The Canadian Post.

LINDSAY, FRIDAY, NOV. 12, 186. Circulation . THE MAIL AND THE PROHIBI-TION ARMOUR.

The Mail turns for a moment from its crusade against the Roman Catholics to polish up the Prohibition armour -- an avocation to which it recently announced its intention to devote a good deal of its energy. While its manager was helping Sir John to arrange a secret treaty in Toronto with the brewers' association its editor was declaring that the "whiskey power now " setting the law at defiance in many parts " of this province, must be crushed at any "cost, if life is to be worth living for hon-"est men." The whilom agent of the American whiskey ring and the defender of the anti-Neott act senate now maintains that "there exists in Canada a power "stronger than parliament"- [that is hard on John A. and the senate]; and that as it is "a power for evil, utterly and "completely, without one single or quali-"fying feature or function, [how John A. "will smile when he reads this] the out-" look is grave indeed." And we are told that " in Ontario the trade has the two "old parties at its mercy; each is afraid of "its vote, and both combine to let it "trample upon the law." The Mail presumes too much on the forgetfulness of the public. Still quite fresh within the memory of most newspaper readers is the record of the two parties. Few can have forgotten how Sir John Macdonald threw into a state of confusion and uncertainty the license system of this province by the foolish and uncalled for McCarthy act. The tory premier's plan was not merely to belittle the province and get a slap at Mowat. Few have forgotton the successful intriguing in the house and with the senate to undermine the Scott act, to impair its usefulness and to emasculate amendments providing needed improvements. If Mr. Blake or Mr. Mackenzie had been premier such amendments as experience had demonstrated to be necessary would have been promptly passed. Does any one for a moment question this statement! Can any one deny that the treachery of Sir John Macdonald in this matter stands out in bold relief, even in his Machiavellian career! Is there anything in his record of the past few years to warrant popular confidence in his sincerity in the future! Is not its honesty ques tionable! Who is there so simple as to be unable to see through its game. Temperance tories smile and "admit the corn." The liquor members of the party knowingly wink. They understand the situation. They would infinitely prefer in power John A. ple iged to his lips for prohibition, rather than Edward Blake, a reformed senate and a renovated house, without

ed by John A. The Mail's statement that "the trade" has "the two old parties at its mercy" will strike most intelligent people as decidedly cool and absurd. It is a half truth. It may describe the conservative party. It does not apply to the reform party. But the reform party have found by experience in several elections that conservative temperance men will not vote against their party and for reform temperance men, but that they will swallow their temperance principles and help to put in tory anti-Scott or anti-temperance candidates. So it is with the Mail to-day. It tenderly guards Sir John's interests while pretending to denounce both the "old parties." So it will be with the conservative temperance men in South Victoria and in any other riding. The tory bushel of his variey prove light he is docked for

a single pledge from Mr. Blake but his

bigh character. Some temperance people

are even now ready to be duped and fool-

temperance dodge is very simple and transparent. Sir John should really complete the edifice by promising prohibition! And some people would actually believe him! They would expect him to bring in an honest measure—we do not say a thorough one-but an honest and sincere one.

EDITORIAL NOTES.

The Bulgarian assembly has elected to the throne Prince Waldemar of Denmark. brother of the Empress of Russia. This will satisfy the Czar.

Premier Ross is to be thrown overboard because he was "only a country doctor," and an attempt is to be made with a "coalition" headed by Judge Angers.

Guelph Mercury: -"Nearly everybody now is now convinced that the tory attempt to split the liberal party on the religious cry will prove a lamentable failure."

L'Electeur of Quebec announces that it learns on reliable authority that the nominations of candidates for the Dominion elections will take place on or about the 14th of January next.

The reformers of West Peterboro have nominated Mr. G. A. Cox for the commons and Mr. J. R. Stratton of the Examiner for the Ontario assembly. They are capital candidates, and are confident of victory.

Rev. Mr. Milligan has replied at some ength and in a friendly spirit to Mr. Mowat's open letter. His principal point is a regret that separate schools were established, and considerable space is devoted to an argument against them.

A convention of Ontario Victoria conserratives will be held at Cannington on Thursday, Nov. 25. We understand Mr. Frank Madill is almost certain to be the candidate for the commons, while Dr. Gillespie of Cannington or Mr. McGillivray of l'xbridge is to be the standard-bearer for the local.

The Weekly Sentinel Review furnishes resh evidence of Woodstock's prosperity by an enlargement to sixty-four columns, rendering it one of the largest papers in the province. It was already of goodly dimensions; and it still maintains good quality as a standard in all departments of natter. We congratulate the proprietor.

A notable feature of Sir John's visit to Toronto last week was a secret conference with the brewer's association. No doubt they were preparing the hole in the prohibition plank. Mr. Bunting of the Mail had several confabs with the "old man," and received a new polish for the prohibition armour and some hints about the Mail's anti-Catholic crussle.

COMMERCIAL NEWS.

OFFICE OF THE GARDIAN PORT, LINDSAY, NOV. 11, 1886.

