LINDSAY, FRIDAY, SEPT. 17, 1886. LOCAL NEWS-LETTERS

FENELON FALLS.

(Correspondence of The Post.)
WHITE SPARROWS, -A few days ago two roung white sparrows were noticed in a little flock of ordinary ones on the road near the post office, and since then scores

of persons have seen them.

A TRACKLY, Last Sunday evening Mrs.
Thomas Robson's canary, a very fine singer, was killed by a hawk, which thrust its talons between the bars of the cage and mounezed the little occupant to death, but was unable to get it out. The murderer was shot a few minutes later by Mr. Craig. an it not in a tron in the grove eating a sparrow it had caught after leaving the

LAYTON. NARROW ESCAPE, Mr. Wm. Hall, of this place, met with a very narrow escape from death on Friday last. He was driving a load of grain into the barn when the team death on Friday last. He was driving a load of grain into the barn when the team took fright and rushed into the door, and before Mr. Hall could release his hold on the lines, his head struck the top of the doorway, knocking him senseless. It was thought for a time he was killed, as he was unconscious for a couple of hours, but is now recovering nicely under the doctor's care.

BUNAWAY, Mrs. W. Moore and her mother in law were out driving the other do Joseph Stewart, do day, when the horse, taking fright from the breaking of the harness, ran away, upseting the buggy and throwing the occupants out, breaking Mrs. W. Moore's arm and John Junkin, do seriously injuring the old lady's head.

Win. McGregor, do Win. McGregor, do Win. Lav.

DUNSFORD.

Correspondence of The Post.) tiraham & Gordon with their machine the "Hon, E. Blake" threshed in one day, be sides moving, eighteen hundred bushels of grain, part for Mr. Duffy, the remainder for Mr. Connell.
NEW House, Mr. Jabez Thurston has

moved into his new house, which is a handsome brick building and a credit to our neight-orhood. [May our worthy friend long live to enjoy the comforts of his new abode.] ... Jon. McCulium is re-

ioleing over a young son. Harvest gathered in. It is, by the way, the most bountiful we have had for many years. We hope the old cry of hard times will nk into oblivion.

OAKWOOD.

| Correspondence of The Post.| Scott Acr Cask. (To the Editor of The l'oat.) Your correspondent who reported the Scott act case from Oakwood two weeks ago perhaps feared the editorial shears would make havoe of his communication I he made it too long, or perhaps he did not wish to attract too many of the bibulous fraternity to his village and so made no mention of the evidence of one of the witnesses who is reported to have testified that he had got intoxicating liquors at firunker's within thirty days, that he had drunk some there, that he had taken some away is a bottle, that nevertheless he had

of paid anything for it, and that lie did of intend to. If Brunker is really thus Eghting the Scott act at his own expense, and by free drinks siding others to do so, his self sacrifice is worthy of a better cause and wider recognition. TEMPERANCE.

KINMOUNT.

Correspondence of The Post. 1. Ocal. Falis. A very practical step has been taken in Muskoka district for the prootion of the sale of cattle and live stock. A suriou of fairs have been arranged to folow each other in regular succession, and at such dates as will permit the Toronto and Montreal estile dealers to attend. It is now suggested that the same plan shoul e adopted in our own back country, and sire arranged to take place at Kinmount. Haliburton and Minden on three following days. It is further suggested that there doubt that the tenants relief bill will be should be two fairs at each place; the first; promptly killed with or without liberal during the first week in September, and the second during the first week in November.

there is money ready and we would caraently request him, or othere, to "put up"
or "shut up." W. F. Berry and one helper
packed the 511 thousand in the same time.
Did Mr. Weish have any more than one
helper! Jno. Berry has charge of the saws
while W. Chase and and Goo. Mills do the
jointing. We need not say snything regarding their ability, se the amount and
thoroughness of the work are sufficient
for that. Whether Mr. Mills has that peculiar tact of "keeping the men at work
and in good humor," we know not, but it
is evident he gets more work done than
most of the other mills in this place. Who
will be the next! will be the next!

BELLEVUE.

BELLEVUE.

[Correspondence of The Post.]

