

R. S. PORTER. SPRING 1887. WALL PAPER. 24 SALES. English and American WALL PAPER. R. S. PORTER, Stationer and Bookbinder, Lindsay.

Banking and Exchange. HILLAK & ABREY, REAL ESTATE AND INSURANCE AGENTS, CONVEYANCERS.

COX & CO., STOCK BROKERS, TORONTO, 71, Western Toronto Stock Exchange.

Lindsay Branch. J. S. KNOWLSON, Manager. Toronto, Ont. 11, 12th St.

The Canadian Post. LINDSAY, FRIDAY, MAY 20, 1887.

AN INTERESTING WHEAT EXPERIMENT. Mr. Barron, M.P., has forwarded to Mr. W. K. Pitt, Fenelon Park, and to the post-masters at Woodville, Kitchener, Dalrymple, Milton, Cambridge, Cobourg and other points in the riding, some bags of spring wheat from the Central Experimental Farm.

THE NEW TARIFF. While there are numerous minor changes in Sir Charles Tupper's new tariff announced Thursday night the most important and notable are the imposition of heavy iron duties and the abolition of the tax on anthracite coal.

EDITORIAL NOTES. Poor Old Swipes! St. Catherine's hopes to make up for the re-election of Rykert by erecting free swimming baths at a cost of \$2,000.

Mr. F. D. Moore has got the reward of years of zealous and not unskillful service by being appointed revising officer for North Victoria.

Col. Deacon's resignation of the first deputy-revising officer along and useful municipal career in which every position from councillor to the mayor's chair has been filled.

Mr. J. R. Lithgow of Halifax regrets the removal of the duty on anthracite coal and suggests that the duty on bituminous coal be now increased from sixty to seventy-five cents.

We printed last week Mr. Barron's incisive speech on the (Queen's) county outrage, where he cleverly exposed Mr. Landry's misleading quotations from the Statute.

Senator J. C. Abbott was sworn in as privy councillor last Sunday. (Where was the ever-zealous Toronto ministerial association?) He takes no portfolio for the present, but will lead in the upper house.

The Washington correspondent of the Boston Herald says President Cleveland has no present intention of executing the Canadian non-intercourse law.

They will certainly examine the Fenelon Review bumper. It has a "big head." It was Charles Lamb who proposed a similar test on the question of the village postmaster who grows fat.

Will you buy? Will you order? Will you give us your trade? DUNDAS and Flavelle Bros.

Importers and Dealers in Dry Goods, Carpets, &c. Lindsay, May 18, 1887.

SIR CHARLES TUPPER'S TWO VIEWS. Sir Charles Tupper made an able budget speech, but he has been subjected to a good deal of ridicule for an alleged inconsistency. In alluding to the threat of "non-intercourse" made by the United States in connection with the Fenelon dispute, he "had no hesitation" in saying that "the interests of that great country and the interests of Canada alike are bound up in close commercial relations and in extended reciprocal relations."

Canada Presbyterian: "A bill has been introduced for the repeal of the Scott act. The mover and seconder represent ridings of counties that have adopted the act. There is just one thing about this attack that we admire, and that one thing is the straightforward, above-board way in which it is made."

Why not invite the Uniridge Organ to visit Lindsay? They are talking of going to Peterboro and have visited that place. What they want is stated in a paragraph from the Examiner elsewhere printed.

A great public meeting in the park, Toronto, Saturday afternoon, attended by from seven to fifteen thousand people reprobated the action of Wm. O'Brien in visiting this country to excite feeling against Lord Lansdowne and expressed its confidence in the governor-general.

Hamilton Times: "Mr. King, who was elected for Queens, but kept out of the seat by the deputy returning officer, will not protest. He cannot afford it. When Jim Stephens counted J. J. Hawkins in for Botwell, it cost Hon. David Mills nearly \$1,000 to put the usurper out, and Mr. King cannot afford to spend so much."

On several occasions during the past few years Dr. "Swiper" desires to vent his spleen through the columns of THE POST and sent long letters vilifying conservatives as well as reformers for some real or fancied personal slight or disappointments.

The generally well-informed London correspondent of the Montreal Star cables: "I got very curious accounts from a well-informed quarter of the state of affairs in Germany. My informant says the party which must be described as dominant in Germany is bent on provoking France into fighting."

Canada is the way proposed by the Review it would be most desirable and would give the most satisfactory results in all respects. New York Tribune: J. J. Ritchie, a big framed and heavy western capitalist, who has been operating in Canada railroads and properties, gives out a "potter" on copper. "Canada can control the copper market of the world," he says. "There are copper fields on the line of the Canadian Pacific road which contain twenty times as much copper as the Colorado and Huelva mines could show up in their richest days. The ore is right on the surface. It costs everything."

The Montreal Star says: "The first steamer of the Canadian Pacific line on the Pacific left Hong Kong on the 17th, and the passenger accommodation has all been taken; in fact the demand was greater than the supply. The prospects of return travel from this side are excellent. The ships are in perfect order, having been refitted in every way, and being provided with new triple expansion engines before leaving Liverpool."

