FENELON TOWNSHIP AT FENELON FALLS.

A Good Attendance—A Falling Off Compared with Previous Years.

[From the Fenelon Falls Gazette.]

The annual fall show of the township of Fenelon agricultural society was held in the park south of the river on Thursday and Friday of last week, and was fairly well attended, but we have seen larger gatherings of farmers and others in the village on similar occasions. The exhibition, it cannot be denied, was rather a poor one, the chief falling off from previous years being on the ground floor of the hall. Some think that a good many farmers were prevented from attending by the necessity of remaining at home to keep watch against fire; while others are of the opinion that the show would have been a much greater success had it been held earlier in the season—before, instead of after, so many others. Whatever the cause, it was not what it ought to have been, and we can only hope that there will be more exhibits and a better attendance next year. The show of live stock was nothing to brag of in point of numbers, but the majority of the animals on the ground were good ones. Amongst horses, those entered as "general purpose" were rather numerous, and in this class the competition was keen; but in the other classes the judges had not as much difficulty in deciding which were most worthy of the prizes. In cattle, Mr. John Cullis was "to the fore," as usual, with his herd of Durhams, and—also as usual—took a lot of prizes although there were several other successful competitors in the same class. The grades, like the thoroughbreds, were fine animals, and showed by their plump and sleek appearance that they had been abundantly fed and well cared for. Of sheep and pigs there were several pens, but we doubt whether the occupants were much more than sufficient numerous to take the prizes offered. The poultry didn't amount to much; there were a few good birds, a few middling ones, and the others were hardly worth looking at. On the ground floor of the hall, which is a large one, there was a good deal of vacant space that in more favourable years, or under more favourable circumstances, would have been filled with exhibits from farm and garden. The show of grain was a good deal below the average, but the quality was excellent; and as everybody knows that this has been a poor year for roots and fruit, not much could be expected in these classes. In the ladies' department, up-stairs, the display was but little inferior to last year's, and there was certainly no falling off in the quality of the articles exhibited, many of which were fully equal to the very best shown at the Lindsay central. Much of the fancy work was really admirable, especially those samples that were decorated with the coveted red and blue tickets. There was one little exhibit that probably attracted more admiring notices than any others in the hall, and which in our opinion was worthy of a gold medal, and to which the judges awarded a discretionary first prize. We allude to the small but exquisite basket of flowers cut out of white marble by D. Gladstone, of the Fenelon Falls marble works, who has the hand and eye of an artist, and, without doubt stands in the front rank in his profession. The display of agricultural implements (on the ground near the hall) was not very extensive, but the Fenelon Falls foundry was well represented, and was as successful as in past years. Following is the

CANNINGTON CENTRAL AT CANNINGTON.

A Capital Exhibition—"Fatting" Special Attractions—A Fine Live Stock Display.

The third annual Cannington Central was a very gratifying success, both in regard to attendance and to the quality, number and variety of the exhibits. The live stock display was exceedingly creditable and was ahead of previous years. In horses the display was not what it should have been. The sheep and swine departments were very good, but we look for larger exhibits and keener competition. The same may be said of the poultry departments. The ladies' exhibit was very interesting and tasteful. The grain, fruit and vegetable display was very good, considering the season. The special attractions were well managed and proved popular with the crowds. The management are to be congratulated on the satisfactory results of their arduous work.

During the second and third days attention was centered on the speeding over the half mile track. The three-minute trot was contested for by J. Doyle's John Doyle, E. Philp's Black Minnie and A. McKinnon's Nellie M. The trot was won by Nellie M. In the contest for boy riders A. Baxter took 1st and T. Grant 2nd place. The event of the third day was the free-for-all-trot. The track was heavy and fast time not looked for. Maud S. took first money, Black Diamond second and Louis D. third. The best time made was 2.42½. Messrs. W. Sanderson and Chas. Thomas each gained first and second prizes respectively for best gentlemen's turnout. In the contest for lady drivers first prize was taken by Mrs. Williams of Cannington. Subjoined is the