BINDING BEER, which have been very common this year, came to a close with a grand raily on the farm of Mr. W. J. Warren last Monday, 6th inst. Twenty-five willing and stalwart young men assembled at the trumpet call of Mr. Warren, four being from Bobcaygeon; the town of Lindsay being represented by Mesars, Valentine and King. Mr. Valentine with his strong arm and muscle-binder excelled some of the self-binders now in use, in short Tom is a "buster" to bind. Mr. Warren had a good night's work done, at the close of which the boys had a little pionic. Mr. David Kennedy upheld the credit of the family by delivering the parting oration, which was received with deafening cheers.

MARKIIAM.

Wandered Away.—A nine-year old sen of James Medd, of lot 20, con. 7. Markham, wan lost on Tuesday evening of last week in a very peculiar manner. His father took the lad out on the 7th con. with him to hunt a stray steer, and after finding the beaet, left the lad to watch it while he went after his horse. When he returned the boy was nissing and no trace of him could be found that evening, and no definite trace until Thursday morning. It was learned that a lad answering his description had been seen on the 3rd concession of Uxbridge, a man having picked him up on the road and given him a a rider, and late last Thursday afternoon Messrs. Wm. Stiver and Henry Ety followed up this information by diligent enquiries and traced the boy to the MARKHAM. gent enquiries and traced the boy to the sich con., l'ickering, near Brougham, where they caught up to him on the road and brought, him home. - [Economist.

journed to 1th October. EVENTS OF THE WEEK.

A despatch from Copenhagen says a buttle has taken place at Braenderstoven, on North Jutland, between 2,000 peasants, armed with sticks and stones, and 60 gendurnies, resulting in the defeat of the latter Detectives who have been inquiring into the alleged attempt to wreck a Canada Atlantic train with the Orange excursionists returning from Kingston on July 12th last, have arrived at two conclusions. One is that a tie was thrown from a supply train to the side of the track for repairs, and arriking on its end fell over unobserved upon the track. The second theory is that some berry pickers picked up a tie and rested it upon a rail as a seat, and stupidly left is there

An extensive repatriation movement has set in among the French-Canadians in the New England States. Delegates sent by an association of one hundred and five heads of families have decided upon the valleys of La La Lievre and La Rouge, in the Ottawa district, as the most favorable place for settlement, and will select between twenty and fifty thousand acres of iand, on which houses will be built and the iand, on which houses will be built and the land cleared so that the returning exiles can begin rilling the soil immediately on their return.

-The London correspondent of the Montreal Star cabled Saturday:-Mr. Parnell and Lord Churchill have agreed that the tenants relief bill introduced in parliament early this morning shall be read a second time on Tuesday. A division ought to be taken not later than Wednesday or Thursday. Meanwhile the debate on the aupply bill will be auspended. The Parnellites will be able to avenge themselves for the defeat of their bill by delaying the Irish estimates which come among the last for consideration. There is no longer a doubt that the tenants relief bill will be should be two fairs at each place; the first during the first week in September, and the second during the first week in November. The plan would probably be found of great advantage to the farmers in the back country. The plan would probably be found of great advantage to the farmers in the back country. The suggestion comes from some of the Toronto cattle dealers, and it there were fairs appointed to be held, say at Kinmount on Tuesday. Nov. 2nd; at Hailburton, on Wednesday, Nov. 3nd; and at Minden, on Thursday, Nov. 4nd; and at Minden, on Thursday, Nov. 4nd; and at Minden, on Thursday, Nov. 4nd; and at Minden, on Wednesday, Nov. 3nd; and at Minden, on Wednesday, Nov. 3nd; and at Minden, on Thursday, Nov. 4nd, next ensuing, they would probably be attended by several extensive dealers in live stock. The plan is well worthy of the consideration of our back country friends.—[Independent. Chiampton Shinole of the 3nd inet, gave an interesting account of the work being done in Mr. Dovey should mill. The work was indeed good and he did right to record it, but Mr. Dovey should not be too eager to less the account of the work being done in Mr. Dovey should not be too eager to less a challenge to all other men and machines until he had learned what others could do. In the mill swead by R. J. Mills & Bro., Robert Palmer out 513 thousand. Single less the length have cut more than \$200. Head of N. Maring and the same what others could do. In the mill swead by R. LOCAL MATTERS.

