the result is a collision, whether "coming thro' the rye," or not. Life is full of collisions. We are constantly colliding with somebody or something. If it isn't with our neighbors it is with some dread diseases that "knocks us off the track" and perhaps disables us for life. Women especially it seems, have to bear the brunt of more collisions and afflictions than mankind. M. Mitchell, florist, were drowned. There was no school in one room of the east primary, where Eddie Mitchell attended, so he being at home the three boys started for a ramble, going as far as Dale and then down the concession to the railway track, apparently coming that way home, cutting some shinney clubs in Mr. Choat's woods. It is supposed that being belated they attempted to cross the Corbett mill pond on the ice, as it was the shortest cut home, but they had only got some few feet from the shore when all three went down. Sympathizing friends assisted in searching for the bodies all night without success, until about ten o'cleck Friday. THE STEWART "ABDUCTION" CASE.—The so-colled Stewart abduction case is still exciting very unusual interest in the village of Greenwood. Sympathy in that neighborhood seems to be pretty much with the Stewart family. It is insisted that they are thoroughly respectable people, and do not deserve to be put before the public in any other light. The child recently "abducted" lived with Mrs. Lamont for two years while the Stewarts were at North Bay in the lumber business. After they left camp Stewart took the child home and the family moved to Scarboro junction. While there they notified the teacher of the public school not to allow Mrs. Lamont to remove the child from the school. The report is that Mrs. Lamont threatened to get the child back in her possession, and hence the vigilance of the Stewarts.