Keep off the Sun! OR, RATHER, KEEP THE SUN OFF! It is a case of Protection vs. Free Trade. Free trade in sun heat is desirable—with a judicious measure of protection available. We propose to furnish this measure of protection and offer this week new lines of Parasols and Sun Shades. Ladies should see these goods. They are all that is needed. They combine every desirable quality. Handsome? Well, yes. Neat? They may be made neater but it is hardly possible. Strong? Certainly, they can be relied on to stand the heaviest wind pressure of a blustering day. Prices? Lower than ever! and when the prices stand as before the goods are better. We have these Parasols in all colors. The dainty lace covered sunshade—the solid silk Umbrella Parasol that affords the greatest amount of service combined with good appearance. Parasols for holidaying; Parasols for promenade; Parasols for summer outings; Parasols of nobby, stylish shape that confer a grace to the wearer that becomes positively captivating. No lady's costume is complete wanting a Parasol to match. With us to do this is an easy matter, for you've the stock to select from that gives you the utmost latitude in choice. Saturday will be with us a special Parasol day. If you have not already bought come and buy? Do you know how trim and knobby you would look in a Halifax Tweed suit. If you don't you have something to learn. The expense shall not stand in the way. We'll see to that. If you do not wish to order your suit, take one ready-made. We can't do it with poor things. The best for the least money, that is the only way. We see that Cloth, making, and money are right. No slight work or careless work anywhere. From us you get the elements of perfect clothing. Will you have them? Fancy a suit for \$6.00.—Coat Vest and Trousers for \$6.00.—No better wearing, no better fitting, no better selling goods in the market. Men are picking these up quickly—and well they may. You can afford to buy and keep one for your picnic jaunts down the river, holidays and other outings. A Halifax Tweed suit for \$6. Don't laugh, don't disbelieve. Come and see? Come and feel? Come and buy? Will you buy? Will you order? Will you give us your trade? DUNDAS and Flavelle Bros.

M. W. KENNEDY & CO'Y. READ AND NOTE CONTENTS. After a more than successful spring trade we are now fully prepared to commence the summer campaign. We have made special efforts to secure new and attractive lines suitable for the season, and call the particular attention of the LADIES to our selections of White and Fancy Dress Goods, Lace Flouncings, Gloves, Hosiery, Corsets, Parasols and Embroideries. Of Satens, Prints and Ginghams we have a most complete and satisfying variety. GENTLEMEN will find us "up to the mark" in everything pertaining to both TAILORING and GENTS' FURNISHINGS, including a fine lot of FELT HATS. Although we have done an immense Tailoring trade our stock of CLOTHS and TWEEDS is still complete, as it has been kept thoroughly assorted by repeat orders. Remember, gentlemen, we make Tailoring a specialty, and all we ask is a trial Order, and we guarantee the result will be both pleasant and profitable to you. M. W. KENNEDY & CO. Lindsay, April 5, 1887.—A. Campbell.

Goods we have got. THIS WEEK'S IMPORTATIONS INCLUDE: Two Cars of Fine Salt, One car Sugar, One Car Land Salt, (LAST OF THE SEASON,) One Car Land Plaster, One Car American Coal Oil, One Car assorted Groceries. LARGE ARRIVALS OF NEW CROCKERY. We are supplying the public at LOWER PRICES THAN EVER. In defiance of the rise of certain lines in the Wholesale Markets, we are retailing at old prices and giving extraordinary value. HOUSEHOLDERS AND BUYERS IN QUANTITIES CAN DEAL TO GREAT ADVANTAGE WITH US. AND ARE CERTAIN TO SAVE MONEY. Important to Butter-Makers. We have just received a large invoice of ASHTON'S FACTORY FILLED SALT, the best Salt for dairy purposes manufactured. Good Butter can be produced under imperfect methods by using good salt, but under no circumstances will poor salt give anything but poor butter. When we consider the small additional expense that is incurred by using the best salt, and on the other hand the risk run by using poor salt, it is simply suicidal to use any other than the best. It is proven that the use of Ashton's besides enhancing the value of the butter, is also a source of profit in dollars and cents. The gain in the weight of the product arising from the use of Ashton's salt has been shown by accurate tests to be in some cases as high as four per cent.; taking it, however, at only one per cent., it is easy to figure out the gain in money. A sack of Ashton's containing 224 lbs., using an ounce to the pound of butter, will salt say 5,000 lbs. of butter, one per cent. of which (30 lbs.) at 25c. per lb. would be worth \$7.50, and this is the bonus which you receive for using a salt that enhances the value of your product anywhere from two to ten cents per pound! "Why, there's millions in it!" WE HAVE THIS SALT IN 56 LB. SACKS, and strongly recommend its use. A. CAMPBELL. Lindsay, May 10th, 1887.—A.

SEEDS! SEEDS! AT HOGG BROS., OAKWOOD. HORSE TOOTH CORN. TIMOTHY. Best Varieties of HUNGARIAN. MILLET. TARES. SOWING RAPE. Have still on hand some Pure Alsike and Red Clover. BARGAINS. BARGAINS. 20 LBS. GOOD RAISINS FOR \$1.00. 4 BOXES MATCHES FOR 25 cts. 4 LBS. GOOD JAPAN TEA FOR \$1.00. LAND SALT AND LAND PLASTER on hand at our store in Oakwood. Special quotations for large lots, either delivered at Mariposa Station or from stock on hand. POTATOES WANTED. Highest cash price paid for any quantity of Potatoes.
