LINDSAY, FRIDAY, JULY 23, 1886,

EAHLY SEEDING -THE SOURS DISTRICT -A

and sowed over 300 heres, using four span of horner and one toke of castle. Our Crop consists of 320 scree of wheat and the mainier in onte such berley, so you see, Mr. Militor, we are not out of the world in regard to familie, counting ourselves Only moderately selvaneed, on this is our fourth crop only. In sight of our place there is a farmer who last year respect 640 seres of wheat in one block. The prices see low, but there is an abundance of every.

thing, which gives the settler a contental mind. I have travelled around consider ship and conversed with nuite s minher of people and apparently they all feel well milefied, with very few exceptions, with the country, and entertain bright hopes in the country's future. I am situated about state miles south of Plans Creek, or Souris, is it is new called, in what is known as the Souris district. The course fer for miles in every direction is besuti ful, being well adapted to furning in all the varied branches. All kinds of laborenving nachinery are used here to a great selvantage, Practically speaking, time country is the home for the sully plaw and self-binder. Our crops, though far advanced and looking well, stand in need of a good heavy rain, for although we have sup and the high dry winds provident in a prairie country soon render the earth quite dry again. Driving through the country the home steads present rather a bare looktrees, although some have taken the in-itiative step in tree planting, and now have the rows of trees around their huid-ings as the result of their labor. Fruit-frees I have not noticed since I came to the country, therefore I am unable to give an opinion in report to them or their growth, but as for small fruit we can flow them to perfection. My brothers have a nice struct garden, fenced and de-voted entirely to the growth of small fruits. Voted entirely to the growth of small fruits, which for healthy looking busines and the smount in the would compare favorably with any grown in Ontario. Now, we have some dissivantages, and foremost smong those standing out prominent above all the others, and worse than all is imposall the others, and worse than all is imposof time its by a government preceding to
work for the interest of our country. This
serious drawback I speak of is all the odd
Stimbered sections given to the rational
company, which are all lying vacant, and
the action is working away with the diaservants; of having to cross till serve to
se to his neighbors; get they are working
sway and the more they improve their
property they know that at the same time
they are uniting money in the pochets of
lend grathours and sponistors by increasthe the value of their lands, who care
sothing for the country or the action as
long anthry gain their own selfen ends.
And those are the men who are kept good
and fat while he poor "spon-for" ections
have to take what comme. A Summeriner.

CHITTARY - DEATH OF JANES MOTFATT.

eway quietly on Suturday, the 3rd day of July. Mr. Mostati'n boulth, we

nton-left together last week. Hobt. Flem-ing and James McDonald have returned. Removal...On Friday last Peter John-son was taken to Lindsay to be taken case of. He had been very unruly and abusive for some time before being taken away. Hilland Ement of Section.—The final steps inconnection with the enlargement of our school section have been taken. Much credit is due to the many gentlemen who took as active part in the matter; but partook as active part is the matter, but particularly to the trustees and Mr. Glendending. They stood to the work with courage and persistence and have accomplished the result. As a Brock councillor said, "See what eticking to a thing will de."

EDEN.

ANNIVERNARY, The Sunday school so giversary here passed off with the usual success. The wenther was everything that could be desired, being just warm enough to make the stands affected by the trees appreciated. After listening to some excellent music by the choir said children, and some interesting specules, readings, distances, etc., everyone adjourned to the church sheds, where a capital tea was provided by the ladies. Much credit is due Miss Carry Treisaven for the efficient masser in which she accomplished theorimone. mine Carry Freienven for the efficient man-ser in which size accomplished the arrivous melt of trutuing the children in their dis-ognes and recitations.

Bass Back—We are surry to have to

ment of transming the civildren in their disagree and recitations.

