Funeral! We regret to have to announce the death Tuesday of the late Mr. Charles H. Lemmon, brother of Jas. H. Lemmon of Lindsay. The deceased gentleman had passed through a long and trying illness and finally succumbed to the ravages of consumption. During the past year he was under the care of his family and received all the care and attention that affection could prompt. The funeral took place on Wednesday morning at 11 o'clock and was attended by a large number of friends. He is survived by a wife and several children.

Local News! The editorial staff of THE PRESS are indebted to some as yet unknown friend for a magnificent present in the shape of a splendid pair of boots. Mr. J. Milburn is cutting a quantity of stone for the trimmings of a new block of brick store to be built at Fossil Falls on the McArthur road. Wednesday next will be civic holiday. Pleasant excursions, base ball match and garden will form the amusement of the day. You don't have to pay much money and you take your choice.

The St. Vincent de Paul Society have their annual report on Wednesday evening next, at 8 o'clock. The object to which the proceeds will go is a good one and the trip should be well patronized. At corner of William and Glenelg sts. Mr. J. Williamson has had work commenced on the new story brick residence which will when finished add to the beautification of the locality. Mr. Lindsay has the contract for the work.

George Calvert has handed us a remarkable fine sample of spring wheat grown by Mr. Denis Callaghan on the Colorado; the berry is new variety called Colorado; the berry is large and plump; and the yield is very large. Mr. Callaghan has about twenty acres of this variety in fruit and is well pleased with the results. Mr. C. W. Silver has bought out the City Livery business carried on for some time by Mr. J. W. Silver and his son. Mr. Silver has been successful in his business and has many horses and will have a fine stable and fast animals which will take the dust of no others on the road.

The Wanderer carefully states at the head of an anonymous matter that the editor is not responsible for columns or paragraphs written by him. It will now be in order for correspondents to definitely state that they are not responsible for columns or paragraphs written by them. Mr. Herbert Taylor of the North Ontario Western Mail, who is in town recently and is a regular visitor. His goods had ready sale to our leading merchants, the quality being in every respect superior. Mr. Taylor's firm has an excellent reputation, and as a result it has a steadily increasing patronage.

On Wednesday night while washing his rig at the river near Lewis house Mr. Gain's mare backed out into the river and despite the exertions of Mr. Gain was drowned. The horse got entangled with the shaft and became unmanageable. Mr. Gain had a narrow escape from drowning as he was carried down with the vehicle. On Monday the advertising car of Forepaugh's circus was sidetracked at the station and presently four active men in duck suits that were white canvas and being painted the town red, with streaks of green and yellow. The posters show a variety of horrid and striking details and will form a seven days' work for the small boy.

An eloquent gentleman hailing as he states from Texas, the late star has been giving nightly lectures on the market square to large gatherings of interested hearers. He discussed freely on theology, the social philosophy, politics and human nature, and incidentally sells some valuable in the shape of jewelry. The whole affair is well worth the attention of admission—nothing. Query: Reader, are you one of those that got lost? Peterboro people will on the local civic holiday, August 11th, erect a monument to the memory of a man who has been a blessing to the community. A company has been formed at Peterboro to build on Chemung lake, near Bridgeport, a summer hotel. The property is owned by land property will be partitioned out into building lots. This is commendable, as there is no good reason why each lake shore should not have summer hotels at all available points.

The W. P. engine ordered some time ago by Geo. Inglis & Co. has been received and the new factory and will be set up in running order by a man from the shops of the builders, Osborne, Killey & Co. Hinton. The new engine is a fine piece of work, well finished and provided with the latest improvements for governing the speed. The engine will be in use now on at the old factory is over—if it ever does back off—the plant will be moved across to the new premises.

The Canadian Live Stock Journal is probably the best Ontario publication of its kind, and we are heartily recommending it to the favorable notice of all farmers reading THE PRESS. It is a poor and unattractive farmer who cannot get on his feet for more than the subscription price and even an advanced progressive farmer is very likely to get him and anxious work worth hundreds of dollars. The progressive farmer, however, is sure to take the Journal or some other good agricultural paper. We are indebted to the Journal for the fine article on the Aberdeen-Angus cattle on our first page.

While Mr. W. Draper of lot 1, con. 1, Ops. was descending his river bank the morning of July 26th, he noticed a small hole in the stratum of blue clay. The bar presently opened and water began to rush up in great quantities. He did not hear the morning something had to be done and clambered out of the well without the formality of removing the cover before August 3rd. It is understood that the bar which Mr. Haslam was charged with selling was procured and drank by the jolly staff of bricklayers and builders working at the Methodist church improvements and building new St. Andrew's church, and many a good laugh and any amount of cheer was indulged in at the expense of the men. However, it was hot day, and the work was hard and a drop of beer was well needed.

On Monday last at Oakwood Wm. Brunner, hotel keeper, was charged by Messrs. J. F. Cummings and W. H. Silverwood, J.P.s with selling liquor between the date of May 1st and July 20th. Five witnesses for the prosecution were examined, showing that "Crank" or "Scott's" was the name of the beverage sold locally. The case was heard, Mr. J. P. Martin appearing for the prosecution and Mr. J. W. Silverwood for the defence. A prima facie case was made out, and the defendant refused to go in the box to rebut the evidence. Fined \$30 and costs, to be paid in ten days.

On Friday morning Messrs. J. Britton, W. Stewart, J. Stewart and J. Keele start for three weeks on the lakes of Cavendish and Anstruther, going by way of Lake Umbagog. Mr. J. Britton is the photographic artist of the party and will bring back three dozen views of the scenery. On Hoy's Point, Sturgeon lake, a large party were on a fishing trip. The party consisted of Messrs. J. G. McMillan, W. D. Dandae, J. Hart, N. Carmichael, K. Fox, N. McCrimmon and others. They were out on the lake for three hours, but no fish were taken. The party was accompanied by a steamer and took four canoes, besides tents and bedding. The camp has been named "The Excursionists' Camp."