Business and Produce. Closing up of farm work is giving time to market grain, and in consequence the delivery of barley is very brisk. A large quantity is marketed each day, fully up to the largest deliveries made at any time since the sesson open ad. Prices continue firm. The grade of barley ffered is on the whole very good. Wheat is eginning to move; although the buyers do not see an immediate domand for wheat for export. Produce meets with ready sale, butter heing in demand. In reagrd to this farmers should see that the utmost care is exercised in packing, as the appearance of butter-for ex-port especially—if good, is largely in its favor. Prices for this article are firm with prospects that they will be no lower for some time for good

samples.
With regard to barley Mr. Fletcher is now buying at the storchouse (east ward), and is handling all he can find room for from day to day, in addition to cars loaded and sent out. It is quite plain that the new free warehouse is a necessity and will, when ready for use, give much needed accommodation. Prices for barley in our list below as per grade.

Toronto Street Market. About 200 bushels of wheat offered and sold at 75c to 78c for fall and spring, and 68c to 60c for goose. Barley quier, 2,000 bushels seiling at 15c to 62c. Oats steady, two loads seiling at 34c a

An Open Letter on the Barley Market. To W. Clurton, Esq.

DEAR SIR,-A review of the local markets in the l'eterboro Review, with your name attached, came to my notice a few days ago. There have been so many unreliable rumours affect in regard to prices paid in the different local marke's that to contradict them or take notice of them would be useless; but when one of the largest grain dealers in Canada, and one whom everybody respects, over his own signature makes public certain attachments in connection with this or other markets, it is right that it

with this or other markets, it is right that it should be noticed.

Although not directly saying so, you imply that No. I harley is worth more than 55 cents at Paterboro. Would you please say how much profit you would nake (allowing 2c, for handling the grain here) in any market in Canada or the United States?

You say the freight to Toronto is 3c.; the freight to Toronto is 3c.; the freight to Toronto is 3c.; per bushel.

You say Omemee took in by one buyer in one day 5,000 bush. Never believe your correspond-

day 5.000 bush. Never believe, our correspondent again. The facts are, one man took in 3,600 bush,, and the other hardly any as he consider-

bush, and the other hardly any as he considered prices foo high.

You make mention of three good buyers at Millbrook. Very well, they are paying 55c, for No. 1 there—same as l'eterboro. Why could beterboro pay more than any other town, or how could they afford to do so! You must admit that the Peterboro buyers are as shrewd unsiness men as you can meet any place, and would not let barley go from them if they could m-ke any money out of it.

You mention that Lindsay has no competition in buying. There is more competition in grain in the town of Lindsay than any place outside of Toronto and Peterboro and fully up to those points.

of Toronto and Peterboro and fully up to those points.

In the last issue of THE LINDSAY POST their correspondent from Peterboro quoted the price of barley at 57 cents for the best, but failed to mention that only one load brought that price, and that 55 cents was the steady price for No. 1.

In your feport you state that No. 1 is worth 63 cents in Toronto. You know that the price for No. 1 is 61 cents; there may be 63 cents paid on the street for a few choice loads, but you and I know that if we had to go to Toronto to sell barley, we would not go to the street buyers to sell it.

I think you will agree with me that every grain buyer is anxious to make money, and that

I think you will agree with me that every grain buyer is anxious to make money, and that they will pay as much as they can afford, and that this year is no exception to the rule. You also know that in a year of large crops of barley the American maister makes the price, and you are fully aware of the large crop of that staple this year.—Yours truly,

ALEX. McDonnell,

[To the Editor of THE CANADIAN POST.]

SIR,-Can you spare me a short space in your paper to say a few words on this question of the barley market, now of great interest to the

As beriey is now bought the farmer must comply with certain requirements when selling

his grain. He must give:

1. The measured bushel.

2. The bushel by weight.

3. The color—to suit.

Now what are the factal Should a m

weight. Should the measured bushel give two or three pounds over weight he gots nothing for it, as is the ones this season. Even if measure and weight are compiled with then he has to esticy the opinion of the buyer as to color which may—and often does—kill all the virtues of weight and measure.

A Successful Paper. The Montreal Star, which attained in 1885 an average circulation of 25,000 for its daily issue and 120,000 for its weekly (The Family Herald and 120,000 for its weekly (The Family Herald and Weekly Star) seems to have firmly established itself as one of the leading papers of Canada. The Weekly-subscription \$1 per year—has probably the greatest circulation of any paper of the kind on the continent, and the attention it gives to all matters of interest to the family as well as the amount of carefully assorted news and reading matter it contains makes it an invaluable supplement to the local papers in country districts throughout the whole Dominion.—18-1.

The Way We Are Paid.

Last week a man being asked for the 'amount of an account said he would pay us every cent of an account said he would pay us every cent he owed if he lived until Saturday night. We presume the man died. Another said he would pay us in a day or two as sure as he was born. Doubt is cast on the man's birth. Another said he would pay as sure as shooting. We conclude that shooting is decidedly uncertain. Another hoped he would go to the devil if he did not pay us within three weeks. We trust he din not hope in vain. Still another told us two menths ago that he would pay us as soon as he got some money. We are led to believe that the man has not had a cent since.—|Port Hope Times ... These remarks can be applied to Linday as well as Port Hope.

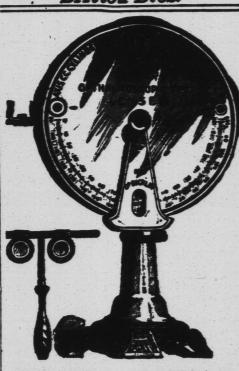

and executioner of all pain, Pomeroy's Petroline Plaster, the giant of its line; it never fails. Sold by druggists and A. Higinbotham, Lindsay.—181.
