is one of profound and neverfalling interest, and it is presented by Mr. Abbott in a popular and attractive manner. There are a number of fine engravings. Mr. Finney should receive many orders for this volume.

—T. Reid, a boy employed at the Sylvester works and suited a manner of sine engravings. Mr. Finney should receive many orders for this volume.

—T. Reid, a boy employed at the Sylvester works, sustained a number of painful injuries by falling from a beam on Thursday of last week. A brace by which he was supporting himself near the ceiling of the blacksmith shop broke and he fell to the floor, a distance of about thirteen feet. In the fall he fractured one of the house of his wrist and received a bruise on the forehead and another on the thigh. His injuries are painful but not serious.

—Mesure, Fisher & Killaby, of the well-known lumber and wood yard on Wellington-st., Lindsay, are advertising in The Post somewhat about their wares and of their readiness to do business. This is right and business like. The firm believe that whatever is worth having is worth asking for, and they invite builders, contractors, farmers and all using lumber to afford them an opportunity to sell off their stock. The quality is good of each kind and the supply large. If you are looking for building material give the firm a call.

—Mr. John Robinson and his snow-plow have made a wonderful improvement in our sidewalks, but John has a difficult job. It would require another house or two to get around everywhere immediately after a snowstorm. On week days Mr. Robinson cleans the way first for the school children, taking the main streets first; and then goes for the other streets. Considering all the circumstances he has done remarkably well. Some people would have scored 55 points, a very high standard and one seldem attained. A fine Houdan pullet scored 54 points on weight, otherwise would have scored 55 points, a very high standard and one seldem attained. A fine Houdan pullet scored 54 points and hen 51 points.
