Coun. CRANDALL, chairman of fire and water committee, reported that it had been found that the grant of \$275 made to extend the waterworks system to a point sear Sylvester's works was instequate and would require to be supplemented by sundictional \$225, making \$500, and that the large interests at stake demanded that sum should be at once granted.

Considerable discussion took place over this proposal, during which Mr. Sylvester was on motion asked to give his views in which he strongly urped the necessity of continuing further the proposed extension of the works.

of the works.

Reeve SMYTH, seconded by Dep. reeve Williams, moved an amendment that no setion be taken in extending waterworks in view of radical changes probable in the near future in the system of supplying the town with water, and that the fire warden be instructed to exercise special surveillance over the Sylvester building.

coun. Crandall entered into a lengthy denunciation of the system of fire protection and aversed that although the system had cost thousands of dollars all we have of any worth for our money was the Wellington at, pump, and stated that the council should do all in its power to protect such a valuable industry to the town as these works were proving to be.

Coun Lennon said that as the town spinsared to be growing westwards it was

peared to be growing westwards it was not slone for the Sylvester works the pro-tection would be afforded. The report was declared carried.

The gentleman said he would probably pay our town a visit and confer with committee.

A CALL FOR BETTER TERMS, Coun. MALLON put in a claim for five lamps costing about \$100 yearly, and laid much stress upon the necessity of one being placed upon the corner near his store in Victoria ward.

Mayor Walters condemned in strong language the conduct of councillors in springing unforseen expenditures upon the council after the rate had been struck, and said that something like \$1,000 had been voted since the rate of 161 mills had been

The motion was defeated and Coun. Malion left the chamber in disguet at the par-simony of the council.

-Death has at last carried away Mr. Chas, Neads, after a long and weary illness, at the age of 47 years. Mr. Neads was for many years acof 47 years. Mr. Neads was for many years accountant is the Ontario bank in this town, and was widely known and respected. Of late years he had been incapacisted by ill-health for any active duties. His ailment was disease of the heart, from which resulted droppy, the immediate cause of death. The deceased was married to a daughter of the late J. McKibbin, and leaves a widow and two sons. The remains were taken to Bowmanville for interment in the family burying ground. The funeral to the station Monday morning was largely attended, the principal business men of the town testifying their respect by their presence.

their respect by their presence.

—We deeply regret to have to chronicle the death of Mrs. J. P. Ryan, the esteemed wife of the editor of the Midland Free Press. Mrs. Ryan has been ill for over a year and a half from inflammatory rheumatism, which intime affected the spine, and she suffered a great deal. She bore her sufferings, however, with exemplary patience and fortitude, strengthened by the consolations of religion. Mrs. Hyan was a sister of Mrs. David. Walker, and was beloved and esteemed by all who knew her. The remains were brought to Lind-ay Monday for interment. The funeral was a large one. Many friends unite with us in expressions of sympathy with the bereaved husband. The deceased lady left one child, a fine little boy of six or seven.

Brantford and Massey Binders [To the Editor of THE POST.]

SIR.-I was very much amused to notice in your last issue that the Sylvester binder, etc., swept the field" at the Port Perry fair last reek, and those of your readers who were there and know the facts of the case no doubt were also amused. He took all honors simply because he had no opposition. His was the only entry. He had no one to compete with, and as a matter of course would take first, second and third prize for that matter. The prize was given for the "largest display of agricultural implements" (see page 47 of prize list), and as other implement exhibitors had only a binder and mower or a binder, mower and rake, it was simply impossible for any one but him to set the simply impossible for any one but him to get the prize. The bare idea of the Sylvester binder and mower getting first prize over the Brantford binder and mower is too risiculous to be entertained for a moment. The farmers will

As is well known the Brantford binder and mower took first prize and diploma in competition with the Massey binder and mower at Lindsay Central. This is the result whenever they are placed together, and the rantings of their traveller about judges being bribed, etc., was only a blind to try and make farmers believe that it was something new for them to be beaten. The diplomas taken by the Brantford in different parts of Canada will show that it invariably gets the red ticket. I trust as representative of the largest binder manufacturer in Canada that Messrs. Short, Washington and Cunningham will treat the base insinuation made by Mr. Wonch, the Massey traveller, that I bribed them, with the contempt which he and I bribed them, with the contempt which he and the statement so well deserve. Had he got the red ticket those same judges would have been pronounced the very pink of perfection, and the farmers who attended the fair will say that their verdict was a just one,-I am, yours truly,
