LINDSAY, FRIDAY, APRIL 15, 1887. THE COMING OF SPRING.

Dimly seen are the distant hill tops, With an azure half crowned, Not a breeze stirred the naked branches of the silent trees around.

The day is dark and dreary, No feathered songsters sing, But the air has a mellow softness That tells of the coming spring.

Bright flowers and balmy air; It tells of grassy hillsides And valleys green and fair. to tolls of whem May sunshine

It tells of the birds and roses,

Blue lakes and rivers clear; th' winter seems less dreary When the joyous spring is near Even so in life's dark winter.

If we have fixed our eye tin that land of glorious beauty Reyond the starry sky.

We would also advise the purchase of a huge iron chest and place it safely in some part of the church and not dismiss the service until the collection is eafely deposited in the same. And then at each monthly meeting in the presence of the congregation unlock the chest and count the cash, pay it to its rightful owner and save further charges of corrupt practices; and do not let the world know they have no confidence in one another and save those public exposures to a sinful world. Trusting we shall soon see a subscription list circulated for the purpose of purchasing a "huge chest," peace restored and everything blooming again. - I remain, yours truly.

on the Sproule Farm, in the 3rd con. Eldon, PHILIP SPROULE, proprietor. The Mensury Barley is bound to replace the old 6 rowed weak kneed variety, which is already run out. Mensury barley originated by crossing the common six rowed on the two rowed Chevalier, and produce a six rowed variety with large heads and stiff straw. It is later in maturing than the ordinary barley and yields from 50 to 75 bushels per acre and has superior malting qualities. The White Egyptian Oats are a side out with heavy and stiff straw, not liable to lodge or yet to shell in harvesting, thus producing an abundance of straw and first-class grain, weighing from 14 to 46 lbs to the measured bushel and ripen about 3 weeks earlier than the other varieties. Also about 200 bushels of Black Tartar Oats, grown from imported seed last year. Our farm is clean and free from all foul seeds. Some idea of the demand for the SINGER may be formed from the fact that it takes 10,000 operatives to make the Singer. It takes about 30,000 persons to sell and deliver them; besides 10,000 horses, 8,000 wagons, one steamer and five locomotives. It takes six large factories to supply the demand: -1, Elizabeth, N. J., 3,000 operatives; 2, Kilbowie-on-the-Clyde, near G asgow, Scotland, 3,500 operatives; 3, South Bend, Ind.; 4, Cairo, Ill.; 5, Montreal; 6, Vienna, for the trade in Germany Eastern Europe and Asia. J. RIGGS, Agent. This book is thoroughly practical. Gives useful information to those enjoying good sight and wishing to retain it.

All agents use Lazarus' improved method of fitting the Best Spectacles in the World.

They never tire the eye and last many vears without change. For sale by J. RIGGS, Jewelry and Fancy Store, Kent-st., Lindsay. Manufactured by FRANK LAZARUS (late of Lazarus & Morris, Hartford, Conn.) 28 Maryland Road, Harrew Road, London, England.
