KNOW THYSELF.

A Great Medical Work on MANHOOD Exhausted Vitality, Nervous and Physical Debility, Premature Decline in Man, Errors of Diet, and the most successful treatment.

The Science of Life is worth more to the young and middle-aged men of this generation than all the gold mines of California and the silver mines of Nevada combined. It is a scientific work on which the constitution and hopes of many a young man have been fatally wrecked.

There is no member of society to whom the Science of Life will not be useful, whether youth, parent, guardian, instructor or clergyman.
