OWELE OF THE CANADIAN POST, 1 Business and Produce

It is trille early for the fall grain trade to he market will open up with bar'ey at about one. This is a " I dure then farmers like even with cop. Wheat in the English mar-

thort err p grounds, and aside from any war e good reasons for expectr the present , ear is estimated at 60,000,.

riding this ",800,000 acres.

these countries will have to import from that, such being the case, factorymen may 72.05 (1000 for 100,000 bushels more wheat then they do a little better by acting judiciously. Subjoined are Montreal prices: were the turn dearer, and the country mar-The Harley Outlook.

The Port Perry Standard says: The beras \$1.50 per bushel for our the years the great west sects that he extra quantity produced has demand consequent upon stern states sown to barey a selection the yield per act heavy, and the quality of the grain has proven better than they month this season, sales of of western barley have been to malsters, litherto malsters have refraited from buying western barley early, because of its inferior quality; but this season they have already taken a great-of quantity then was marketed of No. 1 barley last season. In other years, though the crop in the west may have been large, the very lud herent quality of the grain made it possible for our merchants to find a market in Milwaukee and Chicago, but they affirm that they will not need any barley from us this season. The reports from our neighbors in York State are conflicting but we get had from them that they have a fair average crop of good quality. The crop in Calario is undoubtedly good, both as to yield and quality and the acresse is

While in the foregoing statements there is nothing in lead us to think that prices will be extremely low, still we do not think that they should hold in expectation of high prices. The impression seems to prevail that early sales will be the best this year, and past experience teaches that it is poor policy to held be riev till late on is the season, when the crop is known to be equal to or in excess of the actual requirements of the trade. Harly sales and prompt applications is what penerally proves the salest plan to work upon. We venture to say that the chances are so nine to one in favor of the men who sells out close every fall.

Antich live stock trade during the past cline in the value of cattle which has taken with a large not one ruler, mand back black and blue.

demand. Values are now at the lowest point, but it would be rush to predict that they will not go lower. The Montreal Gazatte's special cables of Monday indicate a most discouraging state of affairs, and utterly fail to hold out any hope of immediate improvement, although such is badly needed. Heavy receipts from all quarters have fairly glutted the markets, and forced sell-crat to automit to lower prices. The Cauadian contingent was large, and the arrivals from elsewhere were heavy. These neavy offerings naturally weaken the markets and demand dragged miserably, while inferior stock had to be sold at whatever they would bring. At Liverpool Monday there were abundant offerings, the market being glutted, and prices were haif a cent lower than a year ago, and four cents lower than in 1884. Demand was very weak at the decline, and large numbers were left unsold. Prime Canadian steers were at 114c, fair to most discouraging state of affairs, and utcline, and large numbers were left unsold. Prime Canadian steers were at 11½c, fair to choice grades 11¢c, poor to medium at 10¢, and inferior and bulls at 7½ to 9¢. The supplies of sheep continue heavy and the trade unsatisfactory, sithough no change is given in quotations, the Gazette's Liverpool cable quoting best sheep at 12¢, secondary qualities at 10¢ to 11¢, merinos at 1½¢ to 10½¢, and interior and rams at 7¢ to 8½c. The foregoing quotations are calculated at 180 in the ½. The meat markets have ruled the L. The meat markets have ruled weaker. Liverpool quotes 6d for hind-cuarrers, and 3 d for forequarters per 1b., and London 3s 10d for hindquarters and 2s 3d for forequarters per 8lbs., by the car-

British Grais Trade. The Mark Lane Express in its review of the British grain trade during the past week says: "The harvests thus far have been greatly disappointing. A spell of dry weather with hot sunshine may yet re-deen what appears to be a bad harvest. The returns of 125 wheat districts show that 10 are above the average, 96 are equal to it and 28% are below it. The yield of barley in 227 out of 127 districts is below

tricts; of beans in 162 out of 275 districts, and of peas in 115 out of 245 districts. Trade is sluggish. English wheat is generally one sh' ling dearer." Montreal Live Stock Markets.

