"Did n't Know 't was Loaded"

May do for a stupid boy's excuse; but what can be said for the parent who sees his child languishing daily and fails to recognize the want of a tonic and blood-purifier? Formerly, a course of bitters, or sulphur and molasses, was the rule in well-regulated families; but now all intelligent households keep Ayer's Sarsaparilla, which is at once pleasant to the taste, and the most searching and effective blood medicine ever discovered.

Nathan S. Cleveland, 27 E. Canton st., Boston, writes: "My daughter, now 21 years old, was in perfect health until a fear ago when she began to complain of fatigue, headache, debility, dizziness, indigestion, and loss of appetite. I concluded that all her complaints originated in impure blood, and induced her to take Aver's Sarsaparille. This modificacean Ayer's Sarsaparilla. This medicine soon restored her blood-making organs to healthy action, and in due time reëstablished her former health. I find Ayer's Sarsaparilla a most valuable remedy for the lassitude and debility incident to spring time."

J. Castright, Brooklyn Power Co., Brooklyn, N. Y., says: "As a Spring Medicine, I find a splendid substitute for the old-time compounds in Ayer's Barsaparilla, with a few doses of Ayer's Pills. After their use, I feel fresher and stronger to go through the summer."

INDIAN MEDICINE.

BY THOMAS W. POOLE, M. D. Far out in the wild and tangled wood, A lonely Indian wig-wam stood; Around it were heaped the drifted snows, Above it the tow'ring forest rose, An oak tree, knotted, and bent with age. Look'd wierdly down on this human cage.

Within, an Indian maiden lay, Breathing her innocent life away: Wasted and worn with a fell disease. List'ning the moan of the forest trees. "What does it mean!"-They seemed to say, "The birds are flown from our leafless glade

"They will return some other day, "But never egain our Indian maid: "We gave her all we had to spare, "The brush and bark for herdwelling there, "The moss to pillow her aching head, "And leaves enough for her cosy bed. "We gave her fruit as it grew mature, "And herbs and simples to work her cure:

But never more shall our native child

"Smile on her home in the forest wild!" The tall pines shook in the frosty air. The woodlands seemed to breathe a prayer The giant arms of the leafless trees, Stirr'd, as if moved by a passing breeze: Was it in sorrow, was it in fear? For now the Angel of Death was near!

A woman mature in years was there Tending a simmering pot with care; "Indian mother! I pray thee tell. "What of those simples ye know so well?" The woman answer'd in broken speech, Placing the pot within easy reach, "This is our medicine to cure disease, "Tis made of a chip from all the trees."

A sigh came out of the smoky gloon: A silence fell in the tiny room; The mother utter'd a piercing groan, The life of her Indian child had flown? Lindsay, March, 1888.

CEDAR TRADE.—Mr. Hinton and family from Darlington have moved back in our midst. Mr. Hinton is busy preparing to start a shingle mill in the swamp just north of the school house, Cedar Dale, No. 9. There is a large quantity of cedar in this vicinity and Mr. H. having purchased a cedar farm, no doubt the mill will be a profitable investment as well as a boon to the neighborhood.

LACONICS.—Mr. Henry Gibson at this time is lying in a very critical condition and his recovery is not expected Miss Emma Jackson, who has been to Toronto getting her leg amputated, has returned home and we are glad to say she is doing nicely. Measles are very thick in our midst. . . . Mr. Jar. McLaughlin has moved from the Parr farm to the Lawson extate.

FIRE.—On Saturday, March 17th, our village was a scene of great excitement when it was discovered that the house of our mail carrier, Mr. W. Taylor, was in flames. A large crowd hastened to the spot and by a vigorous application of water the fire was put out, but not before it had burnt a large hole in the roof. The fire was caused by a defective chimney and had it had full sway for a few minutes longer the house would have been reduced to ashes.

WEDDING.—Another of our fair ones has been carried off captive to the wiles of Cupid. On Wednesday, the 21st instant, Mr. James Love of Joliet, Ill., second son of Mr. J. A LITTLE STRAYAWAY.—Last Sunday it was learned that a little child of Mr. David Morrisey of this place place had strayed away. He had been gone for some hours before he was missed. A large number of the neighbors made diligent search but in vain. Though an unusually strong and healthy child it was feared that he must have succumbed to the cold and exposure as he lacked three months of being three years old. At last his track was discovered leading from his home and followed, when after travelling some miles the little fellow was come up with nearly exhausted but still walking. With the exception of having his feet partly frozen the child suffered no further harm. But what is very atrange is the length of time and the distance the child, and one of his age, walked. Judging from the time he left the house and making all reasonable deductions for stoppages he must, though it seems extraordinary, have must, though it seems extraordinary, have

must, though it seems extraordinary, have walked for ten hours.

Notes.—The ice on Pigeon river and lake has during the past year frozen to unprecedented thickness—in places over three feet—consequently there is grave danger of disastrous ice shoves when it begins to break up. Bearing in mind the effect of last spring's ice on the floating bridge we may safely predict a grand smash-up this spring owing to the fact that on account of the lowness of the water last fall the bridge became frozen in the mud, and hence must now either resist the ice shove or submit to a bad breaking up.... A new tenant has taken the farm formerly held by Mr. Hoban. Mr. Winn has the best wishes of his new neighbors.

Business Meeting,—The committee in connection with the Sabbath school entertainment met Wednesday evening, March 27. The superintendent, Mr. Dugald Jamieson, brought forward the subject of aid to foreign missions, and warmly advocated the idea that christian organizations abould assist in the great work of sending the gospel to the heathen. Mr. John Graham and some others thought the money was needed to strengthen the home cause by purchasing a library. After a somewhat lengthy discussion the balance of about \$17 was divided up by giving \$2 to foreign missions, \$5 to be used as a difference between the present library and a better one, \$8 to be paid for some good Sabbath school paper, and \$2 to purchase a suitable present for Master Will Rickaby, the young and talented organist. Much credit is due the committee for the able manner in which they carried out the preparations for the entertainment. The next time Palestine has a concert "may I be there to see."

FARMERS' INSTITUTE.—A meeting of the West Durham branch of the farmers' institute was held at the town hall, Blackstock, on Thursday of last week. The president, Mr. Roy of Darlington, took the chair about 2 p.m. and explained to those present the advantages of farmers' institutes in general. Mr. A. Tamblyn of Darlington was then called on to read an essay on the "Rotation of crops." This essay showed a good deal of trouble had been taken in its preparation, and was a masterplece on the subject. Mr. Tamblyn appears to be a "clover king." as he advocates sowing lots of clover and plowing it again soon for crop. He was followed by Mr. W. Werry, of Roseland Vale stock farm, Darlington, in an essay on "Winter feeding of stock," which showed he was an expert in that line as his stock proved. He maintains that if the farmer wants to feed for profit he must feed thorough-bred or high-grade stock; no matter in what branch, whether for dairy purposes use thorough-bred dairy stock, or for beef good beef stock. A branch was organized to be known as the Cartwright branch of the West Durham farmers' institute. Mr. T. Werry was elected president, and Mr. James Parr was elected secretary-treasurer, and to meet on Saturday, the 17th instant, at Blackstock town hall, at 6 o'clock p.m. Some farmers' institutes; they think it a political meeting in the interest of the reform government. But it is not in the interest of any political party but for the farming community in general, and should be taken hold of by all to make it a success. Other trades and professions have their unions and conventions, and why should not the much abused farmers have their institute and consider the best means to promote their best interests. Then come all and see for yourselves.
