"A True Friend of Temperanee" in a letter elsewhere printed sounds a timely note of warning against the dangers of division in the temperance ranks from the "third party" movement led by Rev. Dr. Sutherland. There is to be a grand rally at Montreal, and there may be a "fourth party" in the field; for there is considerable dissatisfaction with the way the Toronto movement was engineered. Our correspondent's suggestion that it would be wiser to wait a little while is a sen-

THE METHODIST CONFERENCE

The Bay of Quinte c nfer nce of the Methodist church is now in session in | Lindsay, and our attractive town is thronged with ministers and lay delegates of that denomination. The presence of such a large and representative as well as influential body of men is an honor to the town, and we have no doubt it is cordially appreciated. They cannot fail to be inipressed with the growth, progress and enterprise of Lindsay, evidences of which they will see on every side. Many of the conference members are no strange s to this town. Not a few will renew old associations and acquaintanceships. Perhaps the most gratifying facts that will be noticed by the members are the important church improvements that have been made during the past few years. The Methodist church, in which they racet, has been greatly enlarged, and will stand a monument of the energy and zeal of its paster. The Baptists have removed to a larger church, where their venerable and beloved minister presides over a growing congregation. St. Andrew's, enlarged and beautified, will command cordial admiration; and so will New St. Paul's and its fine new Sunday schoolroom. The last four years has witnessed remarkable growth in church accommodation in Lindsay. In another year our school accommodation will be improved by the addition of one of the finest collegiate institutes in the province. In another year a splendid post office will adorn the vacant lot on Kent-st. where the old Buglish church formerly stood. The sound of the hammer and the cheery call of the artificer in brick and stone is heard

On every street. The members of the conference will be deeply impressed with the material growth and progress of Lindsay, and of its progress in educational matters. In welcoming them to this town we trust they may have a good and profitable time-we are sure, indeed, that they will-and we hope

AN IMPORTANT SCOTT ACT AMENDMENT.

Oper leatner....

Wheat fl ur... Wheelpacrows and hand carts....

Writing ink.
Wind serews.
White and red lead.

Wall paper.
Whips.
Willow baskets.

It may not be genefally known that by he amending act of last session of the Dominion parliament the Scott act has been so amended that a defendant cannot be compelled to give evidence against himself. The original act in this regard read as follows: "On the trial of any proceed ng, matter or question under any of the acts or laws in the 120th it is or may soon be in counties where section of this act mentioned, or under it has been repealed. "this act the person opposing or defend-ing, or the wife or husband of such "person opposing or defending, shall be competent and compellable to give evidence in such proceeding, matter or

By section 13 of the amending act the

THE PRESIDENTIAL NOMIN-

fiscal year 1886-87 the subjoined list of President Cleveland as their candidate for odities imported from the United the presidency. President Cleveland is States with the duties collected thereon, far and away the strongest man the party could put in the field; though abortive efforts were made to "boom" some other and should be cut out and preserved by those who are studying this question.

The "loss to the revenue" of over four dency it is expected will so to Allen G. dency, it is expected, will go to Allen G. Thurman of Ohio, a distinguished statesmen of high character, and whose only defect is his seventy-eight years of life. This ticket is an exceptionally strong one; and it is not likely that the republicans will be able to put a stronger one before the people.

Blaine has written another letter which places him unmistakeably cut of the race for the republican nomination. The prominent names are Senator Sherman, Judge Gresham, Robt. Lincoln, and four or five States favorites, such as Alger of Michigan and Allison of Iowa. The better elements of the republican party prefer Judge Gresham or Robt. Lincoln but the Blaine men, who are numerous, powerful and aggressive, will, it is believed, secure the nomination of a friendly candidate, who will, in the event of election, make Mr. Blaine secretary of state, the place he filled under Garfield.

The reform of the tariff will be the great issue of the contest. The democratic position is not for free trade but to reform of the tariff and for the removal of unnecessary duties. If the democratic policy obtains the tariff will be made considerably lower in some respects than that of Canada, and some important raw materials will be placed on the free list or will bear only a light duty.

THE DUTY WAS REMITTED.

