"TWO HARVESTS"

For every Farmer in Victoria.

Your first crop will be to buy your DRY GOODS, MILLINERY and CLOTHING from

McLEAN, SMITH & CO.

thereby making a big saving on your second crop.

The flowers that bloom in the spring have nothing to do with the case! But the flowers that are blooming on our

HATS AND BONNETS

are as natural as life, and are sold away down in prices.

FANCY RIBBONS, AIGRETTES and FEATHERS are largely used for Trimmings this season, while our shapes are the latest and prices are found to suit you. Try the sign of THE GOLDEN FLEECE for your HATS and BONNETS.

The rush in the spring has cleared a great many lines in DRESS GOODS but we have another job lot to hand; all the latest designs and colors in DRESS GOODS, ranging in price from 5 cts. a yard up. Fancy Costume Suitings and Plain Goods, in all materials. We take the lead in Dress goods.

This season we have made this department a special study, we can tell you how each material looks best made up, also quantities required for different styles. Call at the Head Emporium for Fashionable Dress Goods.

CLOTHING.

This department is managed by one of the most Experienced Cutters in the town, while our lines in Tweeds and Pantings, Black and Fancy Worsteds are unsurpassed for value and style. A large assortment of Hats, Neckwear, white and regatta shirts. Everything a gent requires will be found at

McLean, Smith & Co's.

At Benson House.

Prof. Dorenwend of Toronto, the largest Hair Goods manufacturer in Canada, will once more visit Lindsay. This time his styles will be all of the newest and most fashionable patterns. He will have some of the finest kinds of Ladies' Bangs and other Frontpieces, Wigs, Waves, Switches, etc., a stock that will surpass anything he has heretofore offered. It is wonderful how successful the professor has been since first starting business in Toronto, some two years ago; thousands throughout Canada and the United States are wearing his styles; this proves that he has gained the confidence of the public. His dealings are always straightforward and his great ability as a manufacturer is a well-attested fact. This visit will most likely be the only one he makes in this vicinity. Switch or Wig is required he will be at the Benson house on Thursday and Friday, May 25th and 26th. Don't forget to call on him.—92-l.

Personal.

—Mr. R. Harding and family have returned back to Lindsay from Little Britain. —Mr. Chittick, wife of our esteemed fellow-townsman, has returned from Toronto, where for some three months past she has been undergoing treatment by Dr. Rosebrough for a trouble of the eye. Dr. Rosebrough's treatment has resulted in a decided improvement, and a few occasional visits will, it is believed, effect a complete cure. The many friends of this estimable lady will be pleased to hear of this satisfactory result. —Our worthy friend Mr. Thomas Johns of North Emily was to town this week on his way for a visit of three weeks to his native place, Pembroke in Wales. Mr. Johns met in the general Mr. Johns ordered an extra copy of this issue to be sent to Wales or him during his absence so as to keep "posted" on what is going on here. We join with many friends in wishing Mr. Johns a pleasant trip and safe return. —Mr. J. Neelands and Mrs. Neelands have been on a short visit to New York. Mr. Neelands has been combining business with pleasure and has been looking up the latest improvements and appliances in dentistry. In New York are several of the most famous dentists in the world. Perhaps the most celebrated is Mr. W. H. Atchison, M.D., D.D.S. whose work and feat as a specialist are not inferior to Dr. Mackenzie. Mr. Neelands will reach home on Friday, 25th inst. —Mr. R. Hall, for some years student in the law office of Messrs. Barron & Campbell, has passed his final examination and is now a fully-fledged barrister. Mr. Hall's standing was excellent. He is an industrious and talented young man, liked by all who know him. Mr. Hall is expected to return to Peterborough, where he will enter into partnership with Mr. W. A. Strickland, a fine and clever young barrister of that town. Mr. Hall's departure will be greatly regretted; but what is our loss will be Peterborough's gain.

