CANNINGTON.

BIG THRESHING.—Messre, Hainstick & Co. threshed on the farm of Mr. John Edwards, lot 10, con. 11, (near Derryville) last week, 1,000 bushels of spring wheat in nine hours. Also four bushels of oats in one minute. This is very rapid theshing and we are very doubtful if it has ever been equalled before in this neighborhood. The 1,000 bushels of wheat was grown on 35 acres, which shows that Mr. Edward's farm is well cultivated.—[Gleaner. BEAVERTON. A PITIABLE CASE.—One of the most piti-

able cases under our notice was that of Andrew Anderson, who died on Tuesday. For upwards of nine years he has been completely helpless save the power to open his mouth for food, and a more distressing sight than a onceifine vigorous mar brought to this condition could not be well concein. to this condition could not be well con ed. At one time he was possessed of ex-tensive means. Drink and its attendant abuses brought about this condition, thus adding another to the long list of its victims and an example of its misery.—[Ex-

MIDLAND.

THE OATSWINDLE .- Men working what is known as the "oat scheme" have been in the vicinity of Midland lately, with what success we have not learned, but understand that they have managed to get a couple of the residents to work with them in "taking in" the farmers. The scheme is something of this nature: seed eats are sold at \$10 per bushel, the sellers agreeing to purchase the return therefrom ment of the Rev. R. W. E. Greene to the incumbency of the parish of St. James's, Ordina, has proved very generally acceptance. next year at the same rate and 25 per cent. for their trouble. Having disposed of the seed oats at this high figure, the work of the men is at an end; they never turn up again. Let our farmers give the tramps a wide berth.—[Free Press.

LEGAL.—One of the firm of Barron & Campbell, barristers of Lindsay, will be at Woodwille to do business on the first and third Thursday in every month. Money to Loan at lowest current rates. 70-cow-tf.

Prespytery Meeting.—The presbytery of Lindany met at Woodville on November 27th, 1888. There were present eleven ministers and seven elders. The principal items of business were a call from St. Andrew's church, Scott and Unridge, to Rev. A. W. Campbell of Queensville, Torento presbytery, sustained. A call to the Rev. E Cockburn, M.A., of Unbridge, from St. Andrew's con-regation, Orangeville, was taken up and Unbridge congregation cited to appear next meeting. Rev. Arch. Currie, M.A., gave in his resignation of the pastoral charge of Brock and Mauilla, who

SHOOTING MATCH—A shooting match between Janetville and Lifford came off on Monday, Nov. 19 h, under the captaincy of W. Rainbird and J. McKee. Although the early part of the day was unfavorable, being wet, a goodly number salited forth in quest of "marks." When the shades of evening began to fall each sportsman repaired to headquarters (Lifford temperance hall) to report success, where it was found the Lifford boys had a majority of 1,583 points. Although the victory was a decisive one, the Janetville boys did very good shooting, tallying upwards of 4,000 marks, and had the opposing side limited their efforts to one day only, we would not be so rash as to predict the result. However, the forfeit was an oyster supper, and right heartly was it consumed. The even ing program consisted of step dances, songe, comic readings, etc.

LEG BROKEN.—Mr. Alex. Cairns has had the minfortune to break his leg. It was LIFFORD.

the DEOKEN.—Mr. Alex. Cairns has had the misfortune to break his leg. It was only last fall that Mr. Cairns broke the sameteg in jumping from a waggon. Mr. Mc-Kinley volunteered to bring the doctor, when on the return trip his buggy broke, threw him out, and shook him up considerably, but happily doing no other damages.

PETERBORO.

OBITUARY.—Mr. Matthew Bell, one of the oldest settlers in this section, died very suddenly Wednesday afternoon. He lived in Smith township, and was known throughout the county and highly respected. He came to Peterboro county about 65 years ago with his parents, and was in the sixty-eighth year of his life when he died. The deceased gentleman had been as well as usual and was sitting in his arm chair after having eaten his dinner, when the hand of death was placed upon him. He was an uncle of Mr. F. J. Bell, division court clerk at Peterboro.

