RETURNED FROM EGYPT. Mr. Malcolm Melean, one of our or terprising young farmers of this place, has recently returned from a trip to Egypt. He gives a very suthentic description of the wonders of the leastern world. In talking of the stupendous paramle combines, temples, the beautiful gardens and the gorgeous palaces beautifu graden and the gorgeous palaces and morques of Egypt, blacolin is right at home. He describes the condition of the people as little better than semi-barbaric, subsisting principally upon the bountiful amplies of nature. Agriculture he says, is systematically, though rudely carried on and is a principal occupation of the people; set not with standing the back-Wardness of its civilization and the rude state of its arriculture; owing to its areas fatural resources Raypt possesses many things very valuable in the world's commerce, and Malculu thinks that when the labors of missionaries shall have more fully divilly dead christianised by inhabitance that Reypt will rettake his place as one of

FALL FAIRS. BLDON FALL FAIR.

The finest of weather ushered in our fall fair this season and had the effect of bringing out a very large attendance. The of enlarging the grounds, as with the were closely crowded on the present grounds. Eldon and Mariposa furnished the principal exhibitors. The number of entries were larger than on any former year. A very fine display of horses was made. By far the greater number of entries was made in the driving class. The fine team of Mr. William McIntyre of Cannington again carried off the first prize. Mr. A. McKay of Thorah showed a handsome team of drivers. Amongst a number of the other exhibitors in roadsters we noticed Mesers. Geo. Arnold, A. J. Smith, Arch, McMillan, N. Brown, Duncan Mc-Eachern, F. McEachern, Wm. Cameron, A. Mathewson, F. O'Neil, A. McNattle, J. Sater and Wm. McKee. In the general purpose line Mr. Arch. Grant took first place with his fine team, but found strong opposition in the fine teams of T. Squires, A. McFarlane and S. Handcock. W. H. Burk, P. McKachern, W. J. Coad and S. Samie were also among the exhibitors. In the draught class there were fewer entries. A number of well bred animals were shown. Meeters. S. Buckler, John Campbell, jr., A McInnis, Peter Morrison, Wm. Beecroft and J. Bagshaw exhibited largely. An excellent display of both thoroughbred and grade cattle was on the grounds. McKeachern Bros., John Campbell, jr., Wm. Cowie, John McKay and Wm. McKenzle were prize-winners. A very creditable display of sheep of fine breeding was made. In Shropshires John Campbell, jr., McKeachern Bros. and A. McMillan made a good showing. In Leicesters R. G. Howkins, J. Bagshaw and Colin G. Campbell were large exhibitors. Wm. McKee showed a fine pedigreed Berkshire boar and sow. Meeters. Coad, McKensie and Stabback also exhibited in this class. In the domestic manufactures and ladies' work the display was unusually fine and large. The Misesee Gilchrist in the latter made a grand display. Excellent varieties of grain and roots were shown. In buggies and democrats a fine display was made by P. McMillan & Sons of the Beaverton carriage works. Mr. N. McKinnon in agricultural implements occupied quite a large space of the grounds. In harness, both light and Suter and Wm. McKee. In the general works. Mr. N. McKinnon iu agricultural implements occupied quite a large space of the grounds. In harness, both light and heavy, Mr. James Stewart and Mr. A. J. Smith were exhibitors. Messrs. Mathewson and Sneigrove of Beaverton had on the grounds some very fine buggies. Mr. J. Barnes had a number of his celebrated pumps. Altogether the show was one of the most successful ever held here.

SOMERVILLE AT COBOCONK.

The fall fair held at Coboconk village, on account of the unfavorable weather, was not as largely attended as it would have been under more favorable circumstances. The entries in the different classes were very creditably represented. A very fair exhibit of horses and cattle was made, In grain and roots the showing was good particularly in the latter. In the dairy products a very fine display of butter was made. On the whole the exhibition was an improvement on former years. Following is the
