LINDSAY, FRIDAY, OCT. 5, 1888. SOME FARMING TOPICS.

A Losson from the Drought.

Prof. Robertson of the Guelph agricultural college contributes a short paper to the Live Stock Journal giving "A Lesson from the Drought," in connection with the operations of the Ontario creamery, which may prove useful to our farmer readers. Prof. Robertson says: "In our own case, 20 common grade

milking cows (to be more heard of hereafter) have been kept in good heart on 20 acres of fair pasture, with the supplemen-tary feed furnished by half an acre of ats and peas and half an acre of mainnoth southern sweet corn. I fully expect to winter from November until May -20 head of milking cows, as far as folder is required, on the product of seven acres of ensilage corn.

"The winter is going to be a trying one on cattle and profits; but if its threatened disasters, which in some sections have been already too intensely realized, do but awaken the stockmen and eneral farmers of Ontario to a prudent f preparation for the future, the osses will have brought equivalent comensation. In the evolution of the intelgence, judgment and prudence of men, dure will not be baffled, though in her per stence she may seem occasionally

Prize Kesay on Shoop Maising, by John Adams, Ambleside.

providen is asked, Is sheep raising resitable in the Dominion? One of the ist questions to be asked is, what does tost to keep sheep, and what can be shown in profit at the end of the year? a order to do so, please allow me to subit the following memorandum, and I bould like to hear from farmers and ask hem to criticise my figures freely :-

first, then, there is the cost of five butchers owes at. say, when year-lings, 87 per head. \$35 00 Rent of one acre good grass land for sum-Rest and expenses in procuring one ac-e

of goot oats and poas, cut into chaff for winter feed, all fed together, with perhaps the addition of a little straw once a day, 8ay .....

with foal by side; H. Southern, a span of mares; John Munro, a brood mare and foal; P. ter Cameron, a brood mare and foal; J. McEachern, a stallion; R. C. Webster, a two-year old colt; Ben. Burtchell, a brood mare and foal; J.S. Haygarth, a two-year old colt; J. Haygarth, a two-year old colt; J. S. Haygart 78 fair average of seven lamba from 3 00 year old colt; R. McEschera, two brood

mares with foals by side, a two year old colt and a year old colt; Geo. Taylor, a brood mare with foal by side; Jas. Park, a span of marer; Peter Cameror, a brood mare and foal; W. H. Myers, a year old colt. mare and roat; W. H. Myers, a year old col; E. Lytte, a brood mare and foal, and a year old col; Joseph Free, a foal of 1888; D. McEacnern, a brood mare and foal, and a two-year old col; Neil Brown, a brood mare and foal; and a two-year old col; Neil Brown, a brood mare and foal; Rid McKenzie, a span of horses; Wm. McKenzie a span of as more than my dinner, but don't hit mares.

I un gate satisfied that there is a large showed a team of the drivers and a broad Statity of hand in Ontario and Quebec | old colt; W. H. Johnston, a saddle horse; Jos. Fee, a span of mares, a two-year old colt and a saddle horse; F. McEachern, a saddle horse; h. McKerzie, a saddle horse; H. Reid, a two-year old colt; John Cuaningham, a span of drivers; W. J. Cowan, a single driver; W. McKerzie, a cold colt; John Cuaningham, a span of drivers; W. J. Cowan, a single driver; W. McKerzie, a cold colt; John Cuaningham, a span of drivers; W. J. Cowan, a single driver; W. J. Co This she pand fatten them also. If I can be described as the same and McRae, a span of mares; J. H. Cavana, a saddle mar; Ja4. McKsy, a stallion in harness and a brood mare and foal, also a mare in harness; M. Perry; a brood mare and foal; W. R. Cavana, a brood mare and foal; W. R. Cavana, a brood mare and foal and a two year old colt; Wm. Magninis, a span of horses; W. A. Fanning, a single driver in harness; Peter Ferguson, a saddle hors; W. A. Ross, a stallion in harness; A. E. Stabback, a brood mare and foal. harness; A. E. Stabback, a brood mare and feeld, unless there are hollows which don't require manuring. Should put not have sheep enough purchase a bird of twelve excellent breeding. Mr. J. H. Carnegue showing a bird of kamber they will pay handsomely, and will be ready and fat in the fall to sell. Then after a light plowing in the fall, sow the hand with barley, or peas and outs the following spring and seed down with clover. It is really surprising what can be accomplished on a poor worn what can be accomplished on a poor worn

ELL

Jamieson being among the most prominent ones.