We have been asked by several parties whether the splendid herd of Polled-Angus cattle recently sold in Chicago by Mr. M. Boyd of Bobcaygeon was allowed to enter duty free. Thoroughbred cattle purchased in Canada for breeding purposes, do not pay duty, as is well-known; but Mr. Boyd's cattle were shipped to Chicago to be sold by auction, and while they were bought by leading stock breeders they could not enter on the free list. Senator Cochrane and other leading Canadian breeders desired to avail themselves of the Chicago market for auction sale purposes, but the duty was a barrier in attention of Sir Charles Tupper last sesauthorities at Washington, and the re- illegitimate. sult was an instruction to permit such But the great danger in the traffic in consignments of fine cattle to enter free adulterated food arises from the deception of duty. The concession is a most important one to Canadian stock-breeders, and affords a strong and striking illus- is one that is injurious to health. For intration of the advantages that would accrue from reciprocity. There is no baking powders not only fail to inform the better place on the continent than Cntario for breeding cattle and horses; and if the barriers that prevent their free entrance into the great market to the south could be permanently removed the stock-breeder's business would at once grow to enormous proportions in Canada. and especially in Ontario. But, of course, if our farmers are satisfied with the restricted market, lower prices and poorer animals they can enjoy these "advantages" to their hearts content as they wish. If they desire, on the other hand, to obtain the clear and unmistakeable advantages and benefits of reciprocity, these, too, are within their reach.

EDITORIAL NOTES.

Our readers will welcome the cable arnouncing that John Bright is out of danger.

Chief Justice Galt and President Wilson

12 per cent. of lime.

The chief service of lime is to add weight.

The chief service of lime are proposed to of Toronto university have been knighted

T. M. Nairn, M.P.P. for East Elgin, died auddenly at his home at Aylmer, Friday morning as 7 o'clock from heart disease. He was in good health and his death was wholly unexpected. Mr. Nairn was 58 years of age and was a liberal in politics.

Hon. Mr. Drury, the new minister of agriculture, has made arrangements for an extended tour over Ontario during the month of June, when he will address farmers' institutes on matters pertaining to practical ferming. Dairy practice will come in for a large share of attention. Re will be accompanied by Prof. Robertson of the Guelph agriculture college, an eminent authority on cheese and butter making.

The Emperor Frederick has moved to his favorite palace at Potedam and is daily improving in health. The doctors are now disposed to state that the disease is not cancer. Reports of disagreement with Bismarck and of a ministerial crisis are again coming across the cable. The emagain coming across the cable. The emperor has decidedly liberal tendencies, and de ires to give the propie actual representative government. This policy is atrongly opposed by Bismarck.

The Dominion government have issued as order-in-council annulling the Scott act in counties where it has been repealed by the votes of the prople. It is under, stood the provincial government will issue licenses in these counties. It will be more astisfactory in the interests of order and temperative to have the Crooks license act enforced at once than to have the Scott act practically a dead letter as

The Mail says: "The Scott act amend ment bill, as introduced by Mr. Jamieson. gave the officers of the law power to search for liquers in South act counties. With its usual foresight the senste added to sure, indeed, that they will—and we hope they will carry away with them many agreeable impressions and pleasant memories.

By section 13 of the amending act the words, "in the day time." The important words, "in the day time." The senate is over-careful in the matter of itlest figure vendors. The customs bill passed earlies the assistant placed electric desirant the power clothed customs efficiently and the power contents the customs and pleasant words, "in the day time." The senate is over-careful in the matter of itlest figure vendors. The customs bill passed earlies the customs with the power clothed customs efficiently and the customs and pleasant words, "in the day time." The senate is over-careful in the matter of itlest figure vendors. to break toto the president of merchan in present of sunspired or undervalue meds of any three job day or night and their beauty per mething extraordi-ory in this providen."

The second series of county cattle fairs will commence on the second Tuesday is July. The places and dates should be gain advertised in the county papers. Liberal advertising will be necessary to give these fairs a good start, and the county council s special committee would do well to call for a larger grant for that purpose.

