On page eleven, of Bulletin No. 10 of the In nt, which has recently been in, sued, Prof. A. McGill of Ottawa, who has had sued, Prof. A. McGill of Ottown, who has had charge of making exhaustive analysis of baking powders for the Government, remarks in referring to imperial baking powder, that "this is an excellent powder," etc. This is a very flattering testimonial, considering that the majority of baking powders in the market are being unfit for use. Baking Powders containing Alum and Phosphate, Prof. McGill remarks, "are entirely objectionable, and ought not to be allowed in any well appointed bakery," As the cost of imperial baking powder is very little more than the numerous cheap adulterated goods referred to, consumers will find it to their advantage to to use "imperial" which they can depend on as being always reliable and the best possible to be had.

this process old roots can have porcelean crowns attached; consequently there is no plate required.

Gas, Vitalized Air, administered with great success for nearly 23 years, extracting teeth for thousands of persons without a particle of pain. He uses the latest .pproved oppliances for administering the Gas. He studied under Dr.Colton of New York, the inventor of gas for extracting teeth, who has given it to over 160,000 persons and not a fatal case.

MR. NKELANDS uses Ball's Local Anacethetic for extracting teeth. He is now using a new style of forcep which he had expressly manufactured while on his last visit to New York, which removes the teeth without danger of iniury to the gums or jaw, the sums healing up beautifully in a few days and no consequent trouble. Artificial Teeth inserted on all the popular bases and by the most approved styles and appliances for their retention and comfort. Numbers of persons are wearing teeth made by Mr. Neelands over 20 years and never required repairs. Prices from \$10 to \$65 for an upper or under set.

Persons from a distance will please send postal card before coming. Office, Kent-st., Lindsay, Oct. 24, 1809—72.
