LINDSAY, FRIDAY, MARCH 22, 1889. SACER JESU, CARE CHRISTE.

Sacred Jesu, Christ, who carest. Who a lorn world's burden bearest. We are lost, if thou despairest-Saylour, hear our cry! Loye unmeasured, Love untiring Cursed by souls of thy desiring. On the cross for man expiring-Suffering Saviour, hear our cry!

With thy wan brow's saddest seeming. And thy precious blood down-streaming-By thy thorn, thy nail, deep-driven By thy last wild cry to heaven, By rent veil, and tomb wide-riven, Suffering Saviour, hear our ory!

Bitter cup, and bloody passion, Utmost Love's sublime expression-Let them he for our salvation-Saviour, hear our cry! By the might that did retrieve thee. By the heaven that did receive thee Thou art God-and we believe thee-Suffering Saviour, hear our cry!

Sacred Jesu, Love ascended. Scorp, and cross, and conflict ended. High-enthroned, and angel-tended-Saviour, hear our org! Can resist thy lipe's weet pleading-Advocate, whose wounds are bleeding-Spotless Saviour, hear our cry!

Sacred Jesu, Christ, who carest, Still with us thy way thou farest, Still with us the cross thou bearest, Saviour, hear our cry! Drive our darkness, heal our pining. Lucent Star of Morning, shining, Jovous sun, no more declining. Glorious Saviour, hear our cry!

A SNARE IN A HORSE'S STOMACE.—Jas.
Thompson , who resides in the township of Methuen, county of Peterborough, has a horse that became sick and was in such distressing pain that he was about to end its misery with a rifle ball. Fearing the trouble might have arisen from bots or a some other cause of that nature, Mr. Thompson administered several doses of a strong medicine which seemed to alleviate the suffering, but to his great surprise he discovered that soon afterwards the animal had passed a yellow-bellied snake nine inches in length. The reptile was dead, but was evidently alive before the medicine was administered, and was the cause of the intense pain. It is possible that the horse while drinking swallowed the enake when it was small, and that it lodged in the stomach and thrived until the medicine was given, which killed it, and it afterwards passed out of the stomach with the food.

not know where abouts in this wide world Anticeh is situated, but it is a romantic Antioch is situated, but it is a romantic and thriving little spot amid the wilds of Muskoka, about five miles east of Grassmers, east of Huntsville. It is a very picturesque place, surrounded by little lakes, dotted with islands, and by lofty mountains (or rather hills and rocks). It is a beautiful summer resort for tourists. It furnishes all that is required to satisfy the desires of the pleasure sedkers. The lakes abound with the best of the finny tribes, and the forests likewise with all kinds of wild animals from the chipmunk to the moose-deer. As it is settled principally with people from Manvers and Cartwright it may be interesting to some of the people in those parts to hear from their oid-time friends.

Mr. Hart deserves credit for the talented manner in which he addresses the people in our weekly prayer meeting also.

SEVERS ACCIDENT.—Mr. Tunis Hart happened with a severe secident which almost proved fatal. It appears he was chopping a tree down and the tree in falling fell towards him instead of going the opposite direction, as he thought it would. He ran to eccape it, but in doing so his foot caught in some brush and he was unable to extricate it. The tree fell close behind him and when it rebounded it struck him on the back, consequently he is not able to walk withous the sid of crutches. In all probability he will not be able to go about independent of assistance for some mouths to some.

ADDRESS AND PRESENTATION.—Monday evening, March 4th, a party of about two hundred people assembled at the residence of Mr. E. D. McEachren, for several years reeve of Eldon and warden of the county of Victoria, and presented him with a handsome gold watch and chain valued at \$100.00 and the following address: We, your fellow citizens of Eldon, learning with profound regret of your intended departure from this your native township to reside in the northwestern parts of Canada's fair Dominion, cannot allow you to leave without showing, even in a slight degree, our esteem, respect and love for you. To bid good-bye to one whom for ten years his fellow-townsmen and neighbors have honored again and again by electing unanimously to the chief magistracy, the reeveship of his native township, must bring with it much depth of feeling; but, when coupled with the essential qualifications for chief magistrate, one finds high personal and social virtues and characteristics admirably blended the severance of the friendship is truly painful. These sterling qualifies, we are pleased to know, have also contended themselves to your fellow-citizens of the municipalities in Victoria county, and have won for you the election by fellow county councillors to the wardenship of the rich and which is named in honor of our sovereign lady, Victoria. On behalf of your many friends and admirers in Eldon and throughout Victoria we take great pleasure in requesting your acceptance of this gold watch and chain in case, hoping it may serve to recall to memory those friends from whom "you'l soon be far awa."

For your count, Master Archy Maipine, who reflects your bread training, we beg you to accept this gold ring in token of the exteem in which he is also held in the community where both were born. For yourself our parting wish bethat at an early date you may be led to re-ADDRESS AND PRESENTATION. - Monday

as to the practicability of putting up as agricultural hall this summer. The report was that the amount promised warranted the erection. This was announced as \$67 in each, 5,000 feet of logs for lumber, which can be sawed free, and conditionally shingles sufficient; also the silic of the building, which is to be \$0x24 feet, with an upper and lower storey. A good deal of outside feeling had been expressed as to the site, but the one chosen was arrived at with very little debating, and is the west side of Pine lake in a field on the estate of the late S. Whittaker, the drawback being that it can only be leased until the coming of age of the youngest child, eleven years hence, and then the society can either purchase the landor remove their building. The estimated requirements for the building were \$100 in money, 10,000 feet of lumber, 11,000 shingles. Most of the members will work at the erection free.