We take from the August report of the Ontario agricultural bureau a number of extracts from letters of local con dents, written in the early part of the month. The splendid promise of a fine harvest has been more than realised. This part of the province has the largest allround return that has been harvested for

George Evans, Georgina, York: Fall wheat was badly winter-killed, a great deal being ploughed up or re-sown. What was left has done well, being well filled, and no rust or insects damaging it.

R. S. Webster, Scott, Ontario: Fall wheat was badly winter-killed in this locality. The greater portion was ploughed up in spring. The grain was harvested in good condition.

John Riddell, South Monaghan, Northumberland: Fall wheat is over an average
crop—a large crop of straw. There was no
rust or insect pest. Cutting commenced as
early as the 10th July and was quite general by the 16th. The wheat shot up irregularly and ripened the same, yet the late is
quite as good as the early, being plump and
well filled.

Wm. Ramsey, sr., Mariposa, Victoria:
The fall wheat is rather light in straw, not
having stooled out as much as usual, but
the quality of the grain is likely to be number one. There has been no rust.

John Westlake, Eldon, Victoria: Fall
wheat is all cut, and is the finest crop
grown here for years. It was not so thick
on the ground as in some years but it is
well filled.

Nelson Hesslip, Bexley, Victoria: The
cutting of fall wheat commenced about
July 20th. The grain is plump and the
heads well filled; but the straw is light,
having been injured by winter-killing
about twenty per cent.

about twenty per cent.

F. R. Curry, Anson and Hindon, Hall-burton: Fall wheat is excellent and has re-

burton: Fall wheat is excellent and has received no injury from any source. The
grain is very good.

Stephen Kettle, Glamorgan, Haliburton:
Fall wheat looks better than ever I saw it
here. It has received no injury through
the summer. Frost in spring killed out
one or two pieces that lost the snow very

Thomas Scott, N. Gwillimbury, York: Early sown is coming in good, but there is rust on later sown; it is too soon to tell to

in apring wheat on Monday, 2nd inst.
Samuel Taylor, Mara, Ontario: Is looking
well at present. If it is not broken down
by storms it will be

by atorms it will be good.

James Brock, Cavan, Durham: The apring wheat is not ripe in this vicinity as yet, but the heads seem plump and full. I think there is a little rust on the straw. It is thin on the ground I think on account of

fered by cold and drought, midge in a few places.

Wm. Lucas, Cartwright, Durham: Will be short in the straw, but well eared and has not suffered by the weather, nor as yet by rusts or insects.

Nelson Heaslip, Bexley, Victoria: Spring wheat promises to be an average crop. The straw is not heavy, but the period of danger is not past. The earliest will be ready to cut about the 18th or 20th inst.

John Campbell, jr., Mariposa, Victoria: Very promising, though slightly affected by rust. No other injury.

Henry Ferrier, Stanhope, Haliburton: Spring wheat looking well; no damage yet.

BARLEY.

John Foy, Scugog, Ontario: Fair to good.
Cutting commenced about the 22nd inst.
The berry is colored by recent rains.
James Parr, Cartwright, Durham: A
full crop. Considerable has been saved in
fair condition, but not much will be No. I
bright. All more or less damaged by re-

cent raine.

James Brock, Cavan, Durham: There is a good deal of barley, but it is not a very heavy crop. The drought affected it. Late sown will have the plumpest berry.

Wm. Ramsey, sr., Mariposa, Victoria: Barley is not over heavy, but the sample will be good if we do not get too much

Samuel Taylor, Mara, Ontario: Early oats look well. Those sown about May 24th have not so good a stand because of the drought of June, but have been improving for the past ten days.

James Brock, Cavan, Durham: The oat crop, I think, looks best of any grain in this section.

John Campbell, jr., Maripona, Victoria:
Good and promise to yield well. They have received no damage as yet.
Thomas Smitheon, Fencion, Victoria:
Early sown are light in straw and yield of grain. Late cown are very promising.

J. R., Curry, Amon, Haliburten: All

right in every way. Crop excellent. Will be ready for hervest in about a week. Ches. M. Stewart, Dysart, Hallburton: Pease look very well. My pease are all well pedded and will be a fine crop. This district always succeeds with pease.

Henry Glendinning, Brock, Ontario: Potetees are leeking well now but on many farms they did not come up well owing to the drought. Turnips, mangels and carrots are looking well, and promise a large crop providing the latter part of the season is favorable.

