LINDSAY, FRIDAY, JULY 13, 1888. CIRCULATION 4,356. GRAND LIBERAL VICTORY.

The grand liberal victory in Manitoba, the utter annihilation of the tory party in that province, is a condemnation of Sir John Macdonald much more severe than it is of poor Norquay.

THE TARIFF ISSUE.

It is contended that the proposed tariff reform advocated by the democrats and President Cleveland will alienate many of the laboring class votes.

forests and tax the people to pay for it! Is there a man of sense in New England who believes that the country as a whole will endorse that sort of protection?

MR. BARRON AND NORTE VICTORIA.

Mr. Barron has had a most cordial and gratifying reception from his constituents at the series of meetings last week and this week as announced in THE POST.

The hearty reception accorded Mr. Barron shows amongst other things that the persistent and disreputable efforts of the Warder to belittle and undermine him have completely failed.

BLANDERING THE CONFERENCE.

A very grave charge has been brought against the Methodist conference that recently met in this town, and a charge that the authorities of that conference should investigate.

W. E. Gillespie, The Clothier, is the place to get your boys a nice Suit of Clothes. He has an immense stock of Boys' Clothing, and he sells cheaper than the cheapest.

EDITORIAL NOTES.

Mr. Donald McMaster did not even obtain leave to appeal to the privy council in the Glasgow election case, their lordships holding that the decisions of the Canadian courts in these matters must be final.

There are seven vacant seats in the commons and six in the senate. The writ for Cardwell has not yet been issued.

Mr. Rhodes, a South African colonist, has contributed \$30,000 to the nationalist cause, and Mr. Parnell in a letter of acknowledgment, advocates the retention of the Irish members in the imperial parliament.

The Mail's view of a question now agitating Millbrook, and referred to elsewhere, is one that should be adopted: "The bell of the little Catholic church at Frog Lake is missing, and the authorities suspect that, after the rebellion, it was taken away in some mysterious manner to the tower of the Millbrook fire hall."

The Philadelphia Record says: "Very few people can be frightened nowadays by the cry of 'free trade.' There never can be free trade while government revenues shall be raised by a tariff on imports, and the only question to be considered is: Shall necessary revenue reduction be made by lowering the tariff rates to 40 per cent. or by raising them to a point that will be practically prohibitory of many imports?"

The Peterboro Examiner says: "Canada is enjoying at the present time a plethora of riches—the Dominion has a surplus of about fourteen millions. The sum of twenty millions was borrowed when there were only five millions needed and consequently there is money going a begging."

The well-informed London correspondent of the New York Times in his Sunday cable reviews the extraordinary activity of the Tories during the past week against Gladstone and Parnell, and concludes: "After all the smoke has cleared away, however, it is difficult to see that any substantial advantage has been gained."

R. V. Oscar C. McCulloch of Indianapolis read a paper before the convention of charities and corrections in Buffalo on a study of social degradation, in which he shows the condition of thirty families through five generations, embracing 1,022 persons, which, with the startling facts of hereditary crime, is worthy of the most careful reading.

THE MANITOBA ELECTIONS.

Eleven Liberals Returned by Acclamation—The Tories Annihilated—Only Four Tories Returned. WINNIPEG, July 11.—There was not very much stir either in Winnipeg or in the country districts to-day over the general election. Everybody knew in advance what the result would be.

THE CONSERVATIVE PARTY ANNIHILATED. The elections to-day resulted in a perfect Waterloo for the conservative party of this province. At the time of writing it seems probable that but two or three candidates of that party have been returned; in fact at present Mr. Roger Marlon, St. Boniface, return is assured, and he has but a trifling majority. It is said that Mr. Norquay himself has been defeated by a majority of 15.
