LOCAL MATTERS. LINDSAY TOWN COUNCIL.

STREET AND BRIDGE AND FINANCE COMMITTEE REPORTS .- LINDSAY . ST. SEWER AND OTHER MATTERS.

The town fathers met in solemn conclave Monday evening, at eight o'clock, in the council chamber, and business was at once proceeded with. There were present, Mayor Walters, Reeve Crandell, Dep.reeves Williams and Ray, and Couns. Flurey, Touchburn, Parsons, Brown, Comstock, Fee and Bryans. The minutes of last meeting were read by Col. Deacon, who filled the position of clerk during the evening, and the same were confirmed by

From McIntyre & Stewart, on behalf of Mr. Alex. Ross, re lot 12, south King-st., west St. David-st., portions of which were purchased at different tax-sales by their client. The property later reverted to the crown and Mr. Ross's title being bad he had to purchase the whole lot. He demanded return of purchase money and inserest, \$38.35; taxes and interest, \$37.69; total, \$77.04.—Referred to the finance committee.

mittee.
From Chas. G. Cody, describing brickveneered building which he proposed to
erect on lot 6, north of Russell-st., to be
used as an implement warehouse by A.
Harrie, Son & Co.—Referred to fire and

water committee.

From James Deacon, chairman board of health, reporting that the cart built for the use of the garbage collector was too high, and it was being cut down by Dougaid Sinclair.—Received.

REPORT OF FINANCE CUMMITTEE. Coun. RAY, chairman, read report, which recommended that the usual grant of \$125 be made to the Central charity committee, se per request of Mr. E. Gregory, chairman, at last meeting, amount to be divided in the usual proportion. A number of accounts were also certified to.—Adopted. REPORT OF STREETS AND BRIDGES COMMIT-

Coun. TOUCHBURN, chairman, presented the finding of his committee, which stated that the report of the town engineer re the Lindsay-st. sewer had been duly considered and approved, and recommended that debentures for providing the necessary funds be issued for 20 years, interest at five per cent. per annum to be charged to real property to be benefitted, same to be exempt from general rate.....With regard to cutting down the hill on Bond-st. it was semed unwise to do so at the present time; that the motion to grant \$50 for the purpose be rescinded, and that the hill be graded instead, and a citch dug alongside to carry off the rainfall and refuse and protect roadbed from washouts.-Adopted.

PERMISSION GRANTED. On motion of Dep. reeve RAY, seconded by Coun, Touchburn, Sylvester Bros. were granted the right to rrect a small wooden building near their stables, as the same did not increase the fire risk.

THE FIRST OF JULY DEFICIT.

On motion Mr. John Dobson was heard on the subject of the \$98 deficit carried by of July celebration. He pointed out that everything possible had been done to make the day a success. Considerable money had been left in the town owing to their efforts, and he hoped the council would assume the debt.....Col. Deacon also bors testimony to the strenuous exertions put forth by the committee to make the day a suc-

It was finally moved by Dep. reeve WIL-LIAMS, and seconded by Coun. Brown, that this council grant the sum of \$90 to-wards paying the deficit of the lat of July. In amendment, it was moved by Deputy-reeve RAY, seconded by Coun. Flurry, that inamuch as there are no funds legally at the disposal of the council to aid any cammittee, it would be wrong to make the

grant asked for. Dep.-reeve RAY, said he did not want to ay much about the matter, but what he did say he meant. The members had pledged themselves to economy, and if the grant passed he gave warning that other steps would be taken. He saked that the

wate be recorded.

Mayor Walters thought there was money at the disposal of the council. The members of the committee had worked hard to provide a program, and had no doubt paid considerable money out of their own pockets. If the council refused it meant that three or four public spirited men, who are always at the front, would have to go down into their pockets and pay for what was a benefit and credit to the whole town.

Reeve CRANDELL etrongly favored granting the desired assistance. No pairry spirit of economy should be allowed to interfere with a proper celebration of our mational

The motion was then put and voted upon.
For-Messe. Touchburn, Brown, Williams,

MORE BY-LAWS. Council then went into committee on by-law No. —, to amend by-law No. 378,—the shade tree by law—by substituting the name of Thos. Neenan, foreman of streets and bridges, for that of John Duke, the present inspector. A saving of \$20 is thus effected.

THE LINDSAY.ST. SEWER. Town Engineer Bowman read a long report re the proposed new sewer on Lindsayst., giving full details in connection therewith; area to be drained, property bene-

Mayor WALTERS did not think that the dimensions proposed would be sufficient to accommodate the volume of water to be dimensions proposed would be sufficient to accommodate the volume of water to be carried during the spring freshets, and submitted extracts from the meteorological departments of the average rainfalls and snowfalls in Lindsay for years 1880 to 1889. The proposed work should be considered carefully. He believed in the old saying, "Make sure you are right, then go shead." Engineer Bowman read quotations from the highest authorities on drainage. These went to show that there was a craze for large sewers, but that this was a rustake. In the city of London an 18-inch pipe was found to be fully espable of accommodating the drainage from 1,800 houses. When a sewer is too large it gradually fills up and the expense of clearing becomes a serious disarge. His calculations in the present instance had been carefully made, and he was confident of their securacy.

