The Canadian Lost.

LINDSAY, FRIDAY, JUNE 10, 1887. COMMERCIAL NEWS.

OFFICE OF THE CANADIAN POST,) LINDSAY, June 10, 1887. Business and Produce. There has been a good delivery of wheat

made during the week, prices remaining firm, with a good demand. Barley is very quiet. Produce is coming in in fair quantities and brings arrent prices. Nom an Ioronto is reported at 20c., 21c. and

. alidown, Me ; extra at 28c. While on both sides word is passed round that

the fields never looked in better order, and that d bountifullarvest given reasonably favor toble weather is expected, grain dealers at Landsay are making preparations for an unctive trade when the selling season the county under the provisions of traciway bond by the authorities of the donne tailway division, and which it was twood never be occupied, has had all its mable space taken up. Circumstances under which the warehouse has been huilt have not given as yet the county council control over two of the compartments as the warehouse in its present condition has not been finally accepted as satisfactory to the railway committee of the conneil. Messrs. Dundas & Flavelle Bros., J. C. Leary, R. Touchburn and A. McDonneil have secured the use of the warehouse, and will, no decent shuying in such close juxtaposition no decreasing in such close juxtaposition—institute a lively competition in the market. Messes Hurley & Brady will enter the market as boyers of grain, and have decided to build for their own use a building of 50,000 bushels capacity. The town council have been asked to least a site for the purpose, which the council will no doubt readily do at the advice of the council tree to whom the request was referred. Thenex warehouse will be conveniently located at the council Peckst and Victoria av., a switch being put in to serve shipping purposes. We put in to serve shipping purposes. We that other competitors for the grain trade to the first inter on, and taken altoritiere should and no doubt will be at many a steady demand for grain, and for such fair competition as will ensure the best prices being paid for a good article. Some com-ment has been made amongst farmers regardng carries is grain market in the past, and for estaud be any dissatisfaction in the function now that we have an active and zealous nearly of trade the question could properly come

Monetary Times in its review of the Torol market says -" About the only feathe local market of the advent of the new clip for which, according to latest advices, country dealers are paying 19 and 20 cents each. For round lots 21 and 21; cents is the highest reported flaure. There is a moderate amount of pulled wood selling to the factories at generally unchanged quotations. American manufacturanchanged quotations. American manufacturers are by ying, as requirements necessitate, such tanadian wool as are used is carpets, alpacas, etc., etc. Last year, the peculiar loop goods, for pickets and dresses, which fashion dictated should be worn to such an extent, created a brisk enquiry in the United States for certain grades of our wool, the texture of which was found to be peculiarly suited to the manufacture of this description of cloth. It was only for a season, however, a freak of fashion, and a leading Toranto dealer, who has recently refor a season, however; a freak of fashion, and a leading Toronto dealer. Who has recently returned from the principal wool consuming centres of the United States, finds that, as yet, no new stuffs are being produced which make extra demands upon our supplies, and manufacturers there are at present only buying, in a hand to mouth way, what they need for use in the staple articles first mentioned. Holders here are, therefore, inclined to await developments and do not appear anxious to make conments and do not appear anxious to make contracts with country dealers at existing prices." The Live Stock Markets.

At Montreal on Monday last choice beeves were not so plentiful as on Thursday and dealized better prices than then. Best cattle sold up to 1'c with pretty good ones at from ic to lic and common about 3 c per 1b. Sheep plentiful from ... 3 to \$5.50. Spring lambs scarce at from \$2.50 to \$4. Lave hogs have not been so plentiful for some days past and prices had an upward tendency. The horse trade is brisk owing to shipmant to the United States.

During the past week there were sent across the lines 135 horses, costing \$15,183.

Although there has been no additional im provement in the British cattle markets during the week the advance has been well sustained and a steady trade has been done and a satisfactory clearance effected. The Montreal Gazette's cables of Monday report a steady feeling throughout, ut fail to point out much prospect for immediate further improvement.

The cattle exports from Montreal this season to date are the largest on record. Caution is advised and a lower range of prices is predict-

At Poston p ices have been marked up this week through a greater part of the list, and s higher plane Holders have shown more firm

All medium wools are particularly strong; some descriptions from the Ohio valley have gained as much as 3c per lb. Very little foreign woo is now in the market. Current quotations are as follows in comparison with last year:

The sales of the week at Boston are reported at 1,994,000 pounds, as compared with, 2,311,000 pounds last week and 2,435,000 in the corresponding week a year ago.

Lindsay Market Prices. [CORRECTED WEEKLY.]

COMMUNICATIONS.

The Warder and the Medical Treatment in the Late Drewning Case. [To the Editor of The Post.]

SIR. -As publication of the following letter has been refused by the editor of the Warder will you be good enough to give it a place in your widely circulated and fair-dealing journal. in order that the public may see how unfair, untruthful and misleading were the Warder's uncalled for comments on this case last week.

