of motion of Mr. Bryans, seconded by Mr. Smyth, a deputation composed of Mr. John Kennedy, vice president Lindsay board of trade, and Mesers, C. E. L. Porteous, R. Sylvester, S. Hughes and C. D. Barr, members of council of the board, were heard regarding the improvement of certain leading roads. Mr. Porteous briefly addressed the council and select to have the matter referred to the road and bridge committee, when the matter would be more fully explained and considered. On motion the question was so referred and an appointment made for two in the afternoon.

The members of the deputation addressed the council in the afternoon and a very interesting discussion took place. The necessity and importance of effecting substantial improvements on auch leading roads as the one from Lindsay via Dunsford to Bobayneon, on the road to Cameron, and the Manvers road in Ope, was urgand by the deputation. It was further stated that it was only fair to Ope that exceptional assistance should be granted to certain leading roads in thest ownship which were largely travelled over by resepayers from other townships. The importance of the largely travelled over by ratepayers from other townships. The importance of the question and the desirability of having good roads were admitted by the committee. Mr. Fairbairs stated that the Lindway grain market should be improved. If higher prices were paid there would be more encouragement to improve the roads. He had broken a wagnon in trying to get to Lindeay; but by going to Peterbers he had obtained a great deal more for his grain. Mr. Fairbairs and othersesspecied their gratification at the interest evineed by Lindeay in the question. It was a good sign.

PLACED ON RAILWAY COMMITTEE. On motion of Mr. BRYANS, seconded by Mr. WALKER, Mr. R. Smith, reeve of Lindsay, was appointed on the rail way committee in place of Col. Deacon, resigned.

Mr. SWANTON, chairman, introduced the report of the figure committee, which was read in committee of the whole, the Swanton in the chair, and adopted so follows:

The auditors report accompanied by statements in detail of all the accounts of the county for the year 1881 has been submitted and considered, and your committee recomment that the reports and statements he printed in the proceedings of council.

The estimates for the year neve been duty commetered. The requirements are \$32,000,00, but your committee do not deem it necessary that the whole amount should be raised this year. Owing to the extraorilinary expenditure on bridges in 1884 there was a defect of nearly \$13,000. Without unduly increasing the rate in 1875 and 1886 the deficiency has been reduced to \$9,525 on 1st January last, and your committee are of opinion that the reduction should go on unfadually from year to year until the defect is extinguished. Your committee recommend that two and one-half mills on \$10,905,614, the suggregate amount of the equalized value of the county which would realize the sum of \$27,480, be levied in this year for county purposes.

Mr. Cameron and Mr. Lownsbrough thought it would be better to have one grand union match is some central place, and have it go one year is the south and the next year is the north.

Mr. Statuck's amendment was put and lost. Mr. Berkiev's notion was adopted, and the name of Mr. I. W. Reki was adopted to the committee.

ROAD AND BRIDGE COMMITTEE REPORT GENTLEMEN. - YOUF COMIT

GRATILMEN, —Your committee have duly considered the resolution of council and correspondence, relative to the re-eraction of a bridge on the boundary between the townshipe of Macaulay and Stephenson, crossing the Musicha river. It appears that the original superstructure has fallen into the river, Your committee beg to recommend that no action be taken in the matter.

A petition signed by W. A. McCutcheon and fifty-three others, resident of the township of Dalton, praying for a grant to open a road from the Monch to the Dalton roads, and to buy a bridge known as Kehoe's bridge across the Black river, has been referred to your committee, As it appears to be important that some assistance should be given, your committee recommend that a grant of 350 be made to the township of Dalton for the purposes named on condition that the township of Dalton obtain a conveyence of the right of way and of the bridge.

Referring to communication from E. B. LeRey, Eeq., respecting the dangerous state of the bridge crossing the mill-pond branch of the Gull river at Cobsessia, the besign-in question is on the Cameron road, forming the boundary between Bexley and Somerville. Your committee recommend that the Resve of Bexley he authorized to have bridge replanted, provided that the cost to the county shall not expect 350.
