The Burke's Falls Arrow of Sept. 6th says:
"Mr. John A. Jackson, clerk and treasurer of the township of Eldon, gave us a call Wednesday. Yesterday he took a trip on the str. Mr. Taylor has been taken away in the prime of life. He was chosen to succeed his lamented father as reeve, and he discharged faithfully and well the public duties thus imposed on him. keep him on the jump. But he has no person but himself to blame. He will insist on manufacturing and keeping on hand the best furniture and on selling it at the lowest prices. This of course attracts customers to him in myriads and it keeps him on the move to supply their wants. His stock is so large, comprised in three extensive flats of his warerooms, that they know they will find what they require and that the price will be made right. These are the reasons for Belleghem baving such a large and daily increasing constituency of customers, and these are the reasons why those wanting first-class furniture should turn neither to the right nor the loft, but make a bee-line for Belleghem's, furniture shop furthest west on Hunter-st., Peterboro.—66-1.

Sturgeon Point Notes -Rev. Mr. Greener conducted service in the union church last Sabbath, and quite a large

congregation was present. In the afternoon a oible class meeting was held. —Several of the cottagers have "fitted" back to town, but the majority are still with us, and will remain while the Esturion continues the double trip, or until a break in the present fine

— Considerable improvements have been made during the past ten days by a gang of men under the direction of Mr. Porter. The road along the bank of the lake has been gravelled wherever the roots of trees appeared, and the change is decidedly conducive to the keeping of the commandments. Irenest, was also opened and partly cleared.

A bear has been prowling around the grain fields in this vicinity the past week, and even ventured as far as a cottage tenanted by two well-known bank officials, around which bruin smiffed for some time, to the great annoyance of the occupants. Next evening the cottage resembled an arsenal more than anything else, but his bearship came not.

Peterboro has started the "sea-serpent" fake. One was seen in Little lake. Something must be done to bring business to the town and enhance the price of corner lots. Now, let us hear from Cobourg and Port Hope.

—Mr. James McGinley, jun., of the east ward secured a booth at the Toronto fair, and is now in the city lending his personal supervision to the venture. The price paid seems steep, but Jim expects to realize a pretty penny out of it. Property owners on the north side of Queenst., east ward, have clubbed together and are having a drain dug along the fronts of their holdings in order to provide for better draining of cellars. For a wonder the council was not approached in the matter.

The Alice Ethel and barge went "below" Monday, being engaged to convey an excursion party from the railway terminus below Indian village to Bobesygeon on Tuesday. The attendance was large owing to the fine weather, and the beautiful scenery on Chemong and Pigeon lakes proved a surprise to the visitors.

- Monday evening the steamer Mary Ellen arrived in port from Lakefield, having on board a large party of ladies and gentlemen who had chartered the vessel for the round trip in order to become acquainted with the scenery of the upper lakes. The party remained in town all night and left for home Tuesday morning.

The excursion to Haliburton yesterday (Thursday) under the auspices of Lindsay lodge of Sons of England and Fenelon Falls brass band was very well attended, although only about sixty of our townspeople took the trip. Fenelon Falls turned out well, and the small stations added their quota. Everyone had heaps of fun.

The many friends and old-time customers of Mr. Alex. Melville will be pleased to learn that he is about to open out in the hat, cap and gents' furnishing line in his old stand, three doors east of the Daly house. In the handling of the above goods Mr. Melville has had years of experience—in fact it is safe to say that what Alex. don't know about a hat is not worth the trouble to acquire. Men hatted at M. ille's will be conspicuous among their fellow:

—The past three weeks has been ideal camping out weather, and a large number of townspeople have been taking advantage of it. Now that duck-shooting is on our town sports have a definite object, which they pursue with varying success. Ducks are reported to be scarcer than usual, and the man who brings down a brace or so is looked on with a degree of envy entirely out of proportion to the size of the birds. Duck shooting is mighty good sport, but shooting at ducks is mighty uncertain and runs away with a deal of sleep.