Mayor Walfrins said he had no desire to happer the progress of the work, but wished to avoid any possible mistake, and vould suggest letting the report stand until Wednesday evening, when a special meeting might be had.

This was agreed to and the council then adjourned,

COMMUNICATIONS.

To the Editor of THE POST. Sin,-It is clear after the stand taken by the Emily Orangemen (or rather No. 41) that it would have been a great misfortune if our Lindsay central directors had secured the assistance of Sir John Macdonald to open the great fall show next week. Mr. Mowat cannot come as he is too busily at work "conspiring" new Jesuit bills. But if it is not too late our directors might get one attraction that would draw immeasurably better than John A., Oliver immeasurably better than John A., Oilver Mowat, Barnum's circus or Rev. Dr. Wild. They might invite Honore Mercier to attend and give an address. He might be left at liberty to dilate on turnips and short horns, on fall plowing or on the Jesuite; but if he could be persuaded to give an hour to the latter it might prove interesting. Mesers. Veitch, Dougald Sinclair and John McSweyn could be appointed a reception committee, and Mr. McSweyn could prepare an address. Honore would draw the biggest crowd ever seen in Lindsay. He would go under the arch too, if Bob Killsby put one up in the east ward, even if it had Barron's name on it. JEAN BAPTISTE.

Principal Harstone's Report, [To the Editor of THE POST.]

SIR.-For unmitigated cheek commend me to the high school masters and to Principal Haretone in particular. Not content with holding two meetings in Toronto in which Principal Harstone figured prominently, and in which the high school masters certified to their own fitness to preside at teachers' examinations and read the answers, to examine matriculants and conduct the proposed leaving examinations, and the unfitness of the inspectors to purchase stationery; a school inspector is taken to task for daring to exprese his opinion on the probable effect of one entrance examination instead of two on the high echools and the rural schools. And why? Because an inference may be drawn and it may burt the institute. Mr. Harwhy? Because an inference may be drawn and it may hurt the institute. Mr. Harstone merely contradicts what I did not say. I did not say that pupils are not promoted when fit. I say one pupil of the first form is ready for promotion in six months, another takes one-and-a-haif years. Suppose a high school to start with forty pupils in the first form. If one pupil geta through in six months thirty first form. gets through in six months, thirty-five may: leaving five pupils to be taught by one teacher for six months. Would it not be better to have a new class to go on with the remaining five?
J. H. KNIGHT, P. S. Inspector.

Grandy v. Fallis An Apology from Mr. Pallie.

To the Editor of THE POST. SIR,-Will you kindly publish the enclosed letter from Mr. Wm. Fallis, which has been forwarded to us by his solicitors for publication.

This apology has been accepted as a settlement of proceedings for libel comme by us against Mr. Fallis at the suit of Robert Grandy, the libel complained of being contained in the Franklin corres-

pondence of the Warder. Mr. Grandy's only object being the hon-orable vindication of his character, he has generously accepted this applogy offered by Mr. Fallia. Writers of such communications must not, however, expect to always be let off so easily. - Yours truly,
BARRON & McLAUGHLIN.

Lindsay, Sept. 16th, 1889.

FRANKLIN, 10th Sept., 1889. [To the Editor of THE POST.] Mr. Robert Grandy having denice that he is the author of the letter in THE Post signed K. C. S. G., or that he had anything to do with the same, I wish to retract any disparaging statements made by me in reference to him in my letters or in the Franklin correspondence of the Warder, and regret very much having used the same.

WM. FALLIS.

Inspector Knight's Report.

[To the Editor of THE POST.] SIR,-The report of Inspector Knight ounlished in THE Post of the 30th ult., is characteristic. It is so inaccurate that at subsequent meeting Headmaster Harstone considered it necessary to report to the board that if some statements contained in it go uncontradicted an injury may be done to the institute. After particularizing the inspector's misrepresentations and giving a correct statement of the facts, Mr. Harstone closes by saying: "I trust that before he again touches upon nigh school matters he will give them a a little consideration and be perfectly sura of his statements."

