The St. Louis Republican tells this singular yarn: Charles Griffin, a farm hand about twenty-six years of age, working near licileville, has had a singular experience the past few works. He worked or fence the past few works. He worked or hay in the fields to take a nap. —It is stated that on the Credit Valley branch of the C. P. R. water has been so scarce that the supply for engines has had occasionally to be carried long distances. In Illinois a similar condition of affairs has existed for some months, and now the scarcity has reached a serious point for the railways affected. The Illinois Central, the Vandalia and other lines are obliged to hant water for the supply of many of their stations and engines, and is some cases the demand for cars for this purpose has become so urgent that oil tanks have been cleaned out and used as water tanks.

-Lord Salisbury, in a speech at the lord mayor's banquet Wednesday night of last week, referred to the growing pacific aspect of foreign affairs. He said the agreement with Russia regarding the Afghan frontier, which had been accepted by the smeer, removed the danger to the world's peace in these quarters. It had also been the good fortune of the government to come to an understanding with France concerning the nuderstanding with France concerning the New Hebrides difficulty and with regard to some vexed questions affecting the Suez canal. He announced that Ayoub Khan had surrendered to the Indian government. He admitted that there was political uncanness in Europe, but said he knew nothing that would justify alarm. In view of the competition in forming great armaments it was idle to suppose that peace would be forever maintained, but every present ruler—monarch, president or minister—earnestly desired peace. A feature of the panquet was the enthusiastic reception given to Mr. Balfour. Lord Salisbury said this circumstance at the present time said this circumstance at the present time gave additional emphasis to the yindication of the law.