Samuel Taylor, Mara, Ontario: Potatoes look likely to be good. Turnips look well—better than usual; have not been troubled by fly. Mangels look fine—coulds carcely be better. Carrots good if put in early; etherwise not so good on account of dry weather.

weather.
Wm. Jas. Grandy. Manvers, Durham:
Potatees show a fair prospect; they were
attacked by the Colorado bettle to a large
extent, but by the use of Paris Green the
crop is kept from being destroyed. The
turnip prospect is good; not much attacked
by the fly. Other roots show a good pros-

by the fly. Other roots show a good prospert.

Nelson Heasilp, Bexley, Victoria: Roots
of all kinds are in excellent condition and
promise an abundant crop. Carrots and
mengels are further advanced than ordinarily at this date; turnips have made an excellent start and promise an extra yield.
Potatoes are doing well, but the Colorado
potato bettle has flourished beyond all former years and required diligent application of paris green to keep them in check.
Chas. R. Stewart, Dysart, etc., Haliburton: All roots are looking well. Potatoes
are looking splendid; less bugs than usual;
have not had to use paris green at all. have not had to use paris green at all.

Turnips very promising. Have carrots in use for the table; very fine. The weather has been very favorable for all roots.

Jno. Campbell, jr., Mariposa Victoria: Applee, a light crop expected; very little other large fruit grown here; small fruit

Chas. R. Stewart, Dysart, etc., Halibur ton: Can't say anything about fruit. My apple trees have been a beastly failure; I am disgusted and disgruntled with the

Amos Hawkins, Eldon, Victoria: Quality of crep good, but a little on the short side, caused by a very dry May; I never saw a better time for curing it, as we had no rain for weeks at a time, especially during clover season. Assiste-clover seed very good, but not much grown this year: red, very little allowed to go to seed, but those who pastured it, the first part of the season, have very encouraging prospects for

son, have very encouraging prospects for good yields of seed.

Wm. Ramsey, sr., Mariposa, Victoria:
The hay is rather on the light side, on ac-The hay is rather on the light side, on account of frosts in the spring and dry weather in May. All that was cut early was got in fine condition, for it was fine dry weather for curing; the late cutting will be somewhat bleached on account of showers.

Henry Ferrier, Stanhope, Haliburton:
Hay very good. Drought in the early part of the season caused it to make slow growth, but later rains fetched it along.

Haying has been wet, yet the crop has been saved in pretty good condition.

THE BULGARIAN CRISIS.

AUSTRIA PREPARED TO FIGHT. London, Sept. 13.—The Morning Post's Berlin correspondent says Austria has formally notified Germany that she will oppose any attempt by Russia to encroach upon the liberties of the Balkans. A special messenger has started for Strasburg with important despatches for Emperor William.

The Austrian newspapers while deploring the possible necessity for war agree that it must be cheerfully resorted to if it will prevent greater calamities in the fu-

POSSIBLE COMPLICATIONS INDICATED. LONDON, Sept. 12.—Great excitement has been caused at Chatham by the unexpected receipt of urgent orders from the admiralty to expedite the completition of men-of-war. Relays of workmen are to be employed day and night if necessary. This activity is regarded as indicating possible com-

BUNGARY WON'T CONSENT. LONDON, Sept. 13th.-Herr Von Tieza recently informed Count Kalnoky, the Austrian prime minister, that he was unable, as Hungarian premier, to consent to a Russian occupation of Bulgaria.

The Cologne Gazette says twenty Russian officers are going to Bulgaria to occupy the highest military poets.

A POOR OUTLOOK FOR ALEXANDER'S RE-STORATION.

BERLIN, Sept. 12.-The North German Gazette says there is no prospect of the reenthronement of Prince Alexander. Even if the Sobranje re-elects him, the signers of the Berlin treaty will hardly consent to his return. It is not unlikely, the Gazette adds, that Russis and England will come to an agreement very soon regarding the throne of Bulgaria.

PRINCE ALEXANDER'S POPULARITY. LONDON, Sept. 12.—Alexander's fete day was the occasion of great rejoicing at Philippopolis. The festivities were continued throughout the night. Bodies of troops headed by bands paraded through the town, and the streets resounded with the cheers of the populace. In the evening a brilliant display of fireworks was made. James Brock, Cavan, Durham: There is a good deal of barley, but it is not a very heavy crop. The drought affected it. Late sown will have the plumpest berry.