Straw Hats in Great Variety. W. E. GILLESPIE, the clothier.—95-tf. The "Old English" is the Condition Powder to feed your horses and cattle now.—95-tf. The First of the Season. Fresh White Fish and Trout, 5c per lb. A. BOANER.—95-l. Local Brothies. —The Skutchthins has imposed a heavy tax on butties. —Band benefit Saturday night next at the opera house. Rally to the band's support. —A meeting of the central charity committee will be held in the board of trade rooms Friday afternoon, June 1st, at four o'clock. —Buy your reserved seat tickets for Monte Cristo from the members of the band. Prices have been reduced from 75c. to 50c. —The exhibition on the 24th will be rich, rare and new; but can't compare with the exhibition of Gents' Furnishings at W. J. GALLON'S.—95-l. —A north ward man is going in for "butter reform." He is raising goats! The local lodges are so numerous that there is a good demand for the smallest of them. —The reason our hats take the lead is that we have nothing but the latest styles and best make and our prices are very reasonable. —Whitby is going to bore for natural gas. The drill should be set in the back yard of the Chronicle office, as from excessive surface indications there must be a heavy supply thereabouts. —The threatened wood famine may be said to be averted. Several scowloads of choice maple and beech fuel, two-foot lengths, have been conveyed here by steamers and stored in the different yards. —A large excursion from Port Perry per steamer Louisa and passes now is expected. The morning of the 24th the idea being to visit Port Perry for one chance at least to witness a veritable sailing tournament before the mainmast. Bring them along—a welcome for all. —The body of Joseph Graham, V.S. of Manchester, some particulars of whose mysterious disappearance were printed in this Post last week, was found in Toronto bay last Thursday. It is assumed he had been blown overboard on the bay. Young Graham was on his way to Battle Creek, Mich., to practice his profession. —A considerable number of young trees have been planted by property owners this spring opposite the lumber yards. A number of them of a small size which will improve appearances wonderfully. A noble improvement of this kind has been made by Mr. J. H. Sootheran in front of his residence on Lindsay-st. —Mr. James Smith, superintendent of the gas works, is taking advantage of the present comparatively easy spell and is giving the premises a thorough going over. The works have been badly neglected for the past week repairing foundations, locating suspected leaks and generally "fixing up" for next season. His residence adjoining will also be looked after. —Wednesday noon mail brought for our neighbor Mr. K. Easton orders from the Toronto wholesale trade for no less than 200 dozen busies, and probable orders for 100 dozen more came in before the day closed. On previous days large orders were received. It is proper to add there is much "bustle" and activity in the flourishing manufactory next door in filling these orders. —Our stock of ready-made clothing, consisting of men's, youths' and boys' suits, is now complete in all the latest styles and prices. The goods have been made expressly for us by the best manufacturers they will be found equal in quality and fit to any made order by the best of the tailors and at nearly one-half the price. W. E. GILLESPIE, The Clothier, two doors east of Daily house, Kent-st., Lindsay.—95-tf. —Quite a number of Lindsay canoeists sailed or paddled down to the joint on Wednesday evening, where they met a combined force of Bobsey and club, but the only one who was successful was a member of the Point camp fire and discussed next day's prospects between white-water, white-heat and white-hot. A good many Club members who were unable to go Wednesday evening reached the Point early next morning. —An alarm of fire was sounded about 8:30 Tuesday evening, when it was discovered that the laundry room of the Benson house, situated on Kent-st. east, was in flames. The kitchen was also occupied it moved out during the afternoon. Three or four streams of water prevented the extension and resulted in several barrels of water stored with the hay. Another unsightly object removed! —The small boy and girl are to be brought to time in the West, meeting at the Benson house at nine o'clock as a signal for them to be at home, and if they do not appear, the other measures will be resorted to. The council might give Constables Bell and Cuman, a nice lot of job of this kind, who stand around the street corners not a little good would be done. —Sunday evening a horse and covered buggy was left in Veitch's hotel sheds by a couple of young men, one of them being a member of the Currier of One-while they attended church. During their absence some despicable individual removed the lines and fastened the horse on the back of the harness. The change was not noticed on taking the horse out, and being unable to start, the horse was driven for a practical joke it was a very foolish one, to say the least. —An exchange states that the latest postal laws are such that newspaper publishers can arrest any one for fraud who has a postal card sent to him. Under the law the man who allows his subscription to run along for weeks without paying for it, is liable to arrest from some time unpaid, or takes the publisher to court, or the publisher to court, or the publisher to court. A good many people would be put in jail if this law were enforced promptly and strictly. —Prof. Trever's classes in voice production and theory of music, held nightly in the Y.M.C. A. rooms, have been largely attended since opening night, and it is probable that he will be asked to remain and give a second course. The professor impresses all with the thoroughness and originality of his methods for imparting instruction. To avoid the danger of the lessons being deemed wearisome, the topics are related at intervals and comical allusions and happy "hits" made with excellent result, thus retaining the interest of those present to the end. —When Deputy-revee Bryans, chairman of the town property committee, finishes with the new hall building it will be very improved. The council chamber will be a "thing of beauty" when the walls and ceilings are talcose and tinted in delicate shades, the wood work repaired and the new desks—new and elegant articles of furniture and very creditable to the makers. An improved map of "our fair Dominion" will fill the wall space behind the mayor's chair. The council chamber, market room and "rooler" will also receive a needed touching up. The outside woodwork, cornice, etc., will be painted a new color, and even the roof may receive a coat of tar. After this the band stand! —Yachting and sailing records will be set from the 24th inst. onwards. A new lot of coal and wood fuel yachts have been rushing around for the past week hunting up the small boats necessary after the first general filling-up, and the fleet is now ready to weigh anchor for the season. Various rumors are abroad as to the ownership of the likely clipper to show her heels to the rest of the craft, but titious trips have been made up and down the river and speed entered in log-book, but it is not yet-as-for the fact: it would be easier to sound Masonic mysteries than the owners in question. —The "Seaborn" J. Modama, "Julia" Lewis and several other yachts will run down to the Point to-morrow (24th) with large parties on board to witness the regatta. —Mr. James Wilson, corporation secretary, is a painstaking officer and withal conscientious official. The town by-law reads that attempts to lay out streets shall be subject to a restriction, and it is possible for one man to enforce it to be the person. When he takes upon the broad steps of the police court entrance, the morning dew in a brown study, chewing the cud of reflection and the ends of his mustache, it is well to beware—if you have a cow look to the different wards, and seldom returns from his "mud-slinging" unscathed. The east and north wards are said to be the most productive. By the way, it is reported that the dispensation one day recently. Whilst waterbury about in the north ward keeping a sharp eye out for carnivals he noticed a group of three men anxiously cropping the fresh green grass. Here was opportunity, he saw himself a "Goat" are not to be trifled with, according to popular reports, he observed the man decided to have all or some of the vagrants, so he approached the animals, who in the meantime had been repeating quietly, arose to look at the man. He saw the man was about twenty feet or more distant to a large some-hay near by. Let us draw the veil over