Regarding the public schools the inspector east that the objectionable prac-tice of delaying at the beginning and hur-rying at the end of the term has reappeared and "should be stamped out with deter-mination." From the language used the reader would be led to su-pect the existence of some very grave impropriety, but the committee to whom the report was referred, say that after careful consideration they "are not aware that our public schools are at fault in this regard under the present management." After the animus displayed in this effort to find fault with the management of the public schools one need not be surprised to find Mr. Knight saying that during the first six months of the year the head master "has really very little to do, and ccud as easily teach a fifth class in the first half of the year as a model school during the last Both of these statements are as far from being true as those above referred to. His evident desire to find fault with the present management without cause affords ground for the suspicion that he again schools at \$100 a year, and that to accomplish his object he is reserting to his old tactics. Some years ago when he wanted to supersede Mr. McFaul he presented a report which on investigation proved to be as untruthful as the one now under discussion. That time his plans succeeded; out now he had better have a care. Twice but now he had better have a care. Twice he has been deposed from the position of virtual head master, each time with marked benefit to the schools. Should the process have to be repeated the board may decide that to prevent future trouble the best way is to appoint a separate inspector for the town, as is done in other towns having the same relation to the county as Lindsay.

Lindsay, Sept. 18, 1889.

A Belleville special says: -Messrs. John Farley, barrister, J. A. Robinson, barrister, and W. Armstrong, mining engineer, left Monday morning for Lawrence to experiment on a farm which they have bonded there in consequence of samples of coal having been brought to town which, it is alleged, were unearthed while sinking a well. The coal was, it is stated, found at a depth of seventeen feet, under the hard pan. Another well was sunk in a different part of the field, and at the same depth a layer of coal was again struck, 'tis alleged. The company express their intention of sinking a shaft should the experiments

month and the 1st of Uctober promises to be the best we have yet had. Mariposa has had a splendid harvest this year, and as there has been progress in every farm-ed ing line we ought to have a grand show.

CARTWRIGHT. OBITUARY .- Mr. R. B. Spinks of Cart. wright passed quietly away on Friday morning last at a good age old and highly respected by all who knew him. De-ceased was a life long conservative, was for thirty years reeve of his township, and after retiring filled the office of treasurer until he could do no more work. No man in the township of Cartwright had more friends or was more highly esteemed. A he having built the dock for the Oshawa Harbour Co. many years ago, and also superintended other work. He was also brother in-law to Messra. J. & G. Hyland, East Whitby. The fureral on Saturday was one of the largest seen in the

township for years and testified to the high esteem in which he was held by the surrounding country .- [Vindicator.

BEAVERTON. [Correspondence of The Post.]
THE REGATTA.—The postponed regatta will come off on Monday next, 23rd inst., wind and weather permitting. As no word has been received from Orillia re the '87 prize money, which our boats won but never received, yachts from Lake Couchi ching are barred, and the contest confined to Lake Simcoe. We understand Barrie sending over some dandy boats. Well, let them come; the more the merrier. The owners, however, need not expect to take first money - Beaverton always does that, -and we propose maintaining our reputa-

RIFLE PRACTICE .- Our rifle association purposes having a practice on Thursday next, 19th inst., at 2 p. m., in the new range in "Ethel Park." The date of the match for the challenge cup (at present held by Mr. J. H. Sootheran of Lindsay) is not yet fixed, but will be shortly.

ONTARIO COUNTY.

FALL Assizes .- The fall assizes for the county of Ontario began at Whitby on Monday week before Mr. Justice Mc-Mahon. There was no crimininal ousiness and the she iff presented his lordship with a shout which startled the passers by. The the proverbial white gloves. His lord ship and the grand and petit jurors looked hep-py, but there were faint traces of sadness on the faces of crown officers-no cases, no fees, you know. The grand jurors, having chosen Mr. J. Adams as their foreman, were told that there was nothing for of Matz and tried to put him to the house and, climbing out of the window, took hold of Matz and tried to put him touched the them to do and that they could go home. The civil business was conflued to four Cases.... Redmond vs. Canadian Mutual Aid Company.—Plaintiff, whe resides near Oshawa, sued as widow for amount of a policy on the life of her late husband. The just ten minutes after the wire had touchdefendants resisted payment on the ground that the insured had ceased to be a member for non-new content of the windows a member for non-new case of the windows ed him. The body presented a horrible appearance. The wire had cased to be a member for non-payment of dues, that he was over age and had failed to pass the tion for re-instatement. A number of questions were left to the jury, on their moned said death was instantaneous. after hearing argument, in Toronto. F. H. Anglin for plaintiff; Smoke for defendants.....Boyle vs. Boyle.—Plaintiff sued her brother, Patrick, for one half of five years' wages at \$10 per month. The brothers, Michael and Patrick, in 1883 began farming as partners in Mara, their parents and sisters, including plaintiff, living with them. At the end of five years Patrick married, dissolving the old partnership for the new. This led to a winding up which led to Michael and the plaintiff taking a stand against Patrick. Then the claim for wages was made. When the parties met at court the plaintiff concluded to at court the plaintiff concluded to abandon her action and the case was accordingly dismissed. J. A. McGillivray for plaintiff; N. F. Paterson, Q. C., for defendant..... Hicks vs. Harper. - Plaintiff sued for damages for wrongful seizure and sale by defendants of certain chattels of plaintiff on which defendant held a chattel mortgage. The defence was that the plantiff had sold certain of the mortgaged goods, by which the mortgaged became due. This the plaintiff met by proving that the defendant permitted the for plaintiff; N. F. Paterson, Q. C., for defendant. ... Hicks vs. Harper. -Plaintiff sued for damages for wrongful seizure and sale by defendants of certain chattels of plaintiff on which defendant held a chattel mortgage. The defence was that the plaintiff had sold certain of the mortgage agods, by which the mortgage became due. This the plaintiff met by proving that the defendant permitted the sale. The case lasted all dev and into the night. A number of with sees were examined and at the conclusion ten questions were submitted to the jury. Some of the findings were in favor of the plaintiff,

