YACHTING.—The Beaverion yachtsmen are anxious to hear from Barrie and Orilits sports of the same kind as to getting up a challenge cup (the cost of which to be equally divided between the three towns), to be won three times by the same boat before being finally disposed of. We think this a good idea. The only objection to Orillis joining is the amounts our boats won over there but never received. All contests should be carried out according to arrangement. Reliable men should be placed as managers. At any of our con-

tests here we have never yet failed to pay over the prizes wan by the one entitled to receive it, and we have been treated in a similar manner by our Barrie friends. We thought Orillia was more progressive. Probably the yachtsmen there only need reminding. We hope that is all.

DREDGING THE RIVER.—When is dredging the river to be commenced? We understood several weeks ago that Mr. Coste, the government engineer, was coming down to see the work started. It is time he was here. It may turn out to be a Coste-ly(!) job after all, although the government did grant \$2,000 towards it.

Thirteen pupils from our sentor department wrote on the entrance examination. We wish them success.

PICNIC. — Our annual picnic was held in McKenzie's grove on July 1st. It was a decided success, the proceeds amounting to over \$275. Early in the morning crowds of people might be seen entering Kirkfield from all directions and by noon over six hundred people had arrived in our village. A fine platform for dancing was constructed in the grove and was constructed in the grove and was constructed in the grove and was constantly occupied. From 1.30 p. m. until 3 p. m. an interesting game of baseball was played, after which a long program of sports was successfully carried out. The following are the prize winners:

### COMMERCIAL NEWS.

OFFICE OF THE CANADIAN POST, LINDSAY, July 11th, 1889. Business and Produce.

The crop prospects in this section were never better for a heavy yield in nearly all lines. The hot spell set in just in time, and everything is in splendid condition. Favorable conditions soon result in a grand harvest, and as prices are stiffening farmers are in good spirits. A big harvest with fair prices would give "good times" again. The heavy rain Wednesday evening did considerable damage to many fields. Crop reports all over the province are of the brightest character.

There has been a large rise in the prices of wheat and rye in Vienna and Buda-Pesth.

A New York special cablegram to the Mail gives an outline of the crop prospects in the United Kingdom. In England and Ireland the outlook is very bright; an all-round average of from ten to thirty per cent. increase on the average yield of the last twenty years is looked for. In Scotland the crops may be up to the average, but much depends on the weather for the next fortnight.

Toronto Live Stock Markets. There were 30 loade of live stock on the To-