There has been a large arrival of cattle he past few days. At Point St. Charles since Saturday morning there were 1,218 pattle, 336 sheep and lambs, and 22 hogs came in: a large number of these were des-tined for the British markets, but the supply of common butchers' cattle is in excess of the demand, and prices are very low. Choice animals are in demand at from ic Choice animals are in demand at from ic to the perib., but pretty good beasts can be bought for Se per ib., with lean animals at from 2c to the perib. Very few calves have been brought to the market of late, but there is not much demand for them. Sheep and lambs not so plentiful as on last Thursday, but prices continue pretty low at from \$2.50 to \$1.50 each for sheep, and from \$1.50 to \$2.25 each for lambs. Hogs are still scarce and prices are advancing at from 5 to a c per Il

Butter and Cheese. There has been considerable buying of creamery at full prices, reports the Montreal (lazette. Exporters have stepped in and taken several hundred packages at 20c which figure is practically the top of the market at Montreal at present, while a dealer who makes a scoop now and again has been buying largely in the country at can be secured on that basis. This should exercise a stiffening effect on the market, as it is understood that a large quantity has been bought. In dairy butter there has been bought. In dairy butter there has been no change, but the scarcity of fine goods suitable for local purposes continues prominent. Subjoined are the Montreal

cheese at Montreal on Monday, but as usual good deal of talk and feeling around to as-certain the drift of affairs. The situation, so far as it relates to actual facts, has not undergone any change, but it would not be surprising to witness a move of some kind before long. Exporters continue to put forth the plaint of "no orders" and act inthe aily a relained is "Second acres differently, but it is doubtful if better terms the corrected estimate of the deficiency in than 87c can be secured. That figure, on Paropenn wheat crop accounts for the | the other hand, would not be paid Monday of the market. It appears that The cable was unchanged at 43s 6d. Mont the United Kingdom will want 3,000,000 real dealers have been offering to contract quarters more; France, 3,000,000 to 8,000,000 at 9c August, 10c September and 11c Octoquarters more; and Germany, 1,000,000 ber. It is understood that these figures nariers more than last year - that is to say have been bid in good faith, and it is likely

Honey Jars, at reduced prices at A. Campuell's, -7-3.

Jelly Jare. Leary's Iron Ladders.

During the last two weeks Mr. Leary has put is necessary that we take a up over 1,300 feet of his Iron Fire Escape Ladole barley field, to know ders. The old wooden ladder is a thing of the past. The new iron ladder is a fixture, cannot be borrowed and is always reliable, never gets out of order and needs no repairs. Every building should have one on it.—6.2.

> Geo. Calvert's Crop Report, As I have been through Ops, Emily and Fenelon I have had a goed view of the crope. The crops are first rate and of the very best quality, Hay has been a full average and well saved. Fall wheat is first rate. Spring wheat is far above an average crop. Oats seems to be a double crop all over the county. Two-thirds of the crops are in the barns without rain. I am telling you what every farmer tells. Now there is only one if left; that is if the prices are good. We in Victoria and the adjoining county will weather the storm. There is a good deal of grain to harvest back north. I may say we have the best crops, and the best quality of grain and the best harvest weather I have seen for fifty years. So says every farmer whom I have met. We are living in a land of plenty. We ought to have another thanks-giving.
>
> GEO. CALVERT. crops are first rate and of the very best quality,

Police Court. On Friday last at the police court before Magistrate O'Leary, Wm. Preston was charged by Police Officer Hell with carrying a revolver The case grew out of the assault made by Mick Carlin on Thos. Dean—who was accompanying Preston home on the night in question. Evidence of several witnesses was taken, showing that Carlin—who is a notorious fighter and bully—had threatened in the hearing of witnesses to thresh and maltreat Preston, and afterwards followed Preston about with that purpose in view. Preston went and secured a revolver to defend himself with if necessary and was going home when attacked by Carlin, who presently fell foul of Deane and was "winged" by the latter in capital style. After hearing evidence Magistrate O'Leary dismissed the charge. A similar charge against Thos. Deane was also dismissed Some other charges in connection with the fracas will be heard before the court to day McQuillan, one of the Forepaugh circus laborers, was arrested by Chief Bell on Tuesday, charged with stealing as overcost from a farmer's waggen. He was placed in the leck-up for the night and on Wednesday morning was sovened by the p. m. to one month's hard labor. Harry Head, a detective employed by Forepaugh, assisted in the arrest. Mr. Head is determined to prevent all thieving The case grew out of the assault made by Mick

who recently swam the whirlpool rapids at EYE, EAR AND THROAT. Niagara says he thought he had struck the whirlpool again, his head got so dizzy when he heard of the prices at which they are rushing off every line of goods since they commenced stock-taking at G. A. WERRE's clearing sale.-7-1.