W. L. HERRIMAN.

[To the Editor of the Warder.] Sir,-In your short notice last week of the sad case of drowning of the young man George Letts, near the Riverside cemetery, you have been pleased to make a special effort to utilize the unfortunate occurrence improperly. You make very scrious reflections on the efforts of the persons who endeavored to resuscitate the drowned young man. You say improper means were used, and that "the plans recommended by all modern authorities were not followed out." You do not mention my name, yet hurdereds well know that Dr. DeGrassi and I are the persons thrust at by your venomous and gall-dipped pen. I therefore feel it my duty to contradict your assertions. I am prepared to establish the fact that improper means were not used, and to show that I assiduously and literally followed the very excellent instructions lately issued by the Ontario board of health not only were their directions followed, but also "plans recommended" by other 'modern authorities." As soon as I saw that by the heroic and daring diving of those brave young men. Raymond and Sadler, the body was brought to the surface, I sent in haste for Dr. DeGrassi. He arrived while I was still persevering with my efforts, and he not only assisted in carrying out what I was doing, but also made use of plans recommended by other "modern authorities." We were materially aided by several young men who worked brave-indeed by under our instructions. We continued our Letts, near the Riverside cemetery, you have aided by several young men who worked bravely under our instructions. We continued our
efforts long after our hopes ceased, until after
an hour or more we concluded in his case furthereffort was needless.
You, sir, for a man who attempts to dictate

in such matters, have displayed an unusual amount of ignorance in the premises, and whether your object is honest or mischievous you have certainly been led into a grave error. From your few words I learned that your knowledge of the proper instructions in such cases was very limited and that you sadly lacked that information that all persons should have. If concluded if a man who assumes to have. I concluded if a man who assumes to know so much and really has such improper and limited knowledge of the subject that pershaps there may be more among the general public who might not be well posted in this matter, especially those who get no better teaching than they obtain through the Warder.

I have had placed in the post-office a copy of the rules and instructions provided by and lately issued by the Ontario board of health, to be followed in such cases, that all may read them. Any person who witnessed what I did and those who assisted me cannot fail to see how very closely I followed them out. I would advise you to read them, and you will there learn that instruction is given to lay the body on a flat surface, inclining from the feet towards the head—"head up," which you imply is so very improper. Who is the better authority, the editor of the Warder or the Ontario board of health.

health.

If it should appear desirable to more particularly refer to and explain what was done I am ready and willing to do so. In the meantime I remain, sir, yours truly.

W. I. HERRIMAN.

TOWN JOTTINGS.

A. B. TERRY. We Want Eggs! We Want Eggs! We Want Eggs!

We are paying this week 12c. per dozen cash for eggs. SPRATT & KILLEN,

The County Railway Committee. The railway committee of the county council met at the court house on Saturday morning, June 1th. There was present Col. Deacon,

June ith. There was present Col. Deacon, chairman, and Messrs. Broad, Cameron, Daniel, Staback, Swanton, Walker and Dr. Cornwail. Col. Deacon tendered his resignation of the position of chairman, owing to the fact that he had resigned the deputy-reversipp of the town of Lindsay. The committee decided not to accept the chairman's resignation.

Mr. Hudspeth, county solicitor, read to the committee a letter written by him to Mr. Macklin, engineer of the Midland division, G. T. R., stating certain terms on which the new grain was house at Lindsay would be accepted.

And discussion it was moved by Mr. Swanton, bonded by Mr. Walker, that this committee surnorize the county solicitor to prepare an agreement incorporating the terms of a certain resolution passed on 5th May last as to the acceptance of the free grain warehouse in the town of Lindsay erected on the link between the Whitby. Port Perry and Lindsay railway and the old Midland line in lieu of the warehouse erected in 1887, which was burned down, and have the terms of said resolution drawn up as a new agreement and laid before the Grand Trunk authorities for acceptance, in order that it may be submitted for approval of the county council at the June session; and that the solicitor have power to make such siterations in the terms of the solicitor have power to make such siterations in the terms of the county council at the June session; and that the solicitor have power to make such siterations in the terms of the solicitor have power to make such siterations in the terms of the county council at the June session; and that the solicitor have power to make such siterations in the terms of the solicitor have power to make such siterations in the terms of the county council at the June session; and the promotion of a healthy competition in the produce market at Lindsay.

The resolution was carried unmainted by, after which the committee adjourned.
[Following is—in effect—the terms of resolution referred to above, and which was passed at meeting of the railway committee held on May

ices have been marked up this greater part of the list, and a mainess has been done on the Holders have shown more firm in vident that their present proceded to their demander of the term for the market and their greater and advance in a caceded to their demander of the term for the market and in the way of the warehouse, and to ensure the railway committee of at least two of the compartments in the warehouse, leaving the company to deal with the other two compartments as they may see ft.]

-Material is being laid down at the Midland tation at Peterboro to replace the wooden turntable in the yard with a new iron and stone

A New Barrack. The Peterboro Review says: "The salvation army have purchased from Mr. Geo. Kingdo a lot on Simcoe st., south side, near Ayimer-st. upon which they will erect the barrack. The price paid was \$1,600. The barrack's builder for the army will be here in a few days and prepare plans for the new place of meeting. It is understood that the new building will be of brick, 90 by 50 feet, and will be capable of seating one thousand people."

A Challenge To the Port Perry Band. To the Port Perry Brass Band. We hereby challenge you to play in compe tion, on a date to be mutually agreed on, for judge—who shall not be Mr. Claus of Boston—the two judges to select a third. Decision of two judges shall be final. Programe:—Quick-step, selection and sett of waltzes,

T. JOHNSTON,
B. M., Citizen's Band.
Lindsay, June 10th, 1887. the sum of \$200. Each band to appoint one

-The curlers of the Ontario Branch, R. C. C., have had prepared an address to the queen congratulating her on attaining the 50th year of her reign. Over 93 clubs are represented, inher reign. Over 93 clubs are represented, including about 3,800 members. The address is very handsomely illuminated and is a beautiful piece of work. It bears the signature of Mr. J. D. Flavelle of Lindsay as president of the Ontario branch, and the signature of Mr. Russell, the secretary. When the traveller from Canada stroils through the hall of Windsor Castle he will—if he is a curler—strike on something that will remind him of home whom he recognizes the signature of Mr. Flavelle.
