A FINE THOROUGHBRED.—Joseph Magill is still to the fore. He has purchased a fine imported bull of the Crutkshank breed from the celebrated herd of J. I. Davidson of Pickering. The bull is one of the finest animals ever owned in this section. "Joe" is clearly not one of the "sponges" and "soft fools" the Warder tries to make him out to be.....He is a credit to the township and Manvers is proud of him.

CHURGE NOTES.—We hear that the new church at Eldon Station will be finished this week. The Rev. Dr. McTavish, late of Lindsay, has been asked to officiate at the dedication services which are to take place in January. An entertainment will take place about the same time. A good time is expected. Bills no doubt will be issued.

THE RINK.—Last night was one of activity at the skating rink, the managers taking
advantage of the cold spell to get the ice in
shape. The rink well running dry they had to
get the new fire engine on Thursday night and
pump water from the river, but when they came
to work it it was frozen up and took an hour
and a half to thaw (lucky it was not a fire), but
perseverance conquered all and they got the
rink flooded. Saturday night the rink opened
for a skate and was well attended. The band
was present and played with their old-time
vigor.

OAKWOOD.

Correspondence of The Post.]

Oakwood High School.—Our high school still flourishes and the members of the high school board are coming to a better state of feeling, and have all engaged heartily in the re-engagement of the present teachers. The attendance is good, with prospective names of additional scholars at the commencement of next term although the place is crowded now.

.... We may not have a decision on the debenture by-law till late in January or till the opening term of the court of appeals. In any case our school goes en, as it was not the school that was found fault with, but the antecluvian school house. I suppose in the whole history of educational movements there is no case similar to ours. Take a few instances of county council's work last winter. The county of York laid out a high school district for the township of Georgins, with a school at Sutton, with a population one-fifth of Mariposa; one in Aurora, although there has been one for a very long time in Newmarket, five miles distant, to be kept up by Aurora; and one for Parkdale, though it is surrounded by colleges.

WEDDING BELLS.—There were no less than three marriages of young men from our village last week. Mr. Frank Smallwood of this place was manied to Miss Bailey of Norland, eldest daughter of Mr. Warden Bailey, reeve of Laxton township...... At the residence of the bride's father here, by the Rev. James Curts, Mr. Nicholas Hill, one of our prosperous and pepular mechanics, was married to Miss Maria Coad, daughter of Mr. John Coad, one of the most successful and extensive farmers of the district. The marriage took place at three o'clock before a large assembly of friends and guests, and the happy couple went west for a trip before settling down in their well furnished home in this village. It is needless to say, as the bride is a general favorite here, that the presents were not only numerous but costly.
