Local Shortcuts.

—Last week Mrs. Case of Lindsay, an old lady who has been paralyzed for more than a year, is attempting to raise from her chair, as she lies on the floor and brose her near the shoulder.

—A Winnipeg despatch of Friday last said:—"Mrs. Elizabeth Sanderson, an aged lady residing from Lindsay, Ont., dropped dead while teaching carpets at her house."

—The march of progress sweeps old land marks. Mr. R. Gungie is tearing down the oldest dwelling house in Lindsay, on York-st., to make room for new and more modern looking buildings.

—On Monday Mr. Wm. Duffin, architect of the collegiate institute, accompanied by Mr. J. Milburn went to Boboyagou, and arranged for meeting out the stone necessary for the foundation of the new institute.

—This week we find next at work replacing the steps and platform at the main entrance of the court house. This is right and proper, as they will be—well with plenty of room at the top. A large quantity of Boboyagou stone has been delivered at the upper wharf to be used in building the cold-store house for Dundas & Flavelle Bros. building which will prove to be a valuable and convenient accessory to their large produce business.

—Among the local doings of the week was a lecture on Sunday evening, delivered in the old English church, by Prof. N. B. Webster of North York, from the subject of "The Water Supply of the High School Literary society and delivered an interesting address of last week, during the high winter storm, the bill-board on William-st., between the Central house and McCormick Bros. store, was blown down and utterly demolished. Fortunately no one happened to be passing just at the time, otherwise the consequences might have been serious.

—An order of council has been issued that the rate of toll on cordwood and logs pass through the Boboyagou, Peterboro and East-ridge locks, on the Trent Valley Canal, be and the same are hereby amended as follows:—"On cordwood the rate to be levied shall be 3 cents per cord in lieu of 1 cent."

—About 2:30 Monday morning a fire broke out in the high school building at the corner of the street, and despite the efforts of the firemen the structure was destroyed. The loss of the school is estimated at \$3,000. Temporary accommodations will be provided for the scholars. As the season is so far advanced it is probable if new buildings can be erected this year.

—Peterboro, says the Review, is becoming more and more a center for the surrounding country. The demands of the Peterboro millers, on Saturday alone, are estimated to be worth \$100,000 to the Canadian Pacific railway.

—Why not come to Lindsay for your winter? The Peterboro county has plenty of it—better harvest and field than Peterboro county, by all reports. Only 50 miles to the sea! Send us your orders and we will ship you.

—Some time ago active agents sold in this vicinity a large number of hand grenades and to be distributed with some potent force that would annihilate a fire when the grenade was broken over the flame. In local factories many of these articles are kept ready for use in case of fire. It would be well to try a few in the hands of the fire department, and test the value of the article. A trial was made at Peterboro, and the result was a success, either through ignorance or want of strength in the selection, proved to be practically worthless.

—The Toronto Standard has had a large attendance from this section during the week. The train has been crowded, and almost completely full. It is to be expected that it will be a success. The committee of management are doing their very best to make it a success.
