The annual meeting of the Young Men's Liberal Club of Lindsay was held last evening..... We understand the club propose to meet Sir Richard Cartwright on his arrival in town Friday morning at nine o'cleck—on his way to Kirkfield—and present him with an address.

Sylvester Bros. Mfg. Co. of Lindsay made a large exhibit of their agricultural implements, which was very much admired by hundreds of interested farmers. On Tuesday morning the following telegram was received at Lindsay:

It is hardly necessary to state that a good deal of correspondence is crowded out this week. Also several fall show prize lists. Also a letter on the Warder's editorial. Also school reports. All to appear next week. At the Peterboro police courts North Mona; shan farmer named John Elliott was fined for assaulting his wife "because she would not feed the pige," as he said. And yet they have three daily and weekly newspapers at Peterboro disseminating "sweetness and light" on the surrounding territors.

The Peterboro Examiner says: "Mr. J. J. Hall, collector of inland revenue, who has had charge of the matter, on Saturday settled the last claim for refunds for the counties of Peterboro and Victoria, in respect of bogus licenses issued under the impotent Dominion license act. The total amount of refund paid in these counties was \$1,450. Thus falls the curtain on the last scene of Sir John's screaming farce, "I'll show that Little Tyrant."

We have to note that Mr. H. McKeuzie's of Port Perry—handsome young stallion "Hambletonian George" was not shown at the Central fair in competition, but only as an exhibitor of a capital and promising animal of one of the best strains of blood among the stars of the trotting ster. On the Lindsay Central show grounds were the large number of tweive "Abbottsford" colts. They took ten prizes. Four of them were in the same class where only two prizes could be given. This unsurpassed record shows the excellence of "Abbottsford" and that he is popular with stock-raisers. In Mr. McQuade's lot was a Polled-Angus grade calf, jet black, hornless and is every respect like a thoroughbred. This is the general result in grades.

—The sewer improvement scheme has taken see Mr. Logan mount again;
—Mr. A. F. Hoover of Peterboro, teacher of the pianoforte and harmony, has formed aclass at Lindsay for tuition and will visit Lindsay once during each week. Mr. Hoover comes highly recommended as a clever musician and pianist, having studied at the royal conservatory of music, Leipzig, Germany.

-The newer improvement scheme has taken on a new shape. The opinion of Mr. A. Mo-Dongall of Toronto having been taken, Mayor Denson reported at the council meeting Monday night. After considering the points of three different propositions submitted Mr. McDongail decided that laying one six or eight inch pipe along both sides of Hent-st, would be the most serviceable way of providing the sewerage accommodation asked for; and would entail less outlay in the matter of putting in house services,

ces,

On Wednesday morning about 1.30 some citizen whe was proviling about saw that the old engine house in the Midland railway yard, near the wharf, was on fire. The old place was a wooden structure and had for years sheltered locomotives of the Midland line, and as a consequence was pretty well olded up and made a favorable subject for the fire to operate os. An alarm was given and the brigade turned out and hauled the hand engine and one hose rest as far as Wellington-st., when it was apparent that the building could not be saved. A carload of ties piled near the fire was removed. The fire made a great blaze and lighted up the country for miles around.... Several causes is a storehouse adjoining were saved by the exertions of Messra. Rainsford, Desa, et al.

—A public meeting has been called by Mayor Deacon for Monday evening next at the council chamber, with the object—ne stated is the poeters—of the establishment in the said town of Lindeay of a griet and chopping mill. The meeting should be largely attended and the project encouraged and, made an addition to our jest of industries. There is a splendid field at Lindeay for set only one but many flour mills with such a county as Victoria to draw grain from. The project will ne doubt be outlined by the premotery and the fasts placed before the meeting. It seems odd, however, that the meeting should be called mainly at the expense of the town. If there is anything in the project to should be able to pay its own way from the start.