ONE MORE VOTER WANTED.—Port Perry will lose her deputy reeve for 1889, as the examination by the county judge discloses the curious fact that one more voter is needed to make the necessary number—five hundred—according to the recent amendment of the municipal act, to entitle a village to elect such an officer.

Well Provided with Grand-Parents.—The christening of Edna Louise, daughter of Mr. and Mrs. C. E. Marquis, on Tuesday, was superintended by two greatgrandmothers, two grandmothers and two grandfathers. It seldom happens that four generations of each family is represented at a christening.—[Pickering News.

Building Boom in Weitby.—This season has been the liveliest known for years to the building trade of Whitby. New houses and renovations amounting to upwards of \$26,000 in value have been built or are under way. Contractors have also done a larger outside business than usual of which the very fine new school at Pickering as well as the Ontario bank premises there, the big Williams' piano factory in Oshawa and the handsome public school now under way in Bowmanville, are worthy of mention and will aggregate over \$50,000. Houses are scarce here and more will be built next year.

\$50,000. Houses are scarce here and more will be built next year.

Dangerous Kick.—A report reaches us that on Monday afternoon Mr. James I. Davidson, lot 1, 8th con. of Pickering, met with a bad accident. It seems he was kicked over the region of the heart by a colt, sustaining severe internal injuries. Medical assistance was summoned, and it is said his recovery is doubtful.—[News.—Action for Damages.—Last January Mr. J. McCollough of Goodwood sued Mr. Geo. Field of the same place for \$10,000 for defamation of character and was awarded damages. An appeal was put in by the defendant and the case was taken to a higher court, where last week judgment was again given in favor of the plaintiff.

ORILLIA.

THE NEW INCUMBENT. — The appointment of the Rev. R. W. E. Greene to the incumbency of the parish of St. James's, Orillia, has proved very generally acceptable. Not only was Mr. Greene known as a successful clergyman, but it was peculiarly pleasing to our townspeople that in Mrs. Greene he had an help meet indeed for him in parish work, and a lady intimately connected with Orillia, her grand-parents being well-known and highly respected pioneers of this town.—[Packet. neers of this town.—[Packet.
THE DROWNING OF MISS ROOKE.—On

skating home from Ardtrea, approached the spot. A few minutes later Mesers. Frank Winters, Thomas Hughes and Frank Stewart observed the man in the water and came up. They threw a board to Mr. McPhee, who was too much exhausted to get on the search of the McPhee, who was too much exhausted to get on to it, so a rail was pushed to him, and he was directed to lean across it. A hoat was brought from shore, and Mr. Winters skated up with it till the ice broke, then sprang into it, and so reached the drowning man. The boat was pulled in to where the ice would bear, and Mr. McPhee, who lost consciousness when drawn into the boat, taken to Mr. Lehmann's house. He was so thoroughly exhausted that it was not until his rescuers had worked some two hours that he recov-

mann's house. He was so thoroughly exhausted that it was not until his rescuers had worked some two hours that he recovered sufficiently to relate what had happened. It was only then they learned that a young lady had been with him. The body was recovered about eleven o'clock that night. Miss Rooke was well educated, and highly esteemed. She came out from England last summer, and has been keeping house for the father and brother, who had come some months previously to prepare a home, to which the mother and the remainder of the tamily were to come shortly. Mr. Rooke has the heartfelt sympathy of the community, in his terrible be, reavement, and every one feels, too, for the poor mother who will have such a sad home coming to our land. Deceased was twenty-two years of age, and a member of the Congregational church, but attended the Methodist church here. She was a communicant, and the Rev. Mr. Manning states, an exceptionally godly young lady. An acquaintance of here, writing to this office, says:—" Miss Rooke impressed me strongly, by a genial warmth of manner, and an unusually pleaseant address. Bright and cheerful in disposition, the blow to the porents is heavy indeed, while the loss of such an influence over the young by there is greatly to be deplaced.—[Packet.]

