

The idea of selling Dry Goods after the order of a gypsey horse trading must go. Common sense and high business morals are against it.

Fancy names don't make wool. We believe you are after an honest dollar's worth. What is the use of paying a price for an article that you have to guess at for quality. Many stores may tell you there is nothing in it; that you don't need to know what the goods are. We don't.

But you do the unanswerable argument, for it is that you are buying blindly and can't tell whether you are paying too much unless you get that knowledge; would you purchase a pocket-

Insist on knowing whether the Dress Goods, Clothing, or whatever article you are buying is all wool or not. We adopt the better way and meet you on the threshold and tell you without waiting to be asked. Our guarantee protects you that the price is the lowest.

In Dress Goods we invite inspection. We guarantee to sell you the newest Goods at the lowest prices that good reliable Goods can be sold for.

We cannot give you a gold dollar for ninetyfive cents, neither can the riff-raff bankrupt sales, but we will give you an honest dollar's worth for

The Kirkieid team played in hard luck, as their pitcher, Mr. McCres, had a very sore arm, which in all probability accounts for the loss of the game. Kirkield won the toss and went to the bat first. THE CITY STORE SYNDICATE

OUR DEPARTMENTS ARE

Goods, Millinery, Clothing, Merchant Tailors, LADIES' AND GENTS' FURS, &c.

A FEW WORDS TO THE MEN FOLKS.

Come Let Us Reason Together.

There is a difference between shopping and merely buying. Ladies do the former before making a purchase. They go from store to store, inspect all the various stocks, compare the prices, and finally choose what they think is the best article at the lowest price. But men, when they want anything, go to one place only, and if what they want is to be had there, and the price anyway reasonable they buy it without more ado. The natural consequence of the state of things is that ladies know the comparative prices selling at different stores far better than men do.

Now just sak any lady in your family, your wife, your sister, or your daughter; or your Mother in-law, to name the store she has found most reasonable in its price. The chances are ten to one that she will name THE CITY STORE, and then consider whether it isn't reasonable to suppose that the house which as a rule undersells its competitors in ladies' goods cannot do the same in regard to your purchases, especially when one of the firm who is a practical cutter presides at the head of the department and gives it his undivided attention. The truth is, you habitually nay from 15 to 25 per cent. tion. The truth is, you habitually pay from 15 to 25 per cent. more for your clothing, &c., than there is any necessity to do. Come to us and we will prove it.

For instance. Owing to this backward season we have succeeded in buying 300 pieces of Tweeds, Suitings and Pantings, all this importations at a discount of 50 per cent, and are giving our patrons the benefit. People who are judges say this is the greatest Clothing Carnival ever offered.

Paste the above in the north-west quarter, sec. 4, range 3, of your hat, where you will be sure to have it pinned to your memory, and the first time you are in town come to the CITY STORE if you have to stand on your head or burst a suspender to get there, and we will stick to our promise and save your money if it takes the plaster off the ceiling. And don't forget us when you want a new Hat, Collar, Tie, Shirt, Umbrella, &c.