The double-train service on the Victoria is a great convenience to the people of the back country and to those at the front. A strong effort is being made to secure a similer service on the Coboconk-Lindsay division, and it is to be hoped it will be successful. The people are entitled to as good accommodation as they got from the Nipissing railway.

The C. P. R. land grant loan of \$15 000,000 and interest guaranteed by the Dominion government, has been firsted by the Barings in London at 95. It was given a splendid reception, several times the required amount being sub-cribed. The stock is now 4 or 5 per cent, above premium. It is a remarkable and gratifying evidence of the high credit of Canada.

Peter X. in the Birlin Naws nominates his "good-looking young friend, Tom Daley of Brandou" for minister of the interior. If good looks is to be the prime requisite the "old man" should call Peter X to the treasury benches. He is a bionde, while Mr. Daley is a brunette; and the ladies would enthusia-tically support the Berlin Adon's. It is strange Sir John has not ere this called our cotem to the cabinet,

Mr. Ephraim C. Young of Minden, who has been for some time managing his brother's business at Haliburton village, has been appointed registrar of Haliburton county. This is an excellent and satisfactory appointment. Mr. Young will make a competent and popular registrar. We were not aware Mr. Young was an applicant, and while we held Mr. Noice's case deserved special consideration, under the circumstances mentioned, there is no cause for diseati-faction at the selection made.
We must congratulate the people of Half-burton on the improved situation. The change should have been made long ago.

DANGEROUS FOOD ADULTER-

The Fraudulent Use of Alum and Lime in Cheap Baking Powders.

If consumers prefer to buy an adulterated article of food because it can be had at a lower price, they undoubtedly have the the way. The matter was brought to the right to do so, provided the adulterants are not of a character injurious to health. If such articles are not falsely sold as pure, sion by Mr. John A. Barron and Senator and the customer is not deceived as to Cochrane; Sir Charles wrote to the their real character, the transaction is not

classing such goods as pure. This is almost invariably done when the adulterant stance, manufacturers of alum and lime public of the real character of their goods, but carefully conceal the fact that they are made from these poisonous articles. Most of these manufacturers also claim that their articles are pure and wholesome. while some go still further and proclaim boldly that they are cream of tartar goods, or even the genuine Royal Baking Powder itself. No consumer will buy alum baking powders knowingly, for it is well understood that they are detrimental to health. The sale of lime and alum baking powders as pure and wholesome articles is, therefore, criminal, and it is satisfactory to notice that several persons engaged in such sale have already been brought to justice in the courts

The official analysts have recently been active in the pursuit of these dishonest articles. The baking powders of several States have been carefully and critically examined The officials are surprised at the large amount of lime and alum goods found. It is a suggestive fact that no baking powder except the Royal has been found without either lime or alum, and many contain both. Dr Price's baking powder has been found to contain nearly 12 per cent of lime; Cleveland's 11 per cent. of impurities; the phosphate powders over

It is true that lime, when subjected to heat, gives off a certain amount of carbonic acid gas, but a quick-lime is left-a caustic of most powerful nature A small quantity of dry lime upon the tongue, or in the eye, produces painful effects; how much eye, produces painful effects; how much more serious must these effects be on the delicate membranes of the stomach, intestines and kidneys, more particularly of infants and children, and especially when the lime is taken into the system day after day, and with almost every meal This is said by physicians to be one of the causes of indigestion dyspen. be one of the causes of indigestion, dyspep sia, and those painful diseases of the kid

sia, and those painful diseases of the kidneys now so prevalent.

Adulteration with lime is quite as much to be dreaded as with alum, which has heretofore received he most emphatic condemnation from food analysts, physicians and chemists, for the reason that while alum may be partially dissolved by the heat of baking it is impossible to destroy or change the nature of the lime so that the entire amount in the baking powder passes, with all its injurious properties. passes, with all its injurious properties, into the stomach.

customers calling for baking powders upon all occasions. Because of their well-known detrimental character it is desirable that prompt means be taken to suppress their

aids to the cook in preparing perfect and wholesome food. While those are to be obtained of well-established reputation, like the Royal, of whose purity there has never been a question, it is proper to avoid
