LINDSAY, FRIDAY, DRC. 10 1886. MR. GEO. BICK FOR EAST VIC-TORIA.

The nomination of Mr. Geo. Bick for East Victoria will command hearty and general support, and his election by a fair majority may be looked for with confidence if proper exertion is made. Mr. Bick is intimately acquainted with the can do more than any otherman to promote its interests. He has formany years had occasion to traverse the back country and knows just what it wants to develope its resources and facilitate the hard work of the settlers. He will be able to press upon the government the wisdom of a liberal policy, and to support his advice and recommendations with an array of facts drawn from personal knowledge and experience that cannot fail to accomplish a great deal. The people in the north country have an opportunity to elect one of themselves; and we learn they will gladly avail themselves of the opportunity. Mr. Bick as reeve of Bobcaygeon and for many years reeve of Verulam has had long and valued experience in municipal matters. He has discharged public duties in a thoroughly satisfactory manner; and has always commanded the respect of all classes. Personally George Bick is a popular man; and he has gained an enduring popularity by no artifices. He is not a popularityhunter. Political preferment could have been his fortune ere this; but he never pushed himself forward. He now accepts to visit. His visit will have a beneficial the nomination in the belief that he can he of great use to the constituency; and we feel confident that George Bick as the ministerial standard-bearer will go for-

To the very able, conclusive and satisfactory letters of Principal Caven and the Rev. This letter is printed in other columns. is intended. Mr. Kerr, who is a tory lawyer, and a university man with a brilliant record, explains the origin and growth of the compilation, and fully disposes of the question of submitting the selections first to the approval of Archbishop Lynch. There is really nothing left for the tory opposition in the mind of any candid man after reading Mr. Kerr's letter.

Rev. Dr. Cochrane, the well-known Prebyterian minister of Brantford, bears testimony in a long letter to the satisfactory character of the selections. Rev. Dr Cochrane traces from official minutes the overtures and memorials of presbyteries in furthering the reading of the bible in schools, culminating in the adoption by 14-17-cow. the synod of Hamilton and London in 1886 of a report of special committee expressing gratification at the action of the min-

FOUR THARS AGO AND NOW.

A remarkable contrast to the anti-Cath olle everade now carried on by many conservative speakers and organs is furnished by the tacties of the same party in the local elections four years ago when they tried by every means in their power to scure the "Catholis vote" they are new denouncing. A special appeal was made to the Catholic electors in a pamphlet pre-pared and printed for disculation amongst them; and the fellowing peculiar circular

The hypocrisy of the present crusade fully demonstrated, Mr. Meredith has found that he is losing ground by the unpatriotic and uncharitable course adopted in this campaign, and has at Cobourg denounced "the man or party in a country "like this, where we have people of different races and religions who would " raise a cry of that kind" as "an enemy not only to his country but to his God. repudiation comes too late in the day, and does not tally with several planks in his platform or address to the electors. THE TORY CANDIDATE FOR WEST VICTORIA.

The tory convention Wednesday was poorly attended gathering, and paid Mr. ernment in all parts of the government do John Cruess of Mariposa the very doubtful compliment of selecting him as a candidate for defeat. After the unsuccessful attempts to get out a Mariposa reformer as an "independent" candidate it was felt that a Mariposa conservative should have the questionable honor, and so Mr. McEachren and their colleagues, and should call scripture lessons or readings selected for and Mr. Stabback of Eldon were passed the schools; and a number of the tory op- over, while Dr. DeGrassi was tooshrewd to play a loosing game. Mr. Cruese is a worthy and respected farmer, and deserves something better than to lead a foriorn hope. His Lindsay supporters know perfectly well that he cannot or will not be elected. By taking up Mr. Cruees the Lindasy tories expect to detach the Quakers from the reform party for the Dominion elections, but our Quaker friends wil see through the political design, and that no personal benefit or honor to Mr. Cruesa

WHAT TRUE MERIT WILL DO.

