MUNICIPAL MATTERS.—We noticed our

worthy councillor Mr. John Vance out

letting jobs the other day. If the councilmen of former years had been as economical (not miserly, be it remembered) as John cal (not miserly, be it remembered) as John our township would have been much improved and spoken of more highly by the travelling public. Since Mr. Vance has been a representative at the council he has taken a deep interest in municipal matters and worked to the township's welfare conscientiously. In his own ward he has expended considerable money this year, but every dollar shows its value in the work done; and had he neglected doing it, or at least part of it, as some shallow-minded, empty-brained, insignificant spectres thought he should, and save part of the money for next year. But any person of money for next year. But any person of common sense knows it would take double the amount in the spring, as the wash would have double advantage in its work. There is a saving of money and time by a man knowing how, where and when to do man knowing how, where and when to do a work. Such forethought as this should be noted by the ratepavers of each municipality, and their influence used when needed for such men.

cupied by J. R. Harwood. MUNICIPAL MATTERS. - Although the new year is almost here not much stir is yet felt in municipal affairs. Mr. William Pherson, for a number of years our who will be our next reeve is the question Rumour sayeth that Adam Dobson, junr., and J. T. V. May will trot a heat for the position, in which case matters will be in-teresting, as both are good men and being young will no doubt throw a good deal of vim into the contest. Our own opinion is that at the last moment a dark horse will appear and that the fight will be triangular

out that Adam will get there in good Notes.-Prices for grain have gone down

out of sight, but still it pours in.

ELECTRIC LIGHT.—The darkness of our streets at night is a disgrace to the town and to the council, some members of which pledged themselves at the nomination to give us a "cheap system of street lighting" but this like most election promises was made to be broken. We should go in for