Band Ball.—We are early to have to take up the base buil question remoting the matrice played by the with the Salem citals, and it is only to justify our eleves in the quinton of these not arquaisted with the real discussations or marked with the real discussations or marked with them, that we do so. Elither to we have considered it beneath our notice, trut the last paragraph appearing in The Poor contained too many false and measurement as the overlanded, we have also constituted that the consideration that it is "only a dentity braying" does not make the noise any more agreeable. In the first place, so an apology for charging for admittance to the grounds, the Salem scribe states that they went to the expense of providing a first cinescape; at the liste, whereas we gave them only a basiset lunch. This we aimit, but they show that not being situated near a lotel it was impossible for or to provide as proof a support at the liste, whereas we gave them only a basiset lunch. This we aimit, but they show that no pay for our support. We do not thank the Salem club for it in the least, whereas it was five the salem contitues the first make the consequence of the Salem chart for not would not the there are interesting disconters in our club, conceptually they did not would be to the crudit of the Salem chart in the salem the first make, and for not weating the first make, and for any was grown for not would not the same the condit of the Salem chart they could make the same was a second for claim, our or part. We led the weating to disconte played have been already to the salem in the first make, was that we were already to play the note in any or favor. Here our make me to instruction, or claim, or our part. We led the was found for claim, or our part. We led the salem in the played have any are the salem for the salem in any or favor. Here our part, we have the salem are any or salem for the salem in a sale of the salem are any or was any salem. Th

week on account of not being able to produce witnesses. It appears to be a difficult matter to get witnesses to give evidence in these cases, and on this account it is feared that there will be a difficulty in enforcing the act.

PICNIC.—A large plenic from this village and envenments. FIGNE,—A large pichic from time villages and surrounding country goes to Heaverton on Wednesday. A good time is anticipated.
Onofre Lowship.—The initiation of officers in Clorrone lwige L.O.O.F. Doek place a law weeks age by Rro. McSweys, D.D.G. M.: P.G., A. Gunn; N. G., A. McLaughlin; V. G., A. D. Campbell; dec. Sacy., T. Gilchrist; Secy., A. Gunn; Treas. A. Adams; representative to grand lodge, A. Gunn.

RETURNED. —We are sorry to learn that Byo. J. H. Metiuire, late of Beaverton, had to return from Californic to Teronto not much improved in health. AWAY TO THE ROCKIES,—A. D. Campbell left on Monday morning for a trip to the Rackies. He went in company with R. G. Campbell and W. McKinzle of Kirkfield, and

Apocts to be away for some months.

New Livery.—A new livery stable has heen started in town, known as McPherson & Campbell's. Opposition is said to be the life of

IN TRAINING.—Since the Causington recesour "Hyers" are having an easy time. In McKey is noting. "Presbyterian" for his-driving. W. D. McCrimmon's four-year-old. "Extra" showed her ability to trot in 50 or better at the Causington races. This is very fast going, as she has never had very much training. This mare won first prize at the Lindsay central last year for the best single driver and also at all the local fairs, and now that she is showing so much speed she is certainly one of the most desirable marce in the county.

Bustness is quite a run at 35 cents a barrel. Opposition is the cause.

BARN-BUILDING.—Mr. Norman Fernusen has just completed his fifth barn this season, all being very fine buildings. The last was for Mr. Angur McKay, a few miles east of here. He had his old barn raised and an addition put to it, which makes it now 10238 ft, with a least of 14 ft., with stone foundation under all. He purposes next season raising his other bars and putting stone foundation under it also. When his barns are completed he will have one of the best fitted up farms in this section, and that is seging a good deal, as all are petting in first-class shape.

COMMERCIAL NEWS.

-Boycotting was carried to an extraor dinary length in the Scottish Highlands

A terrible secident occurred new Jamestown, Mich., on Thursday, Gerrit Bouna, whose parents reside in that village, was at work on a load of wheat, and fell off in such a manner that two times of a ferk which fell off the lead at the name time entered the back of his head and passed completely through it, coming out dear the nose. He pulled the fork out himself and ran to the house some distance away, climbing a fence on his way. He asked for water, but soon after went into comvulsions and died in about two hours.

### **CAMPBELL'S** SUGARS.

Unrivalled for PRESERVES, SYRUPS, JELLIES. OR