PRESIDENT CLEVELAND TO CONGRESS.

of the recommendation of the officials. omitted in the last annual message are treated very fully, but the president does not neglect the great issue which was the only one referred to a year ago.

AMERICAN DEVELOPMENT. He begins by reminding congress that the close of the present session marks the completion of a century of constitutional government in this nation. He contrasts the simplicity of a century ago with the rapid growth and the vast accumulations of individual wealth of the present. He of individual wealth of the present. He does not look upon the prospect of future progress at the present rate with entire hopefulness. "A crowded and constantly increasing urban population," he says, "suggests the impoverishment of rural sections and discontent with agricultural pursuits," and continuing this line of discussion Mr. Cleveland continues: "We discover that the fortunes realized by our manufacturers are no longer solely the reward of sturdy industry and enlightened foresight, but they result from the discriminating favor of the government and are largely built upon undue

EXACTIONS FROM THE MASSES of our people. The gulf between employers and the employed is constantly widening and classes are rapidly forming, one comprising the very rich and powerful, while in another are found the toiling poor. while in another are found the toiling poor.
As we viewed the achievements of aggregated capital we discovered the existence of trusts, combinations and monopolies.
While the citizen is struggling far in, the rear or is trampled to death beneath an iron heel, corperations, which should be the carefully restrained creatures of the law and the servants of the people, are fast becoming the people's masters. EVILS OF HIGH TARIFF.

Congratulating ourselves upon the wealth and prosperity of our country and complacently contemplating every incident of change inseparable from these conditions, it is our duty as patriotic citizens to inquire at the present stage of our progress, how the bond of the government made with the people has been kept and performed. Instead of limiting the tribute drawn from our citizens to the necessities of its economical administration, the government persists in exacting from the substance of the people millions which, unapplied and useless, lie dormant in its treasury. This flagrant injustice and breach of faith and obligations add to extortion the danger attending the diversion of the currency of the country from the legitimate channels of business. Under the same laws by which these results are produced the government permits many millions more to be added to the cost of the living of the people and to be taken from our consumers which add not reasonably to the profits of a small but powerful minority of the people for the support of the government under the operation of tariff laws, but to the extent that the mass of citizens are inordinately burdened beyond any useful public purpose, and for the benefit of placently contemplating every incident of

A FAVORED FEW. The government, under pretext of an exercise of its taxing powers, enters gratuitously into partnership with those favorites to their advantage and to the injury of a vast majority of our people. This is not equality before the law. The existing sitequanty before the law. The existing situation is injurious to the health of our entire body politic. It stifles in those for whose benefit it is permitted all patriotic love of country and substitutes in its place selfish greed and grasping avarice.

RECIPROCAL TRADE. As authorized by congress preliminary steps have been taken for the assemblage at this capital during the coming year of the representatives of South and Central American states, together with those of Mexico, Hayti and San Domingo to discuss sundry important monetary and commercial topics. Excepting in those cases where from reasons of contiguity of territory and the existence of a common border line incapable of being guarded reciprocal commercial treaties may be found expedient, it is believed that commercial policies inducing freer mutual exchange of products can be most advantageously as products can be most advantageously arranged by independent but co operative legislation. In the mode last mentioned the control of our taxation for revenue will be always retained in our own hands, unrestricted by conventional agreements with

THE CANADIAN FISHERIES.

There is no existing subject of dispute between the United States and any foreign power that is not susceptible of satisfactory adjustment by frank diplomatic treatment. Questions between Great Britain and the United States relating to the rights of American fishermen under treaty and international comity in the territorial waters of Canada and Newfoundland I regret to say are not yet satisfactorily adjusted. Comment upon or repetition of the contents of my various messages on this subject would be superfluous, and I am not aware that anything new has since am not aware that anything new has since occurred. I merely report, as applicable to the present time, the statement which will be found in my message to the senate of September 12th last, that since March 3rd, 1887, no case has been reported of unlawful or unfriendly treatment of American fishor untriendly treatment of American fishing vessels on the part of the Canadian authorities in which reparation was not promptly and satisfactorily obtained. Having essayed, in the discharge of my duty, to procure by negotiation the settlement of a long standing cause of dispute and to of a long standing cause of dispute and to remove a constant menace to the good relations of the two countries and continuing to be of opinion that the treaty of February last which failed to receive the approval of the senate did supply a satisfactory practical and final adjustment upon a basis honorable and just to both parties of this difficuit and vexed question and having subsequently and unavailingly recommended other legislation to congress which I hoped would suffice to meet the exigency created by the rejection of the treaty, I now again invoke the earnest and immediate attention of congress to the condition of this important question as it now stands before them and the country and for the settlement of which I am deeply solicitous.