It has been the custom of the Lindsay curling club to hold the annual meeting during the first week in October of each year. In accordance with this venerable usage the annual meeting for the curling year, 1886-7, was held at the rink on Wednesday evening. There was a heap of inese to be transacted in addition to the formality of electing club officers for the year. A large number of members gathered at eight o'clock, Vice-President S. A. McMurtry taking the chair in the absence of the president, Mr. A. McDonell. Some correspondence was read relative to an offer made by a local man to lease from the club the rink to be used a part of the time each week for skating. The club decided that six days and nights each week did not afford any too much time as it was and for other reasons decided that the offer could not be entertained. Communications from the secretary of the Ontario branch were read and disposed of. Hight new members were proposed for election and all passed the critical ordest of the ballot triumphantly.....Club officers for the year were elected as follows: Patron, the governor-general; president, S. A. McMurty; vice-president, J. G. Edwards; chaplain, Rev. Dr. McTavish; secretary, F. H. Dobbin; treasurer, John D. Flavelle; committee of management, J. D. Flavelle; Jas. Keith, Wm. McBurney; committee on medals, J. G. Edwards; S. Hughes, J. W. Wallace. Mesers, J. D. Flavelle and Geo. Bertram were elected representative members at the Outario branch meetings... Then came the real work of the evening, the election of club skips. Last year all new and comparatively young men were elected with the idea that these young men would enthuse a good deal and create any amount of competition amongst rinks. The comparatively young men did not at all fill expectations. They proved recreant, neglectful and indolent, and the club this year, by a unanimous though unrecorded decision, placed the old and venerable skips of former years back in power. The following veterans were elected. Flavelle, McMurtry, Keith, McBurney, McMillan, sen., Wallace and Hughes. One or two others are held in reserve to take command should it be necessary to form more than eight rinks.... Mesers. Flavelle and McMurtry were elected foreign skips, or rather skips to direct the play in foreign matches.... It was decided to institute a sort of club insurance f mality of electing club officers for the year. A large number of members gathered at eight would involve enlarging the rink as it stood or buying a new lot and removing the building. The scheme was very favorably entertained, and a committee consisting of Mesers. McDon-ell, Sootheran and Wallace was appointed to

—It is expected that the lecture room of the Methodist church will be opened for Sabbath school service two weeks from Sunday next say Oct. 24th. It is, we believe, the intention of the church officials to make use of the lecture room for divine service until the church proper is finished.

-Rev. Mr. Pearson delivered at the opera-house on Sunday night an eloquent and impres-sive sermon, containing much advice to young men that was good and practical. The dis-course was an able effort, one of the ablest de-livered by Mr. Pearson since assuming the pas-torate of the Methodist church.

The Y. P. M. and L. A. was organized for the season last Friday evening. The following are the officers: President, Mr. R. J. The first entertainment of the Young Men's Christian Association, held on Tuesday evening, was very weil attended. At 7.45 the hall was crowded. The program consisted of soles by Misses Jackson, Neilie McCarty and Clara McCarty; a restiation by Miss Pearl Rose; a reading by Mr. Magnire; several orchestral selections; choruses by the association choir and addresses by Rev. Mr. Greener and Rev. Dr. McTavish, all of which were very interesting. The idea of the association in giving the entertainment was to get the public interested in the association as well as mentally and socially improving the members. Rev. Dr. McTavish briefly traced the association from its organization to the present and explained the working of the association and the importance of the work in which they were engaged. Then giving the subject a practical turn he brought our Landsay association had been working faithfully through the hot summer meaths, and had now rented recent, the hall in which the meeting was held, and two roome to the rear for parlors, and asked is the most carnest while yet foreible member the Christian ladies in the town to come to the assistance of the young men and furnish their rooms for them as they only knew how sumbers had previous to the meeting volunteered to assist, and when the Rev. Dr. McTavish saked if there were any ladies in the meeting of ladies—goung, middle-aged and ciderly—stories the held in the hall or Tuesday afternoon ment, lith inst, at four o'clock, for the purpose of deviating ways and means of furnishing the purious of the Young Ment Christian Association.

CASH TAKES THE PLACE OF CREDIT

There is no doubt but that the Credit system in business must go. It entails some expense to the merchant and cost to the customer that should not exist. Goods can be sold cheaper under the Cash system than if Credit is given, postponeing payments and disarranging the affairs of business.

With a view of introducing a new state of affairs—and for the better—we beg to inform our customers that on and after the