others in favor of the defendant. The case stands for argument in Toronto. J. A. McGillivray for plaintiff, H. L. Ebbels for defendant.

A GOOD PRICE.—Mr. T. M. Luke, lot 5, 5th con. of East Whitby, has sold his farm of 93 acres to his neighbor, Mr. W. B. Guy, for the sum of \$8,000. This is a pretty fair price at a time when farmers say farming does not pay.

LIFFORD.

his ministry. EVENTS OF THE WEEK

-The loss by fire in Beauharnois, Que., a estimated at about \$40,000. -A heavy frost occurred in the Necedah,

Wis., district on Sunday night. -It is understood that Mr. Goldwin Smith's Bystander will be revived. -Chakir Pasha has issued a fresh proclamation to the Cretane, threatening with severe punishment ansone assisting

the insurgenta. -The English home rule deputation are having a triumphant progress through Ire-land. Their members addressed crowds aggregating 25,000 people on Sunday at Mallow.

-The Berlin Reichsannier publishes a decree of the emperor authorizing a loan of ninety million marks in consequence of the establishing of an additional army corps for A sace-L rraine. France is form. ing a new army corps for the department of Rheims, to be made up principally from

the old sixth and seventh corps. -Speaking at a ro 'ical meeting at Huddersfield last Tue-day evening, Joseph Chamberlain predicted that the alliance between the liberal unionists and conservatives would continue until the agitation in favor of the separation of England and Ireised was killed. He thought at the him, his wife having died some years ago. his sacrificing for a long line many cherhe having built the dock for the Oshawa. that he had no been called upon to make any sacrifice. The government was carry. ing much libers, legislation through parliament. The unionist leaders had learned

to work together and to trust each other. -The Touga steamer "Walnui" has brought to Aukland. N. w Zealand, the captain and crew of the British ship "Gareton," which foundered in mid-ocean. The shipwrecked saliors were twenty-two days in an open boat without food or water. On the twenty second day the men driven to desperation by hunger and thirst decided one of their number must be sacrificed to save the lives of the others. They were caeting lots to see who should be the victim, when they sighted Wallace island. The natives of the island assisted the exhausted men to land and treated them most kindly. A mission boat took

them to Tonga. -Joseph Maiz, an Italian, met a horrible death last Friday by coming in contact with a "live" electric wire at the corner of East Houston and Christie-ets., New York. Matz and another I alian kept a fruit stand there. On account of the rain torrents of water poured down from the gutter of the board awning, which was partially filled with mud. To remove this mud Matz climbed au electric light pole and gained the roof of the awning. On this pole were thirty wires. When Matz stoeped to clean the gutter he faced a network of wires about breast high. In performing his work he slipped and in trying to save himself he grasped one wire with hit hand and fell forward on another, which caught him under the neck and chin. Maiz then gave latter saw the man actually burn alive. Blue light sam from the wire when it came in contact with his akin, and the wire burned foto his flesh with a crackling wires. The moment that he touched the body Albert received received a shock that nearly three him to the ground. Finally, four inches long and had penetrated to the larynx. The hand which clutched the wire was burned almost to the bone. The

This can only be accomplished if the yeast used is reliable and always fresh. It must not impart a strong, unpleasant rea to flavor in the bread. Royal Yeast is of such a character that it never fails to make the lightest, whitest and sweetest bread. It is made of pure, fresh material, and retains its strength one year or longer. It is also very cheap, as one package will make from 60 to 70 large loaves of delicious and healthful bread, the very kind needed by dyspeptics. This celebrated yeast is manufactured by the well known house of E. W. Gillett of Chicago. Owing to the larve increase of busi-Chicago. Owing to the large increase of ous-ness in Canada the firm was conged to estab-lish a factory in Toronto three tars ago, where 36 000 cakes of this years are in the daily. For