The unprecedented sale of Boschee's German Syrup within a few years, has astonished the world. It is without doubt actonished the world. It is without doubt the safest and best remedy ever discovered for the speedy and effectual cure of Coughs, Colds, and the severest lung troubles. It acts on an entirely different principle from the usual prescriptions given by physicians, as it does not dry up a cough and leave the disease still in the system, but on the contrary removes the cause of the trouble, heals the parts affected and leaves them in a purely healthy condition. A bottle kept in the house for use when the diseases make their appearance, will save doctor's bills and a long spell of serious illness. A trial will convince you of these facts. It is positively sold by all druggists and general dealers in the land. Price 75 cts., large bottles.—

Montreal Herald; "The letterfrom Rev. Dr. Dewart of Toronto, (printed in THE Posr fast week), shatters the filmsy and disreputable structure which the Mail and Sir John's other "lieutenant" had saised and thoroughly exposes one of the most dishonest and reckless attempts ever made to arouse religious strife and destroy the peace of a thousand communities for the sole object of promoting political ends.

The Montreal Witness says: "The most effective weapon yet invented is the mas ket Mr. Laurier would have carried on Sas katshewan's banks. It has armed the whole conservative army. If anyone makes so bold as to suggest that the present government is a little corrupt, dis honest or stupid he immediately finds this great blunderbuss going off full in his face. It is a repeater, too. One particularly loyal western paper has fired it off daily for some months past without reloading."

Rev. Dr. Hunter, a prominent Metho dist, in his thanksgiving address in Hamil ton, remarked that Protestants, being so largely in the majority in Ontario, can afford to be generous to the Catholic minority. This, remarks an exchange, from a leading divine of the denomination the Mail has been trying to fire with religious bigotry, reflects about the feeling of the people on this matter. The Protestants of Ontario are numerous enough to guard their rights and interests and while doing this are too liberal to oppress or be un generous to the religious minority.

We commend the attention of our readers to the letter addressed to the Montreal Witness by an indignant subscriber to the Presbyterian Review, regarding the latter's course on the Massie question. A notable point brought out in the letter is the fact that the tory agitation started against Mr. Massie some years ago chargwith indignity and with scorn," but his Catholics; now the charge is that the Ro-

The East Durham tories in convention at Millbrook on Monday of last week nominated Mr. H. A. Ward again for the commons, but when it came to selecting a candidate for the local there was a very interesting time lasting up to nine at night when an adjournment was considered advisable for a few days. Mr. T. B. Collins and Mr. Howden were the rival candidates, the former leading.....The convention met again on Tuesday and the dead-lock between Collins and Howden was continued. Finally Mr. T. Dixon Craig of Port Hope was taken up as compromise candidate.

The Globe of Monday says: "Brother Sam Hughes intimates, in a column of wind and water, that he is loaded and that, if the Globe repeats its statement, the truth of which he admits, that he sought an appointment from Hon. G. W Ross, he will go off, and the slaughter among liberals will be terrible. Will Brother Sam consider this a match applied to his store of gunpowder and will he be assured that liberals do not fear the threatened discharge, and that he is much more likely to burst his bar'l than hit the game he is seeking to bring down."

The Globe has compiled a series of sel ections from a celebrated but almost forgotten pro-popery pamphlet issued by the conservatives in the local elections four years ago. The selections betray a most amazing "bowing down to Rome" on the part of Mr. Meredith, the Mail forth long and vigorous letters from Rev. Dr. Laing, Rev. Mr. Langtry, and all other ministers who are now vociferously denouncing the "Ross-Lynch" bible. But they are as dumb as oysters. Their silence cannot only be seen; it is relt. Have they voices to raise against Mr. Mowat; and not a word to say against Mr. Mere-

The liberal organ at Quebec has placed the tories in the pillory again. A few weeks ago L'Electeur published an editorial on the duties of the lieutenant governor at the present crisis. The tory organs went after L'Electeur in full cry, characterizing its article as revolutionary and se- Cattle Chains, ditious. It turns out that L'Electeur's editorial was copied word for word from Hansard report of a speech made by Sir Hector Langevin on April 12, 1878, in the house of commons during the debate on the Letellier affair. L'Electeur simply on the Letellier anair. If Electeur simply applied Sir Hector's argument respecting the duties of the lieutenant-governor to Mr. Masson's case. Everybody at the ancient capital has been laughing at the ridiculous predicament in which the tory organs find themselves.
