# Famous Doctor

Once said that the secret of good health consisted in keeping the head cool, the feet warm, and the bowels open. Had this eminent physician lived in our day. and known the merits of Ayer's Pills as an aperient, he would certainly have recommended them, as so many of his distinguished successors are doing.

The celebrated Dr. Farnsworth, of Norwich, Conn., recommends Ayer's Pills as the best of all remedies for "Intermittent Fevers."

Dr. I. E. Fowler, of Bridgeport, Conn., says: "Ayer's Pills are highly and universally spoken of by the people about here. I make daily use of them in my practice."

Dr. Mayhew, of New Bedford, Mass., says: "Having prescribed many thousands of Ayer's Pills, in my practice, P can unhesitatingly pronounce them the best cathartic in use."

The Massachusetts State Assayer, Dr. A. A. Hayes, certifies: "I have made a careful analysis of Ayer's Pills. They contain the active principles of well-known drugs, isolated from inert matter, which plan is, chemically speaking, of great importance to their usefulness. It insures activity, certainty, and uniformity of effect. Ayer's Pills contain no metallic or mineral substance, but the virtues of vegetable remedies in akillful combination."

LINDSAY, FRIDAY, FEB. 3, 1888. THE ONTARIO LEGISLATURE. Second Session-Speech from the Throne The Boundary Question -A Minister

The second session of the legislature of Ontario was opened on Wednesday of last week by Lieut. Governor Campbell with which has been generally commended. Subjoined is the

SPEECH FROM THE THRONE.

Gentlemen of the Legislative Assembly: I have much pleasure in welcoming you to your annual duties as the representatives of the people for the first time since my appointment as lieutenant-governor. I should like to believe that my long expertence in Canadian public life may give me my new position useful service to the province which has long been my home and in

THE CROWN LANDS. Since your last session the supreme court of Canada has affirmed the judgments of the high court and court of appeal in favor of the provincial claim to the crown lands to which the so-called "Indian title" had not been extinguished until after confederation. The defendants have appealed privy council, and the appeal will probably be heard and decided heard and decided during the present year. M anwhile, in reliance on the decisions aiready obtained patents have been issued by the province to claimants who have applied to my government for them and have shown their right to receive them on like grounds and proofs as are recognized and acted on with respect to our other provincial lands. There has been some correspondence with the federal government on the subject, which will be laid

THE BOUNDARY QUESTION. I am happy to inform you that the federal government has recently intimated to me its intention of concurring in the steps necessary for obtaining at the next session of the imperial parliament an act confirming the western boundary of the province agreeable to the order of her majesty-incouncil made in August, 1884. Negotiations have commenced respecting our northern boundary also, so far as the same has not already been determined.

UNSETTLED ACCOUNTS. I regret that no substantial progress has

been made towards the settlement of the long-pending accounts and other questions between the Dominion and the province. The correspondence on these subjects will be submitted to you as respects the un-settled matters between Ontario and Quebec, in which the Dominion has no interest, including the claim of this province on behalf of the municipalities to the land improvement fund. In respect of collections from crown lands before confederation an agreement has been arrived at between the two provincial governments for settling these matters by a friendly arbitration in case the proposal shall receive your appro-

THE QUEBEC CONFERENCE. The resolutions respecting provincial matters adopted unanimously at the recent inter-provincial conference at Quebec will be submitted for your consideration, and bills are in preparation for carrying into effect such of the resolutions as require

PER CONTRA. On the other hand I am giad to say that there has been more than the usual active moved by Mr. J. R. Smatton of West Polity in the settlement of our crown lands

A MINISTER OF AGRICULTURE. The legislature has always given special thanion to the development of the aggicultural resources of the province and to

making such advances in ground seats and timber dues as should bring to the provincial revenue a substantial increase, without being unfair or oppressive to persons engaged in the lumber trade. Certain increases were accordingly made, and that they were not unreasonable or inopportune has been shown by the large prices obtained for limits at the timber sale which was afterwards held.

