NEW POST OFFICES AND THE ELECTIONS.

One of the strongest indications that for new post offices in this province. Lind- the North-west in connection with Indian say, Napanee, tinit, and Trenton, get \$4,- affairs. Dr. Ferguson's slander took the 000 each. There are a few river and har form of a covert and cowardly insinuation De "political exigencies" require some thing.

The grant of \$4,000 will probably buy a site in Lindsay, and may dig out a few Pards of foundation, but no more. It ought to have been \$25,000 or \$30,000 to compare with the Peterboro and Port Hope grants, and do any good! The re- ly called a contemptible sneak. presentatives of those towns managed to get large grants for fine buildings; and is Lindsay to be put off with a paltry and insignificant \$4,000? Does this great Dominion, extending from the Atlantic to the Pacitio, the home of freedom and of American bank cashiers, expect Lindsay to be satisfied with a \$4,000 post office? By the end of this season Lindsay will have the linest editions in the district; is a miserable, measly \$4,000 post office to to raise its insignificant head, with probably wooden steps and a calvanized iron portico! Perish the thought! We fancy that Mr. Dundas has not only demonstratod that "his usefulness is cone;" but that he has "destroyed his future," as Sir John wrote about O'Donoghue. Why, a \$4,000 affair will be simply a laughingstock for the electors. As Mr. Pope would say "there aint nuthin to it!"

MR. HECTOR CAMERON AR-RAIGNED.

Older pupils should be not together at the high schools or central common schools... The beard then discussed in a general way some points suggested by Mr. Seath; and in reply Mr. Hudspeth gave such information as was afforded by the school law and by the department... Mr. Walters differed from the position taken by the impector in that the need was very urgent for an additional form in the ward schools. The suggestion that \$2,000 would place the ward schools in order was to close an estimate. It would require at least \$6,000 to place the ward schools as they should be and as enlarged.

Mr. Cornell rallied Mr. Walters on his claims for east ward preference. The necessity of the case was that the principal school buildings were not in the centre of the town and the day was approaching when the east ward school would have to be enlarged. Mr. Cornell went on to approve of the scheme for rebuilding the high school as outlined by Mr. Hudspeth.

Mr. Barron commended the scheme and moved, seconded by Mr. J. Debson, that the facts as presented by Mr. Hudspeth should be referred to a special committee composed of Mesers. Cosnell, Barron, Taylor, McNeillie, Debson and Col. Deacon, to report at an adjourned meeting of the board......Col. Deacon gave the board the general facts as to how a similar scheme had been put down by the town council some few years ago. The resolution was carried.

RESOLUTION OF CONDOLENCE. Mr. John Donson moved, seconded by first opportunity of expressing their sincere re-gret at the less sustained by the beard and the schools of the town by the death of the late Alexander Wray, for many years a member of this beard. This beard desires to place on re-

Alexander wray, for many years a memoer to this beard. Therefore they the school system of the town. Therefore they desire to express their sympathy with the widow such family of the late Mr. A. Wray in their bereavement; and that a copy of this resolution be sent to Mrs. Wray...Mr. Barron in seconding the resolution said he recognized that the late Mr. Wray had been an exceedingly industrious and indefatigable member of the beard, and Mr. Hudspeth speak of the deep interest he had always shown in school mattern. The resolution was carried unanimously.

THE TWO SCHEMES. The board discussed the question whether it would be well—in view of the progued scheme to put up new buildings—to go on with the purchase of the old St. Andrew's church as intended at the last meeting. Several members thought dot, but that in the event of a by-law to raise debentures being voted down by thought not, but that in the event of a by-law to raise debentures being voted down by the penple it was possible that no other course was oven to the board. It was pointed out that the St. Andrew's church was as good as purchased and that the distinct understanding was that the board would buy the church. In fact a memorandum confirming the sale had been signed by the chairman of the board and by members of the church. Measer. Walters, Tayler and Barron were of the opinion that a by-law to raise \$12,000 for building a new school house could be carried, though Col. Deacon was very despendent on that point...... Mr. Walters said that a people that had spent over \$50,000 on their churches in one year would readily vote a sum sufficient to give the town creditable school accommodation...... A resolution was passed instructing the secretary to notify the council at 1's next meeting that the board would require the sum of \$1,600 to pay for the Preelyterian church on Francis-st., for school purposes.

Mr. Cornell asked for some explanation as to why Inspector Knight had collected fees from high school pupils for permission to write for matriculation at the university examinations.

The wonderful mechanism of the watch naturally excites the curiosity of most persons, yet how few of the millions of people who carry watches know anything of the construction of this dainty piece of mechanism which af-fords them so much satisfaction, and how few persons stop to consider the importance of giving the selection of the same a little serious and reasonable thought, that they may be enabled to secure the most perfect time-piece.

With a little intelligent attention given to this subject one may judge which is the most perfect and reliable Watch to purchase, and thus avoid the annoying troubles caused by poor work and bad construction