—The great race between Wm. O'Connor of Toronto, champion carsman of America. and H. Searle, the Australian champion, for £1,000, the Sportsman challenge cup and the world's championship, was rowed on Monday last in England, over the Thames course, and the Anstralian came in the winner by six boat lengths. The distance was four miles and two furlongs, and the time of the winner was 22 minutes 42 seconds. The start was made at 1.25. O'Connor spurting and taking the lead, loosing it again at the end of the first 100 yards through "catching a crab" From that to the finish Searle kept the lead, increasing it apparently as desired. In the opinion of many O'Connor was bothered considerably by a heavy wind and by the tide; Searle also won the toss for position and selected the best course. An enormous amount of money changed hands after the race, and the Toronto men were hit heavily. Big odds were at first offered by the Australians, but this came down to even money a few days previous to the race.... The American press now speaks of O'Connor as "the Canadiar."

The following letter from Mr. Wm. M. Rob

on of this town, printed in the last Canadian Horticulturist, will be read with interest by ocal fruit growers: "Knowing how deeply you are interested in any horticultural novelty, I trust you will pardon me for venturing to enlist your attention by describing a seedling plum which I have growing in my garden, and by sheer accident showed it possessed the property of transforming itself into a soft, flexible and delicious prupe perfectly cured, and will keep the year round without the least sign of becoming hard and dry. The way I discovered it was by simply leaving this plum in a closet in coming hard and dry. The way I discovered it was by simply leaving this plum in a closet in my tool house with many others, to make an assortment for fall show last year, and having more of this kind than was wanted the balance was left in a small wooden tray all the winter. On opening the closet this spring I was much surprised to find this plum in a perfect state of preservation, very inviting in appearance, and Mr. and Mrs. Thos. Reall pronounced it excellent in taste. Some of my horticultural friends think it must be valuable, to dry without sun or fire heat. I would have sent you a specimen, but, having only two left, and they being in a mutilated state by opening them, to show the pit and flesh to many parties. I should be much pleased to have your opinion (or that of any of your numerous subscribers) respecting this—to me and many others a novelty in Canadian plums."

plums."

—Since the foregoing was put in type the September number of the Horticulturist has come to hand with a second note from Mr. Robeon in reply to an enquiry from the editor. Mr. Robeon forwards two of the seedling plums or prunes as samples—all he had left—and asks the opinion of the editor, who is one of the best authorities on the continent. The Horticulturist gives the opinion as follows: "The quality of this prune is excellent, and in a good state of preservation. We hope to see more of it in order to form a more correct opinion of its value."

—The Peterboro Review of Monday says:—"Rev. James Smith, his wife and child arrived here last night from Montreal on a special train which was carrying the passengers who had arrived on the steamer Sardinian from Liverpeol to their destination in the west.Rev. Mr. Smith is a brother-in-law of Mr.John Nugent of this town, and has just returned to Canada after having spent ten years in almost unbroken labor as a missionary in British India. The rev. gentleman was born near Lindsay and is well known in that town. He left here with his wife in 1879 for the mission field, being sent out by the American Board of Foreign Missions. He has been laboring in Ahmednagar during the whole decade..... Upon being questioned about his missionary work work the rev. gentleman volunteered the following information: Ahmednagar, where I have been during my ten years, is an old city built about 700 years ago by the Mohammedans and afterwards captured by the Iron Duke, then Sir Arthur Welleeley, and held ever since by the English. I went there in 1879 and have been stationed there ever since. It is a city of about 36.000 inhabitants, and the American board have had a mission established there for sixty years. During this time we have had 60,000 converts in all classes and have established 150 schools, in which some 3,000 children are being instructed. I have been engaged in high school there in 1882. This school has grown until the pupils now number 300 and has developed into a college, teaching the B.A. course and being affiliated with the Bombay University. I have been given one year's leave of absence and intend settling during that time in Toronto. I am on the look out for young men and young women who will volunteer for the work. A goed education is one thing required, but it must not necessarily be a college education. I intend to go about the country lecturing and try and secure reinforcements