The display of sheep was large. In Leicesters Measrs. Christian, Greenaway, Cameron and Lytle made a large showing. In Cotswolds Messars. Laidlaw, Blanchard and Dixon exhibited. In fine wool sheep Messrs. Carneigia and Laidlaw had a monopoly. In hogs the display was in I usually large. In Berkshire. Dennis Hawkins was to the front, as were also Messrs. McEachern and Greenaway. In Suffolks Thos, Greenaway was the chief exhibitor. In fowls there was a large number of entries, Messrs. Hawkins and Laidlaw being large exhibitors. out farm after five years proper sheep In order to make sheep farming more Profitable, cheap land is wanted, so that Jou can get a large run with large flocks, the interest on capital would be less. The export of the Dominion could be largely increased in a very short time by changing the system of farming in many portions of our country. I am satisfied that at least \$5,000,000 annually would soon be add at 15,000,000 annually would so 15,000,000 annually would so 15,000,000 annually would so 15,000,000 annually soon be added to our exports by sheep farming on some worn out lands that I

being large exhibitors.

The inside exhibits were far in excess of former years, and we believe the grain and rocts equalled any we have ever seen.

The exhibition of ladies' work was come seen in Ontario and Quebec; and t sandy learns, and thin, stony, grav-

Children Cry for Pitcher's Castoria.

elly, rocky sections of the country, which will produce grass and coarse grains when cleared and reclaimed.

The large ranges of land north of this place, Muskoka, Haliburton, Kinmount and Bobcaygeon districts, are admirably and Bobcaygeon districts, are admirably adapted for sheep raising, and those lands can be procured very cheaply. A young man with pluck and energy could soon make money, and if of good business habits, with a good head, could in time become rich by raising Down sheep, which breed is the best adapted for such a country. There is also a large acreage of lands on the shores of Lake Erie, and in other parts of the Dominion, that could other parts of the Dominion, that could

the far west?

the year round.

tude 45 °

And now, without offending anyone,

suppose it is right for me to say which breeds of sheep I should recommend. My answer is, study the American requirements. Indeed, we have already antici-

pated their wants and tastes, and there

is no breed which we have to excel the

various breeds of the Downs. They are

hardy, plump, lean meat producing sheep.

Ther carcass is the best selling meat in any market, and their wool is so well

adapted for the inhabitants of this hemis-

phere, where so much flannel is used all

There is another favorable considera-

tion which should be taken into account,

viz., that this province in particular is the best sheep breeding ground on this continent, so that in the future, as in the

past, we can drive a greater profit than I

have shown in supplying pure bred, healthy breeding sheep to our own kins-men to the east and west of us, and to

our gallant cousins residing south of lati-

be made profitable by a proper system of sheep farming, which now produce very little to add to our exports. SPEEDING IN THE RING. The speeding in the ring was one of the great attractions of the show. In the open Now, what are our future prospects for race a splendid exhibition was given. There were four entries: Black Diamond owned by Wm. McRae, Beaverton; Dolly Wilson, by Jas. Wilson, Manvers; Maid of the Mist, by Jas. McKey, Victoria Road; and Billy Mack, by W. McArthur, Fenelon Falls. This was a spirited race, as Black Diamond and Dolly Wilson were very evenly matched. It resulted as follows: profitable sheep raising? I say excellent, if we can only get a free market for our wool, lambs and mutton at our American neighbors south of us. The people of American cities and manufacturing centres are largely increasing their consumption of lambs and mutton. It is really surprising to see the vast numbers slaught ered and consumed in those populous centres, and Canadian lambs from three months to nine months old have almost an unlimited demand in their markets, if we could only get into them free of duty. In December, January and February nine month lambs when fat readily find customers from \$6 to \$7 each. What can a

three entries: June Flower, owned by Wm. Routley; Phil Rysdyk, by Jas. McKey; and Diamond II. by Alex. Fraser.

The result was as follows: farmer raise to pay so well at so small a cost of labor and first outlay in so short a

"Knot ready," said the sheriff at a hanging. "Not ready," echoed the criminal, and down he went. A Dream of Fair Women.

Tennyson in his exquisite poem, dreams of a long procession of lovely women of ages past. This is all very well, but the laurente would have done the world a greater service if he had only told the women of the present how they could improve their health and enhance their charms. This he might easily have done by recommending the use of Dr. Pierce's Favorite Prescription. Health is the best friend of beauty, and the innumerable ills to which women are peculiarly subject, its worse enemies. Long experience has proven that the health of womankind and the "Favorite Prescription" walk hand in hand, and are inseparable. It is the only medicine for women, sold by druggists, under a positive guarantee from the manufacturers, that it will give satisfaction in every case, or money will be refunded. This guarantee has been printed on the bettle-wrapper, and faithfully carried out for many years.—17-1.

Dullard-Do you know women love to see them-selves in print? Brightly-They ought to be encour-aged, my boy; it is a precious sight cheaper than silk,