The News and the Journal of Chicago carry on a war against cigarettee. The News has had a number of cigarettee of popular brands analyzed. The "amokers" were atripped of every distinguishing mark, each brand put in a separate box, the lid of which was inscribed with a letter, and the whole lot then handed over to a well-known chemist. He found that the cigarettee submitted were generally made of tobacco "imperfectly fermented," and that nearly all bad an unnatural proportion of insoluble ash, that several kinds were steeped in an injurious substance, and were impregnated with dirt in varying proportions.

Accordance.—Last Saturday evening John Martin, jr., son of Mr. John Martin of Verniam, broke his right leg a little above the ankle while he was "fooling" with his brother in the stable, Dr. Wilson was called, set the fractured limb, and left the patient in a comfortable condition.

Hem Fruir. — Mr. Ostrom, the well-known egg buyer of Peterboro, made his last trip to Fenelos for this season on Thursday. How many eggs Mr. Ostrom purchased in this village we do not know, but he Red store alone sold him \$2,000 worth. Last year he bought and shipped (chiefly to Boston) eggs to the value of \$100,000, and this year his business has been nearly or quite as large.

A GRATEFUL MEMBER.—The Peterboro Examiner says:—On 22nd October Mr. Wm. Collins, secretary of the agricultural society, sent Mr. J. D. Naylor of Fenelon Falls a cheque for \$41, the amount of his prize money. The cheque was made payable to order. It was never received by Mr. Naylor, and a strange circumstance is that about the same time another cheque sent him for ever \$400, fortunately payable to order, also went astray. Payment of the cheque was stopped here and a new one made out after a month's delay. This was the first instance of any of the society's cheques being lost. Mr. Naylor in a letter asks the society to retain \$3 as a veluntary subscription from him, and thanks the officers in warm terms for their kindness, fair treatment and gentlemanly conduct towards him on all occasions. Such words of commendation encourage the officers and show that their efforts to please are appreciated.

ALL ABOUT A ROOSTER.—On Saturday

Such words of commendation encourage the officers and show that their efforts to please are appreciated.

ALL ABOUT A ROOSTER.—On Saturday last four young men, sons of respectable and well-known farmers, were charged before Police Megistrate Deacon, who was brought all the way from Lindsay to preside at the trial, with having on the night of Wednesday, October 31st, feloniously appropriated sundry and various fowls, the property of Mr. David Logan of Verulam. It appeared from the evidence that they had taken a rooster from the hen house and purposely made it squawk, in order to attract the attention of Mr. Logan, who came out and chased them, when they dropped the rooster and ran away. The magistrate was of the opinion that there was no intention to steal, but the affair was simply a piece of Hallow E'en mischief, and let the defendants off upon their paving the costs which amounted to \$1.07 each. Besides this, they had to fee Mr. Barron, who defended them, and it is rumored that Mr. Logan himself spent about \$4 in averging the indignity offered to his rooster.—[Gazette.

Love

Is a disease, and may be properly diagnosed as an itching at the heart which cannot be scratched. Victims of unrequited love often have recourse to expedients for relief of a most dangerous nature. Victims of Liver Disease, Biliousness, Indigestion, Heartburn, Headache, Acidity of Stomach and Low Spirits need have no apprehension in having re-course to Cockle's Anti-bilious Pills, as they are ab-solutely free from deleterious ingredients, being a pure vegetable compound.