RESISTING THE BAILITY.—It is a serious matter to resist a bailiff in the discharge of his duty, as Mr. Wm. Hughes of Somerville can testify from his own experience. On Saturday last Mr. George Manning, bailiff of the division court, seized a span of horses on an execution against Geo. Hughes, who was living in the same house as his father, Wm. Hughes, and both of them resisted the seizure and prevented the bailiff from taking the horses away. Their contention was that the animals did not belong to the defendant; but Mr. Manning was not bound to accept their bars assertion to that effect; and as they used violence (though only sufficient to prevent him from doing his duty) he took out warrants for their arrest, which were placed in the hands of Constable Nevison, and on Monday he and the bailiff went out to the farm. The younger man had disappeared, but his father was brought to the Falls and taken before Mr. Dickson, J. P., who read the law, which says that any person guilty of assaulting a bailiff in the discharge of his duty or of rescuing or attempting to rescue any property seized by him, shall be fined any sum not exceeding \$20 and go to jail for any term not exceeding three months. The magistrate has no choice and is compelled to both fine and imprison the offender if the prosecutor insist; but as Mr. Hughes is a respectable man and pleaded that he did not know that he was acting illegally. Mr. Manning consented to withdraw the charge upon payment of the costs, \$4.90, and Mr. Hughes was of course glad to get off so easily. Mr. Manning, who was quite recently appointed bailiff ef the division court, says that he will not be as lenient in future cases as he was in the one above noticed, and that any person who henceforth interferes with him while he is performing the duties of his office will have to take the consequences. It is an easy matter to fight a balliff, especially if he isn't a big one; but no man is strong enough to fight the law.—[Gazette.]

A SEPARATE SCHOOL DIFFICULTY.—The greatest excitement prevails at Oshawa among Roman Catholic citizens in regard to separate school affairs. It appears that Rev. J. J. McEntee has been acting treasurer for the board for a number of years. When the new board was appointed this year they elected Mr. John O'Regan as treasurer. The rev. gentleman did not relish this, and became so indignant that he would not hand over the books or money to the newly-appointed treasurer. Later on an auditing committee was appointed by the board, who made a demand for the on an auditing committee was appointed by the board, who made a demand for the books and received them. After examining the books for 1898 to their horror they found a discrepancy. Affairs look in a bad way for the separate school, as a great number of the best supporters threaten to turn their taxes to the public school if matters are not soon remedied. The board have been meeting nearly once a week since the election and have not got past the election of treasurer, every meeting ending in an uproar. Vicar-General Rooney of Toronto was at Oshawa on Thursday evening to try and settle matters, but both school and church affairs are in such a bad state that he would not undertake the matter so close to the appointment of an archbishop. perusal of our readers, anticipating that in so doing some one will relieve us of the responsibility of answering "Subscriber's" questions. Here is the letter:

"My Dear Editor:—For several years I have been the recipient of several pamphlets issued from time to time by Messrs. H. H. Warner & Co., of Rochester, N. Y., which, in addition to containing an extensive treatise upon kidney disease, its origin, usual symptoms and growth, also includes numerous testimonials from parties whose fac simile signatures are attached thereto, attesting the statements that they have oeen individually relieved by the use of Warner's Safe Cure, which is prepared by the above firm, for the use of persons so afflicted. Now, Mr. Editor, I would like to know if the statements made by those parties who testify to the great good which Warner's Safe Cure has done them, can be relied upon. They seem homest enough from the way they read. "Warner's Safe Cure saved my life after the doctors had given me up," says John Doherty, 133 N. Main street, Concord, N. H. "I was given up to die with Bright's Disease of the kidneys. The doctors said they could do nothing for me. A friend advised me to take Warner's Safe Cure, and my family consider me as given back from the grave," says Mrs. Carrie A. Fry of Wathens, Kas. Dr. L. B. Rice, of Hanever C. H., Va., says that Warner's Safe Cure cured him of Bright's Disease."

It strikes me that there is a good deal of sense in the claim which those parties make that the doctors are treating too many persons for wrong causes, and that oftentimes, people are treated for conmake that the doctors are treating too many persons for wrong causes, and that oftentimes, people are treated for consemption, brain, heart and nervous disorders, when they are suffering from kildney disease which should be treated, as they asy, by the use of Warner's Safe Cure, and as a result, when disease is first removed therefrom, that which is supposed to be disease in the lungs or other organisms, will disappear. Many of my appairabless tall me that this remedy has done much good for them — more good than their dectors. If kidney disease is the real cause of so many other diseases why, Mr. Editor, don't the people who are afflicted with sickness, healst upon a more careful inquiry being main, in order that the true cause may be meartained, and the proper treatment given?
