DOMINION PARLIAMENT. The Speeck from the Throne. By Telegraph to The Post.] OTTAWA, Feb. 25, 1885.

The Dominion parliament was opened here this afternoon by the governor-general with the usual ceremony. Following is

SPEECH FROM THE THRONE. Honorable Gentlemen of the Senate: Gentlemen of the House of Commons: On meeting you again I have the pleas ing duty to perform of congratulating you on the sufficient harvest of last year and

on the prosperity and substantial progress of the country.

THE NORTH-WEST REBELLION. Since the suppression of the insurrection in the Northwest Territories peace and order have been restored and now prevail. After so serious an outbreak some disquiet and apprehension of the recurrence of these disorders may naturally be expected to linger, and it will be the duty of my government to make such precautionary arrangements as will assure the present inhabitanta as well as intending settlers of efficient protection against all disturbance.

THE CANADIAN PACIFIC RAILWAY. I warmly congratulate you on the practical completion of the Canadian Pacific railway and on the announcement that it will be open for the daily carriage of passengers and freight from ocean to ocean in the month of June next. This great work, so important alike to the empire and the Dominion, cannot fail to increase the trade between British Columbia and the other provinces to, ensure the early development and settlement of Manitoba and the Northwest, and greatly to add to the commercial prosperity of the whole country.

THE FISHERY QUESTION. Should the negotiations between her majesty's government and that of the Usited States for the appointment of a joint commission to adjust what is known as "the fishery question" and to consider the best means of developing our international commerce fail to secure any satisfactory result you will be asked to make provision for the protection of our interior fisheries by the extension of our present system of marine police.

CONSOLIDATION OF STATUTES AND NORTH-WEST LAWS. The measure submitted to you last session for the consolidation of the statutes juction into the Northwest territories of a more simple and economical system for the transfer of land will be again laid before you for consideration and legislative action. The acts of last season will be found to be included in the first of those measures. You will also be saked to consider the expediency of improving the judicial system which now obtains in those Territories.

PARLIAMENTARY PRINTING. Your attention will be invited to the propriety of amending the law relating to the business of the office of queen's printer and of providing for the more satisfactory working of the present system of government and parliamentary printing.

NORTHWEST CENSUS-PROMISED MEAS-URES. A numerical census of the Northwest territories has been taken and a measure based thereon for the representation of the people in parliament will be laid before you. Other messures will be laid before you, and among them will be found bills or providing for a better mode of trial for providing for a better mode of trial of claims against the crown, for regulating post-office saving's banks in British Columbia and the Northwest Territories, for expediting the issue of patents for Indian lands, for the administration of the rights of the crown in the fore shores of the Doministration of the crown in the fore shores of the Doministration. inion, for the establishment of an experimental farm, and for the amendment of

the Chinese immigration act. THE FINANCES.

Gentlemen of the House of Commons: The accounts for the past year will be laid before you. You will find that the estimate of receipts has been fully realized. but I regret to say that the outbreak in the North-West has added largely to the expenditure of the country. The estimates for the ensuing year will be submitted to you. They have been prepared with due regard to economy and the requirements of the public service.

CONCLUSION. Honorable Gentlemen of the Senate; Gentlemen of the House of Commons. I commend these several subjects and the others which may engage your attention to your best consideration, and I earnestly trust that the result of your deliberations may, under the Divine blessing, conduce to the advancement and prosperity of Can-

[Carrespondence of The Post.] SUCCESSFUL ENTERTAINMENT.-The entertainment in connection with the Eng lish church (St. Thomas's) here on the lish church (St. Thomas's) here on the evening of the 27th instant was a grand success. The chair was ably filled by A. C. Graham, our esteemed teacher. A well arranged program was carried out. Miss Armstrong of Kirkfield presided at the organ, and aided by Prof. Richardson as violinist excellent music was rendered. Miss Armstrong fully sustained her reputation as a musician, while Prof. Richardson Armstrong runy sustained her reputation as a musician, white Prof. Richardson need only be named as aguarantee for good playing. Rev. Mr. French of Coboconk gave a choice comic reading, taking down the house several times. Rev. Mr. Cooper two flux selections of reading the gave two fine selections of readings, one very laughable, the other very selemn. But the event of the evening was selling an autograph quilt with names of nearly all the leading people of the neighborhood as well as many outsiders beautifully inscribed by the artistic hand of Wm. A. McRae of Kirkfield. The bidding was not as brisk as it might have been, but as the quilt reslized about 340 including the names on it it was a success. Altograther a headegment it was a success. Altogether a handsome sum was realized. The intention is to brick the church, an undertaking which will add greatly to its appearance. CONCERT.—On Friday night last a concert was given in the church here, as announced in THE Post of last week. The attendance was very large. The chair was occupied by Rev. R. T. Courtice with his usual ability and cheerfulness. The recitations and dialogues ren dered by the home talent were given creditably. We deem it unnecessary to particularize. Those from a distance on this programme were Mrs. Elliott and Mr. T. W. Kennedy, both from Mt. Horeb. Mrs. Elliott gave a reading, entitled "Women's Blotts" which was really and the state of Rights," which was well rendered. Mr. Kennedy on being called came forward amid rounds of applause, and gave a humorous reading in excellent style, after which he was vociferously encored. He soon returned to the platform and gave another reading, for which he received hearty applause. The Bethany choir and brass and string bands were present and delighted the hearts of all present by their choice selections. We think the band should be encouraged by a liberal grant from the council each year, as they are a heartiff as well as a cradit to the township. senefit as well as a credit to the township.

The receipts of the evening were about "OUR FAVORITE TEA."-In these days when there is so much fault to find with when there is so much fault to find with almost every article of commerce on account of saulteration, it is pleasant to chronicle the purity and acknowledged fragrance of one article, at least, with which no fault can be found, and which has caused so much excitement in this quiet little village, is Mr. Joseph Hadden's consignment of "Our Favorite" Tes, which is unadulterated.—81-1.