Dr. RYERSON will be at the BENSON HOUSE, Lindsay, on SATURDAY, SEPT. 1. for consultation in EYE, EAR. THROAT and NOSE CASES.

Brock, at Sunderland, on Monday, Tuesday and Wednesday, Oct. 11, 12 and 13.

Ops Council Meeting.

Mariposa Fall Show.

The directors of the Mariposa agricultural so-

ciety have changed the date of their fall show to Friday and Saturday, October 1st and 2nd,

1st and 2nd Oct.

The council of Ops met in Lindsay on Monday August 23. All members were present. The minutes of the previous meeting were read and approved. Moved by Mr. Kilis, seconded by Mr. Duck, that the sum of \$15 be expended on the Fencion boundary at the 11th con. of Ops to that 13 are above the average, 10 are equal to it and 28% are below it. The yield of barley in 227 out of 127 districts is below the average; of oats in 265 out of 133 districts; of beans in 162 out of 245 districts, and of peas in 115 out of 245 districts, Trade and of peas in 115 out of 245 districts, Trade weight of a barrel of salt at 280 lbs, net and revenient to enact a law fixing the weight of a barrel of salt at 280 lbs, net and revenient to enact a law fixing the weight of a barrel of salt at 280 lbs, net and revenient to enact a law fixing the weight to be attenued on all barrels. weight of a barrel of salt at 280 lbs, net and requiring the weight to be stamped on all barrels. Carried. Moved by Mr. Hopkins, seconded by Mr. Ellie, that the rate of assessment for the current year be struck at six mills on the dollar, exclusive of special school rate.—Carried Moved by Mr. Rea, seconded by Mr. Ellie, that whereas Sadler, Dundas & Co. have placed a scow across the Scugog river at their mill in Lindsay for the purpose of a railway and have also placed a boom across the dam at Lindsay, thereby causing great loss to the inhabitants of the township of Ops, whose lands lie along the Scugog river and its tributaries, and also causes numerous large outlays for repairs to bridges injured by high water, be it therefore resolved that the council memorialize the hon, the minister of public works for the Dominion of Canada and also memorialize the hon, the commissioner of public works for the prothe commissioner of public works for the province of Ontario, to have the immediate and permanent removal of said scow and boom.—Carried. The council then adjourned till Monday, Sept. 27th.

An adjourned meeting of the town council was held in the council chamber on Monday evening last, August 23rd, There were present Mayor Deacon, Dep.-reeve Bryans and Couns. Walters, Mallon, Keith, Crandell, Sinclair and Taylor. The council went into committee on the second reading of a by-law respecting the public health, read at a former meeting which was to have been held on 16th August and again on Friday evening of last, week. It was he said the most important meeting of the council, as the rate should have been struck much earlier. Mayor beacon then gave an estimate of the expenses of the town for the current year. It showed that the strictest economy had been observed and that this year's expenses as estimated would be about \$2.300 less than last year. He then proposed that a rate of the indicate the master of the master of the excavating and the master and bricklayers' work, labor and materials, and certain other works, etc., in connection therewith, required for and in the erection and construction of the proposed new Parliament and Departmental Buildings. Scott act the revenue of the town fell off about \$2,000 or about 140 of the whole revenue. It would therefore be necessary to raise the rate 140. Coun. Keith, Mallon and Crandell objected to the rate as being too high, and movlast year. This would carry over a deficit of about \$3.000 to meet next year, when by all appearances the people would be in a better position to meet it. Mayor Deacon objected to the system on the ground that it was not economy. It was only putting off the evil day. He contended that the only true economy was to make each year clear its expenses. Dep. reeve Bryans in amendment to the ground that the only true economy. each year clear its expenses. Deperceve bryans in amendment to the amendment moved that a rate of 17 mills be struck. On the vote being taken the amendment was carried. A report of the finance committee was read and adopted.