THE REVISED STATUTES. I was glad to have it in my power to issue the necessary proclamation for bringing into force at the close of the year the newinto force at the close of the year the newly revised statutes of the province, embodying ence more in two convenient volumes the whole public statute law. The
report of the commissioners, which will be
laid before you, recommends the passage
of a confirmatory act, as was done in the
case of the revision of 1877, and I commend
these suggestions to your attention. In
connection with the revision of our public
statutes all statutory provisions affecting
practice or procedure and all the rules and
orders issued by the various courts during
the last thirty years have been consolidatorders issued by the various courts during the last thirty years have been consolidated and revised under the superintendence and direction of the judges of the Ontario supreme court, with the view of completing the fusion of the courts contemplated by the judicature act and of promoting uniformity, certainty and simplicity in legal proceedings. The consolidated orders have been adopted under the authority given to the judges for this purpose by statute, but they recommend that their work as executed should receive legislative confirmation, and to this recommendation also I invite your attention.

new buildings have been prepared and will be laid before you with a view to the erection of the buildings being commenced during the present year. PARLIAMENT BUILDINGS.

I have the pleasure of informing you that very gratifying progress has been made

much less display than usual,-a change idiotic by the opening at the Hamilton there, affording room for 150 patients, and by the opening at Orillia of the two new cottages, for which appropriations were granted in the last two sessions of the legislature, and which will accommodate 200 patients. The south wing of the new building at Hamilton, which has the same capacity as the north wing, it is confidently hoped will be completed and ready for occupation during the coming summer. It has for some time been evident that it would not be practicable to continue ocsome special advantages for rendering in | cupying for the uses of the Toronto asylum the large tract of land within the city heretofore used for farm purposes in connection with that institution. The growth whose progress and prosperity I take the of the city and the value of property withfuture occupation to as small an area as may be consistent with the positive necessities of the institution and to dispose of the remainder for asylum purposes. I therefore commend to your attention the expediency of making immediate provision for the erection of asylum cottages on the land of the province at Mimico with a view to the removal of patients who may derive benefit from farm work and by others whose removal to the same locality may be expedient, the management to be in con-nection with the Toronto asylum and by

> CHILDREN'S HOURS OF LABOR. You will, I doubt not, concur with me in the opinion that the hours of daily labor for children and young girls in ordinary retail shops should not be so prolonged or exhausting as to be injurious to health, and that the time has come when some provision of law may be made to limit the number of hours during which in any week young persons can be employed in these shops. A bill for this purpose and to promote also the early closing of retail atores in cities, towns and villages to such periods of the year as in the judgment of the municipal authorities the circumstances of the respective municipalities may make desirable, will be submitted for

> your consideration. OTHER MEASURES. Amongst the other measures intended to be laid before you are a bill respecting the franchise, a bill respecting friendly societies, a bill respecting alimony, and a bill for the separation of Parry Sound and Muskoka from the adjoining counties for

certain purposes. MUNICIPAL REFORM. In consequence of representations as to the necessity of important amendments in themunicipal law affecting cities especially the municipal law affecting cities especially but not exclusively, I issued a commission during the recess to collect the experience of other countries, states and provinces, as well as of our own, in regard to the matters referred to, with the object of putting you in possession of materials which may be of service in this department of legislative duty. I hope to receive in a few days the first report of the commission. This report when received, and all departmental and other usual reports, will be laid before you for your information.

THE ROTIMATES. The estimates for the current year will at an early date be submitted for your ap-

effect such of the resolutions as require present legislation on the part of the province.

AGRICULTURAL DEPRESSION.

I regret exceedingly that the province has experienced a considerable amount of agricultural depression by reason of the great drouth of last year and its unprecedented duration.

AGRICULTURAL DEPRESSION.

I am glad to feel assured that your legislative labors during the present assured will be characterized by the same earnest care and thoughtful attention which have heretofore marked the work of the legislative assembly of Ontario.

cultural resources of the province and to the improvement of the condition of these who follow aericultural pursuits. To further promote these important subjects, and in view of the increasing work of all the government departments from year to year, I recommend for your consideration the appointment of a minister to whose special attention all matters relating to agriculture and kindred hubyects may be transferred. A bill for this purpose will be laid before you.

TIMBER LIMITS,

The value of our timber limits having greatly increased of late years, it was recently thought that the time had come for making such advances in ground mate and timber dues as should bring to the provincial revenue a substantial increase, without being unfair or oppressive to persons engaged in the lumber trade. Certain increases were accordingly made, and that they were not unreasonable or inopportune has been shown by the large prices obtained for limits at the timber sale which was about introduced a bill respecting friendly societies, a bill respecting a minister of agriculture, a bill respecting a minister of agriculture, a bill respecting friendly societies, a bill respecting a minister of agriculture, a bill respecting a minister of agriculture, a bill respecting conditions in the proveince of Quebec; life, Wood (Hastings), a bill, to amend the act respecting cheese and buttoreasting conditional sales of chattels.