Wm. Ramsey, sr., Mariposs, Victoria: Barley is not over heavy, but the sample will be good if we do not get too much rain.

Amos Hawkins, Eldon, Victoria: Not as heavy a crop of straw as last year. but a better and much plumper berry. If we are only lucky enough to get a few weeks of dry weather the quality will be, I think, a little above the average.

Sidney Barclay, Ope, Victoria: Barley is ripening rather unevenly. There is not menced cutting on July 30th, but some of it will not be fit for harvest for ten days yet. It looks very well indeed.

OATS.

At Varna prayers for Alexander wereoffered in the churches. The Te Deum was sung at the Russian consulate in honor of the Cxar. Only fifteen persons were present. Troops werestationed around the consulate to prevent disorder. At Sofia six Roumelian regiments were presented with new colors. The colors bore at the top the Bulgarian lion, on the borders the motto "God with us," and on the corners Alexander's monogram. After the presentation of the colors the troops were reviewed. They made a splendid appearance. The Novoe Vremya of St. Petersburg, says: A great mistake has been made if the double celebration of Alexander's and the Czar's fete day con tained an arriere pensee, or if the presentation of the colors to the Roumelian regiments was intended to flatter Alexander. Russia, it says, will vindicate her position precisely to the Sobranje at the decisive moment. At Varna prayers for Alexander were offer-Alexanders and the Czar's fete day contained an arriere pensee, or if the presentation of the celors to the Roumelian regiments was intended to flatter Alexander. Russia, it says, will vindicate her position precisely to the Sobranje at the decisive moment.

moment.

The following despatch has been sent to Prince Alexander, agned by two hundred deputies:—"We deeply grieve over your absence from from your beloved country. We earnestly desire to see amongst us our hero prince, the defender of our national liberty and independence." The officers of all the garrisons have telegraphed similar messages to the prince.

BRICKS! BRICKS! AN IMPORTANT FACT TO ALL INTENDING BUILDERS

MR. GEO. DRAKE having purchased that well-known farm from Mr. Jac. Walls is going into the manufacturing of BRICK

on an extensive scale. Mr. Drake formerly carried on the manufacturing of brick on these premises and the clay is noted for making bricks of a superior quality. Mr. Drake having been for years in the business thoroughly understands his Aoux and personally supervises it. He hopes by struct attention to his business and straightforward dealing to merit a share of public patrol age.

The yard is the one nearest to the vil am. GEO. DRAKE

PROPRIETOR Beavarton, March 24, 1986.-85-17.

DISTRICT CROP REPORTS.

FALL WHEAT.

spring. The grain was harvested in good condition.

John Christie, Reach, Ontario: Very little fall wheat raised here. What little there is is good in quality.

Joseph McGrath, Mara, Ontario: In new, fresh land fall wheat is a very good cropase goed as in former years. Other fields were ploughed up, and some that were left might as well have been ploughed. On the whole it will be about half a crop.

William Smith, East Whitby, Ontario: There was not a great deal of fall wheat sown, and that very much injured in the sping. What is left will yield well.

James Parr, Cartwright, Durham: Very little fall wheat sown, but the few pieces in this township will be a fair crop when compared with the spring wheat, and is harvested in good condition.

William J. Grandy, Manvers, Durham: Fall wheat is a good crop, very little affected by insects and none by rust. The crop is accured in good condition.

Robert Moment, Clarke, Durham: Very little fall wheat sown in this township, but that little was very good, as it came through the winter all right, and the season has been very favorable for maturing and harvesting.

James Brock, Cavan, Durham: The fall wheat in some places was badly killed in spring, but in others the crop is a fine one.

John Riddell, South Monaghan, Northumberland: Fall wheat is over an average crop—a large crop of straw. There was no rust or insect pest. Cutting commenced as

SPRING WHEAT.

what extent it will hurt it. The midge is taking considerable.

John Christie, Reach, Ontario: Spring wheat looks well; no damage done so far by weather, rust, etc.

R. S. Webster, Scott, Ontario: Present prospects are that we shall have a No. I sample, but light straw. Ears are now well filled, and I intend to start the resper in enring wheat on Monday, 2nd inst.

the wet spring.
R. Windatt, Darlington, Durham: Suffered by cold and drought, midge in a few
