A GROWING PLACE—Not having seen any news items from this place lately, I thought it would be well to let your readers know that we are alive and able to attend to business. Perhaps it would not be out of place to notice that our population has been increased considerably during the past two weeks. The good people here believe in the old-time injunction as to "replenishing the earth."

SUNDAY SCHOOL ENTERTAINMENT.—For sometime back the young folk of the Sun-SUNDAY SCHOOL ENTERTAINMENT.—For sometime back the young folk of the Sunday school have been busy preparing for an entertainment, which came off on the 31st of last month. Judging from the clapping of hands and the pleased faces of the audience it was a grand success. Mr. Lapp, the bible class teacher, deserves every praise for untiring perseverance exercised in order to make the entertainment a success. The singing was splendid, as also the anthems by the choir, which considering the small amount of practice discounts those of some larger villages considering the small amount of practice discounts those of some larger villages we could mention. I must not forget to mention that praise is also due Mr. Hawkins, leader of the choir, for the pains he took in providing good selections and having the same well executed. It was a well filled program and a well filled school house. The proceeds are to go for a library, which has been badly needed.
